

Free Amanita Newsletter 6/6/24: Year X & 3 Days of Darkness (3DD)

So do not pray for this people and do not offer any plea or petition for them; do not plead with me, for I will not listen to you. (Jeremiah 7-16 [Link](#))

Prophecies #19: Year X & 3 days of darkness (3DD)

In June 2023 ([Link](#)), the momentous announcement was sent out for the first time in the free newsletter that 2024 is the year X of prophecies that has been sought for thousands of years, when 50-80% of the prophecies come true (in the premium area this publication was made earlier). Until the beginning of 2023 there was still a realistic but *small* chance that 2023 could already be the year X. But due to the lack of events in the first months of 2023, this option was soon discarded. It is now exactly the opposite in 2024, where we are working through the plan for year X very precisely in an incredible density of events. Due to these countless confirmations, we can this time devote ourselves to a topic that only becomes relevant in the months after the promised nuclear strikes: the 3 days of darkness (3DD). We can now make the decisive blow... This newsletter is relatively short, because everything essential has already been said in the first 18 parts of the series of articles on the prophecies since 2016. This is primarily about bookkeeping: listing the fulfilled prophecies. There is only significant new information about the 3 days of darkness 3DD, which is the second part of the article. If we continue to stay so precisely on track for the year X, then this is the last free Amanita newsletter in the 'familiar mode', because from August everything will change fundamentally.

Thank you for your interest & I am happy to be able to give you this gift & God bless all white souls!

Yours,

Manfred Zimmer

Content of free Amanita newsletter & premium market letter: In 2000-15 Amanita Market Forecasting was a normal market letter with 80-95% of the content related to the financial markets. Since 2015 the content has shifted more & more towards general world forecasts, with special consideration of political, military, health & spiritual topics as well as earth changes. That's why since 2022 only about 20% of the content (text quantity) has been dedicated to the financial markets. With the upcoming collapse of the global financial system between until 2024 (2025) the financial content will naturally fall below 20%, which can't be avoided.

The free Amanita newsletter is sent out every 3-12 months, it complements the Amanita premium newsletter subscription, which is published 1-5 times per month (target: 30-40 premium updates per year). The free market commentary is only considered to be a commentary on the financial markets. The Amanita system is based on a high degree of diversification in 7 markets (currencies, cryptos, agriculture, precious metals, energy, bonds & stocks) & only makes sense as a whole (but never i isolated parts!), because all positions are well-orchestrated. For these 2 reasons (professional instruments & diversification) a replication only works for larger portfolios with at least EUR or USD

400,000, as well as for institutions. Because the Amanita premium market letter is very different from every other market service on the planet, you should be prepared for at least 3-6 months to get acquainted with the Amanita system. That's why the shortest subscription period is 6 months & trial subscriptions are no longer offered. Personal services had to be discontinued in 2008 because waiting times rose to more than one year.

Prophecies #19: Year X & Three Days of Darkness (3DD)

*The Magi are not afraid of powerful masters.
And they do not need a princely gift.
Their prophetic language is truthful and free
and friendly with the will of heaven
(Alexander Sergeevich Pushkin)*

In June 2023 ([Link](#)), the momentous announcement was sent out for the first time in the free newsletter that 2024 is the year X of prophecies that has been sought for thousands of years, when 50-80% of the prophecies come true (in the premium area this publication was made earlier). Until the beginning of 2023 there was still a realistic but *small* chance that 2023 could already be the year X. This newsletter is relatively short, because everything essential has already been said in the first 18 parts of the series of articles on the prophecies since 2016. With this newsletter, I would also like to step on the toes of 100% of the readership in an ecstatic all-round attack, because according to the survey, there has not been a single white soul among the subscribers of this free newsletter since 2022. If you do not feel offended, then I have made an unfortunate mistake & I apologize sincerely, contact me for a "*bitchslap-on-demand*."

Fulfilled signs end of 2023 to May 2024

*I still have many things to say to you, but you cannot bear them now. But when he, the Spirit of truth, comes, he will guide you into *all* the truth. For he will not speak on his own initiative, but will speak whatever he hears, and will declare to you what is to come. (John 16-12f)*

The last free newsletter from November 2023 ([Link](#)) focused on the fulfillment of an important prophecy in the approach to the great world destruction, namely the outbreak of the Middle East war on October 7, 2023. This was projected for Yom Kippur decades ago by *Chuck-Johne/Youngbrandt*, which in principle came to pass. However, this was not true in the Hebrew calendar, but in the Western calendar: on the 50th anniversary (= a jubilee year) of the Yom Kippur War in 1973.

That fulfilled one *single* major prophecy, but since the end of 2023 *several* (!) major prophecies have come true, as well as dozens of smaller ones: more is almost impossible. In the past, a major prophecy came true perhaps once a decade, e.g. in 1989 the fall of the Berlin Wall & 9/11 was seen by 100+ Christian prophets according to Pastor *Perry Stone* - but hardly available on the internet, which was still in its infancy before 2001. In the 2010s we accelerated to annual fulfillment, by 2019 already quarterly, then monthly & in 2024 we switched to weekly.

Now in May 2024 we even switched to the *last* possible escalation level *daily*: this was exactly predicted the premium area, i.e. that May 2024 will be the big waterfall moment when the dams break. This is probably the strongest confirmation that 2024 is indeed the year X of the prophecies that has been sought for thousands of years. On May 10th/11th, 2024, *two* (!) or possibly even three major prophecies were fulfilled within 24 hours. In the following, I refer several times to the book *Prophezeiungen zur Zukunft Europas* (2009) by *Stephen Berndt*: very useful, since his soul was still white at the time. Dozens of fulfilled prophecies have been discussed in the premium area since the end of 2023, in the following I would like to list only the 7 most important ones, I am continuously adding to this list ([Link](#)):

1. Early spring in year X: In January 2024, based on the Amanita weather model (centered on Vienna or Central Europe in general), the premium sector forecast that winter would be over and spring would begin in northeastern Austria and thus probably in Central Europe in early February - because in the year X of the prophecies we will have a very early spring. In fact, February here was the warmest in history (just like March) and the first frost-free in history ([Link](#)). In addition, it was forecast in January that in 2024 nature would develop 2-5 weeks faster than usual, 1-2 months faster than in my childhood in the 1980s. All of this happened exactly as it was, and from the beginning of February onwards new all-time records were constantly being set in Central Europe. The first people started mowing the grass as early as the beginning of March (which I have never seen before) and by the end of March the high was already *very* high in some places, just as predicted.
2. Iran-IsrahellWar in April of the year X: In the premium area it was said months in advance that *the* really big event risk timeline in the first months of 2024 is clearly mid-April 2024. If we define 4/15/24 as exactly mid-April, then this forecast came true on the geopolitical level with an incredible precision of +/-1 day, in the form of the blessing of the Iran-IsrahellWar on the night of 4/13/24: the biggest escalation since 10/7/23 (actually much bigger). More precise forecasts don't exist, the Amanita forecasts are of uncanny accuracy. In 2009, *Stephen Berndt* correctly placed the Middle East war in his book for April of the year X. According to *Pepe Escobar's* Asian insider sources, Israhellthen wanted to attack Iran with an EMP nuclear bomb, but Russia shot down this F-35 ([Link](#), [Link](#), [Link](#)). The Gaza war from October 7, 2023 was still partly a civil war and a staged event, but the war since April is absolutely real.
3. Sudden change in the weather in late spring of year X: The prophecies spoke of an onset of winter in late spring of year X. The Amanita weather model showed the only low temperature in spring for Central Europe around 1.5.24 (+/-1 week). In fact, at the end of April there was a truly extraordinary drop in temperature of 25-30° C: first almost 30° C & 2 days later up to 40 cm of fresh snow. In half a century of imprisonment in a poop bag on this slave planet, I have *never* experienced such a drop in temperature, it was a truly extraordinary event. *Berndt* located this drop in temperature in May of year X, i.e. it came slightly earlier. In June 2023, I warned ([link](#)) that this cold snap in year X would not be so bad if even the Austrian mountain farmers could still bring in the harvest according to *Egger Gilge* ([link](#)): but there was certainly frost damage at high altitudes. There will be *many* cold snaps until 2048, and the start of a small ice age will not be before summer 2027.
4. In 2023 it was predicted that Palestine would be divided during Omer 2024 (April 23rd - June 10th, 2024) & that is exactly what happened: in fact, on May 10th, 2024 the UN General Assembly voted to admit Palestine as a separate UN member state, only 5% of dirty foreskin worshipers voted against it. Dozens of prophecies since the 20th century emphasize that first the little Satan (Israhell) will be divided & then quickly after that the great Satan (USA). Because the axis of evil USrahell must be destroyed, before that the Christ can return. Pastor *Stan Johnson* is the perfect example of a black soul ([link](#)): in his boundless delusion he does not recognize how it is happening. Every true prophecy expert knows that things (almost) *never* happen exactly as one believes. If a black soul puts 2024 as the year X, then this would be a

mega-strong argument against it.

5. Since 2020, it has been said in the premium area that there are 2 plandemic waves, the first (Covid) being peanuts compared to the second plandemic wave, where we will wipe out the most evil race in the galaxy with great joy. John Paul Jackson already named 2020 as the year of the beginning of the perfect storm in 2008-12, which includes these two glorious plandemic waves. Since 2022, the protected area has predicted the onset of the second major plandemic for late May/ early June 2024. In late May the World Health Assembly ([Link](#)) in Geneva tried to implement the planned structure for plandemic X.
5 of the 6 big vaccine shares PFE, BNTX, AZN, CVAC, MRNA & NVAX were in a bear market until February-April 2024 for 1-3 years, but since mid-May 2024 all 6 have been suddenly skyrocketing, especially Novavax NVAX +300% around mid-May & +400% since the bear market low ([Link](#)): the smart money knows very well plandemic X. It begins in 2024 as bird flu & ends as zombies in 2025, already in 1987 REM understood in *It's The End Of The World As We Know It*: it starts with an earthquake & birds. The reputation of Pfizer/ BionTech, Moderna & AstraZeneca was pretty much burned, so this time it should mainly be operated by Novavax. This is reminiscent of the price explosions of the manufacturers of the death jabs from 11/3/19 when Covid was spread: BNTX added a zero in late 2019/ early 2020, *before* the plandemic was declared.
Covid was spread from November 3rd, 2019, the new epidemic X from the day of the North American solar eclipse on April 8th, 2024. In the case of Covid, the official definition of Covid came 2 months later, Wuhan was closed almost 3 months later & 4-5 months later the worldwide quarantine. This time, things will be very different, but this timeline still offers a rough indication. Years in advance, the last days of 2019 were highlighted as *the* great Mayan timeline of the roughly 800-year-old Dresden Codex & that is exactly how it was: December 31st, 2019 was the official birth of Covid, when the world changed fundamentally. We are approaching the approximate equivalent of December 31st, 2019, only this time we can destroy the most evil race of the galaxy so much more violently than 4 years ago.
6. According to Russian & Islamic sources, on Tuesday 4/23/24 at 5am, the red cow was sacrificed in JerUSAlem as part of a Jewish voodoo ritual in honor of the Yahweh reptile god ([Link](#)). We have waited thousands of years for this absolute key event #1 & now it has happened: of course like almost everything in the Yin style, i.e. quietly & secretly. The cow ash is needed for the 3rd Temple: a conference on this topic was in the Knesset on 6/2/24 ([Link](#)).
7. May 2024 was predicted in the premium area as *the* waterfall month, where events would accelerate incredibly in a dam break & that is exactly what happened. Above all, the goddamn NAZO whose dogs went crazy & decided to eliminate or murder all political opponents, at least 6 such (direct or indirect) attacks took place in just 8 days (i.e. almost daily) & 9 in 3 weeks - something like this has never happened before:
 - (i) 5/7/24 assassination attempt on the Saudi crown prince *Mohammed Bin Salman*
 - (ii) 5/12/24 failed attempt at a color revolution in Georgia, where the evil empire has already killed many politicians ([Link](#))
 - (iii) 5/14/24 attempted coup in the roasted Turkey against *Erdogan*
 - (iv) 5/15/24 assassination attempt on Slovakian president *Fico*
 - (v) 5/16/24 arrest in Serbia for an assassination attempt on President *Vučić*
 - (vi) 5/19/24 assassination of Iranian president *Raisi* & his Foreign Minister
 - (vii) 5/20/24 attempted coup in Congo
 - (viii) 5/25/24 emergency landing of the helicopter of Armenian prime minister *Pashinyan* ([Link](#)), not far from the *Raisi* crash site
 - (ix) 5/30/24 *Putin's* Altai residence burnt down ([Link](#))These are only the *known* attacks from the Yin side, there could be a considerable number of unreported cases: in any case, there have already been assassination attempts on *Putin* & *Xi Jinping* in recent years, perhaps also in 2024. This is at least a partial fulfillment of the very important prophecy of the murder of 3 high-ranking officials shortly before the deployment of the promised nuclear saviors. One could even count it as a total fulfillment if one includes the killing of the English reptilian princess Kate or of Klaus Schwab - who are officially still alive. Both are undoubtedly among the 100 most important leaders in the world.
The deaths of several high-ranking officials were seen by at least 3-7 sources, and not just by the erring *Irlmaier*, who is one of the worst prophets of all & that is why this pig priest is so

popular among the (m)asses.

In almost every respect, the current Third World War is more like World War I than World War II. World War I began with the murder of the Austrian heir to the throne, *Franz Ferdinand*, on the orders of the Serbian *Black Hand Masonic Lodge*. Back then, a single assassination attempt was enough, but this time there is a whole series of assassinations in 13 days, so to speak, several outbreaks of world wars.

In 2009, *Stephan Berndt* listed 7 reliable signs before the multi-orgasm of World War III in August of the year X based on 100+ sources & so far all five have come true by May of the year X. The two remaining signs are: June Russian fleet in the Mediterranean & July series of assassinations. There will be a large Ukraine peace conference near LuCERN (Switzerland) in mid-June: this could be the prophesied conference, a little earlier than in the *Berndt* model. It was always questionable that this would be in the Balkans, there were also completely different statements about it. A landmark of LuCERN are the Musegg Towers, 4 of which are open to the public in summer ([link](#)): are these the 4 towers of the conference town according to a few prophecies? By the way, 4=Saturn is the number of Switzerland, other assignments: 5=Mercury & Chiron=Austria, 6=Venus=axis of evil USrahell, 19=Islam ([Link](#)) & 33=Freemasonry.

You should never assume that a prophecy will be fulfilled 100% (like the wannabe experts), but start with 50% and then correct it up or down depending on the development. In any case, the series of assassinations has already begun & I don't want to 100% rule out that it is already over: it is coming (in part) a little earlier than expected. Up to now there have been no acts of war in the Mediterranean, but since the end of May that has suddenly changed: the brave Houthi freedom fighters attacked a ship of the foreskin armada ([Link](#)). So here too we are already seeing a partial fulfillment of the *Berndt* model.

There are myriads of other confirmations of the ongoing Third World War: in May the PutiNATOr declared total military mobilization ([Link](#)). The daily death toll from Russian denazification is not much lower than in the two world wars: nobody in the world actually understands this, because black souls (99.98% of humanity) can only be rudimentarily in agreement with the truth. The former Polish army chief spoke of >10 million missing Ukrainians ([Link](#)): 2-3 zeros more than the 31,000 dead Ukrainian soldiers admitted by the filthy NAZO pig in Kiev ([Link](#)). On the one hand, millions of Ukrainians escaped abroad, which lowers the death toll a lot, on the other hand this figure does *not* include the Russian losses. Since 2020, a quick heuristic (rule of thumb) has been that negative numbers in reality are often 1-2 zeros (x10-100) higher than the official numbers. Since 2023, we sometimes even have to add 2-3 zeros (x100-1000) for the truth. According to the Most High, the true death toll is 4-5 million. The First World War officially resulted in 17 million victims, but was twice as long at 4-5 years. So the intensity of the war since 2022 has been roughly in the range of the *early* stage of the first two world wars, which nobody notices. However, such impressive numbers are nothing compared to the hybrid war with the plague weapon: with it we have already been able to halve the world population, thank God!

3 days of darkness: reason for the previous omission

Hell is empty and all the devils are here. (William Shakespeare: *The Tempest*, 1623)

In this article, I offer a tiny synopsis of the current state of research on the three-day eclipse (3DD) in the free area; in the premium area, there is about an order of magnitude more in purely quantitative terms. However, due to the difficulties described above, this is by no means set in stone; new findings are constantly being added. In the following, I would like to discuss questions that have hardly ever been discussed, especially the purpose, causes, protection & aftereffects of the eclipses, with a focus on the three-day eclipse: So far, I have hardly mentioned the 3DD at all in the free area for many reasons (a little in June 2023), the most important of which are:

1. Relevance only for a small minority: First of all, the sources leave no doubt that this darkness will only come *after* the great nuclear redemption, so the majority of humanity will not experience the 3 days of darkness at all & therefore it will only have any relevance for a small minority. Rabbi Moshe Sternbuch (1720-97) said that in the final war, 1/3 of the world's population will die and 1/3 will be wounded in 12-20 minutes. Most sources on the 3 days of darkness say that, thank God, we will wipe out 67-75% of humanity as spiritual garbage disposal: an extremely beguiling idea.

2. Approximately 6 different eclipses: Unfortunately, they only ever talk about the 3 days of darkness, which is absolutely untenable. At least some good sources come to the conclusion that there are several eclipses, such as *Julie Whedbee* ([Link](#)) & Pastor *Stan Thompson* with his Bible interpretation ([Link](#)), however, his soul turned black in 2022. *Stephan Berndt* made a significant contribution to this absurd misleading deception with his German-language standard work on the subject, *3 Tage im Spätherbst* (4/26/17). In his book he only discusses a measly 57 old sources: of which only about half speak of *3* dark days & without drawing the right conclusions, because in 2017 his soul was already black. *Berndt's* second disastrous mistake (out of dozens of hair-raising errors) is that he assumes an era of 25 years peace between the 3rd World War/ three days of darkness & Antichrist: of the 1000+ prophecies on my list, maybe 3 mention this absurd scenario. One of these three sources is *La Salette*, one of the most dubious Marian apparitions: one of the two seers *Maximin Giraud* drank himself to death in his 30s etc. ([Link](#)). I therefore do not take *La Salette* into account at all. The Antichrist comes as 3 persons, as seen by *Josip Terelya* in 1991 ([Link](#)): since 2013 the black antipope Francis as a false prophet & the Jewish Antichrist as King of JerUSAlem has already been anointed in 2022/23 in the same rite as King *David* 3000 years ago. The third (Persian) Antichrist has been champing at the bit ever since the wild Persian cat devastated the foreskin in April 2024. It is true that the (first?) three-day eclipse is the most dramatic and most important for several reasons: it comes completely unexpectedly and is experienced by far the most people. The later eclipses are no longer completely new to those still alive. The sources speak of at least 6 different eclipses of varying lengths: (i) 3-4 hours, (ii) one day (*Am Bunmi* from Abuja in Nigeria [Link](#)), (iii) two days (37 days before the three-day eclipse *Marie-Julie Jahenny* 11/28/1881), (iv) three days (100+ sources), (v) seven days (Buddhist sources) & (iv) ten days. It is not certain whether all of these eclipses are actually global, some could theoretically be local. The causes of these eclipses are also likely to be different each time.
3. Quantity: The irregular eclipses are certainly the most prophesied event of all, in total, there are now 1000+ prophecies about the irregular eclipses. Prophecynews444 provides 169 sources on this ([Link](#)), see also a compendium as of March 20, 2023 with 300+ pages ([Link](#)). The YouTube filter 'only the last hour' for the search term *3 days of darkness* alone yields e.g. 3-7 sources per hour, which is some 100-150 per day & 50,000 per year - although of course a lot is just repetition of old content, but some of it is actually new. I am constantly finding further old & new sources on this, for example the Spanish saint *Vincent Ferrer* (1350-1419) spoke of the soul review ([Link](#)). In some cases, one must even add the prophecies of the rapture. even if these delusions of the evangelicals will definitely not come to pass, there will still be *several* raptures: for the white souls perhaps *during* the three days of darkness, for the wedding with the Lamb? Even the shower of sparks prophesied by several sources is most likely a sign of one or more eclipses.
4. Quality (contradictions within & between the prophecies): While the quantity is overwhelming, the quality is mixed to weak, there are many contradictions between the prophecies & even within the prophecies. Particularly blatant is the statement that one should not look outside under any circumstances, although the same prophecies say that one should not even see one's hand in front of one's face: a blatant contradiction. Unfortunately, there is no real agreement about the duration, season, day of the week, day of the month & time of the beginning of the 3 days of darkness: one of myriad signs that different eclipses are meant here. In terms of duration, the range mentioned is 2.5-3.5 days, which is still tolerable & is partly explained by the different positions of the continents in the day-night cycle. Even the *Waldviertel farmer SZ* ([Link](#)) makes a real faux pas when he places the shower of sparks as a sign of eclipses: on one occasion he places the shower of sparks in the first half of August because the grain is almost ripe and the position of the stars, and in a letter dated March 16, 1976 to *Prof. DDr. Andreas Resch* he places it in early summer (June to early July). SZ is actually in the best of the three classes of junior prophets, while the erring *Irlmaier* is in the worst class: there is a world of difference between them. *ITOMA* also saw the shower of sparks in a summer, without more precise quantification ([Link](#)). Both speak of people going outside in joyful anticipation of seeing a special celestial phenomenon (auroras?) – but the matter goes off the rails, so to speak. *Goran* 's three-time spark vision suggests mid-summer to late summer ([Link](#)) & the series *Under the Dome* associates the rain of sparks with the crowning of the

monarch ([Link](#)). By the way, *Phoebus from Vienna* already spoke in 2020 about the soul review specifically in the summer of 2024 ([Link](#)), as the *only* source known to me.

5. Missing explanations: This is by far the most mystical and strange theme of the prophecies, for which there are no precedents in conventional life experience. The most bizarre are the descriptions of a living, tangible or thick darkness and that not even (unconsecrated) candles are burning. *Joel 2-2* speaks of a thick darkness. Furthermore, the description that one can protect oneself against demons by closing all doors and windows and not looking outside makes no sense. Demons are higher dimensional beings that cannot be stopped with three dimensional structures.
6. Coding: The soul review as the probable beginning of the eclipses is the most important event in the 10 million years of human history and therefore also the most coded. Until recently, the Boss didn't reveal too much very. This explains why surprisingly little happened until 2024. On March 5th, 2024, I asked the Boss to clarify these many open questions. The following night, on March 6th, 2024, at 4:44 a.m., I had a strange dream that actually caused even more confusion: A prime example of divine play Lila. This dream was highly coded and turned the previously favored timetable on its head, pointing to June 2024 and March 2025. Later, confirmations were added by decoding other messages ([Link](#), [Link](#), [Link](#)). Until 2023, I understood the topic of the eclipses to less than 50%. The big breakthrough only came in 2024, just in time, and my understanding of the 3DD is now more than 95%.
Because of the incredible acceleration since May 2024, I now 100% rule out 2028 as the year X & almost everything points to 2024: if at all, 2025 still has a realistic, albeit tiny, chance. Actually, there is only one real argument for this: that you have to allow an inaccuracy of +/-1 time unit for *all* time specifications, in this case 2024+/-1.
Incidentally, *Phoebus from Vienna* predicted the Garabandal miracle for 2025 four years ago ([Link](#)) and he had learned from the Waldviertler farmer SZ in 1991 that these events would not occur before the 2020s ([Link](#)). The Austrian farmer SZ is the 180° opposite of the will-o'-the-wisp *Irlmaier*, who had a permanent imminent expectation as early as the 1950s: he is thus the patron saint of the 95% of prophecy idiots. *Bibhu Dev Misa* ([Link](#)) claims that the end of the Kali Yuga will be on March 21, 2025 according to his calculations. He also refers to *Alice Bailey*, the mother of all esoteric aunts, who prophesied almost a century ago that the avatar of the new age (= Kaiser Henry the Lucky) would appear in 2025 ([Link](#)). Similarly, *Nostradamus 4-86* speaks in this context of Sun 0° Saturn in a water sign, which until 2032 only occurs in March 2025. As prophesied in *Matthew 21-43* & in the original texts of the *Societas Templi Marconi*, Emperor *Henry the Lucky* will first be rejected by the Germanic people before they accept him as their leader ([Link](#)).
7. No omens (until mid-March 2024): There are a number of *direct* omens for the eclipses, none of which had been fulfilled by mid-March 2024. However, mid-March 2024 was predicted in the Premium area as the timeline where the window for soul review & eclipses opens. In fact, since mid-March we have seen not only important omens, but even a partial fulfillment of irregular eclipses. There is no doubt that before the three-day eclipse (=judgment=yang) the soul review (=grace=yin) takes place, apparently with an eclipse of 3-3.5 hours. We have seen three omens since mid-March 2024:
 - (a) Dozens of prophecies cite *worldwide* auroras (after solar storms) as omens immediately before the eclipses. In fact, since spring 2024 we have suddenly seen extreme auroras like the last time in 1872, in May at least up to 20° from the equator ([Link](#)). The trigger was the largest sunspot since the Carrington event in 1859 (No. 3666 +/-2) on May 10th/11th, 2024, a repetition could cause a blackout on at least some continents (or even worldwide). So we are seeing at least half or even full fulfillment of this sign here. The massive solar storms around May 12th, 2024 were predicted almost *to the day* by the biologist *Bret Weinstein* 3 years ago ([Link](#)). Above all, the earth's magnetic field is getting permanently weaker, so that even weaker solar farts are enough for ever stronger northern lights.
 - (b) Garabandal also mentions the Pope's trip to Moscow as a sign shortly before the soul review (week?), presumably accompanied by an eclipse of 3-3.5 hours: there has *never* been such a thing in history. Shortly after mid-March, the Pope's trip to Moscow was announced for June & then immediately denied by a Vatican spokesman ([Link](#), [Link](#)). A meeting of heads of state is *normally* announced months in advance & the Pope's trip to Moscow has therefore been announced for years as the most important medium-term indication of the soul review. But this

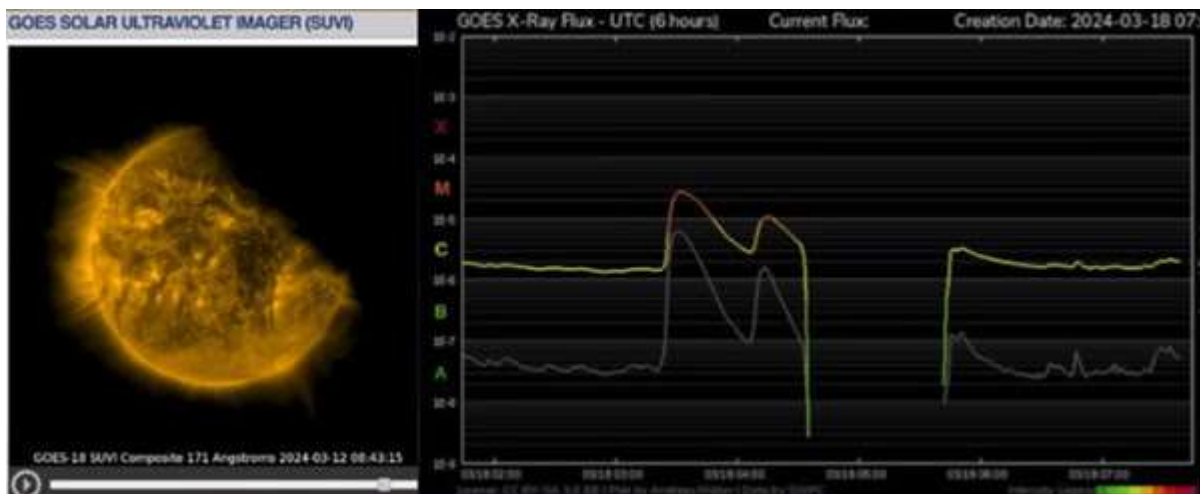

denial could mean that the Pope's trip to Moscow remains secret & may not be officially confirmed until (long?) later: in this respect, the soul review could take place without official confirmation.

(c) But the most exciting are the irregular partial solar eclipses in mid-March, which of course the ignorant (m)asses noticed exactly 0%. Around mid-March I thought for a few days: strange, somehow it is colder than the objective temperature (18° C at midday) would suggest. It was sunny and yet it felt cloudy, i.e. darker. A few days later the explanation came ([Link](#), [Link](#)). We experienced a partial solar eclipse lasting over an hour for 3 days, which was practically a foreshadowing of the prophesied three- hour and three-day eclipse that was also recognized by a US seer in 1991-92 ([Link](#)). A kind of 'cloud' (???) moved in front of the sun 3 times. *Prof. James Kaufman*, former NASA scientist and one of the most prominent solar observers, even spoke of a micronova in this context ([Link](#)), the video was of course deleted by the YouTube terrorists. Small partial eclipses of the sun of perhaps 20% like this are hardly noticed at all, they are like clouds in front of the sun. Even the NASA terrorists were apparently surprised at first and only started their usual falsification process (including covering up a quadrant of the sun's disk) after a delay. Parallel to these events, there was an almost total collapse of electromagnetic radiation on Earth.

This 'dress rehearsal' for the irregular eclipses went practically 100% unnoticed and was therefore, to my knowledge, only predicted by a single source, namely Vicki Goforth Parnell on January 6, 2024 ([Link](#)): forecast of an (irregular) eclipse in the 3rd month after January 6, 2024. *Bill Gates* and the illuminati have been saying for a long time that they are doing everything in their power to block out sunlight, including with solar sails ([Link](#)): this slight darkening of the sun by a dome was incidentally already predicted by the Simpsons on July 21, 2007 - almost exactly 16.66 years before it happened.

These events are reminiscent of the intervention of our friends from Sirius (from 8/4/1972 Sirius experiment [Link](#)), it is certainly no coincidence that this irregular eclipse was practically *exactly* a large PEI cycle of *Martin Armstrong* 51.6 years later (3141x6 days). Without the intervention of the Sirians we would have been thrown back to the Stone Age in 1972 (total blackout): despite the Sirian shielding, the fastest solar wind in history was measured in 1972. In mid-March 2024 we also saw shielding, but with bad intentions, not with good intentions.

We have so much of an incredible escalation every day ([Link](#)) as well as other surprising omens: in his vision of March 23, 1984, *Edward Korkowski* (*Kampf der Dimensionen*, Volume I, p. 196) saw the sudden appearance of runes in Europe before the darkness. Now in May, Russia painted the rune (Spear of Odin) on military vehicles, which was historically used in the fight against the Khazarians: Russia knows, of course, that the so-called Jews are mostly Khazarians (DNA analyses say 90%): code for the march on JerUSAlem, which has been occupied by the Khazarian mafia since 1967. Runes are very powerful: more than 30 years ago, the Viennese brain researcher *Dr. Gerhard Eggetsberger* tested hundreds of exercises for their brain effects, and the PC muscle (from Tantra & Taoism) & 6 runes turned out to be by far the strongest ([Link](#)).

3 days of darkness: purpose spiritual garbage disposal

When it really happens [year X], nobody will believe in it anymore. That is the whole strategy behind it. (Osho 1987)

The main purpose of *all* eclipses from the 3DD is spiritual garbage disposal, only to a much lesser degree to wake up the sleeping sheeple: but it appears that a few can still make their soul white during the 3DD. Unfortunately, the most hopeless case are the wannabe prophecy experts, who almost never realize when portents are fulfilled. The image below sums up the absurdity of prophecy eggheads. It was taken from the 1983 film *The Day After* ([Link](#)) with the theme of US destruction by nuclear weapons. It shows the survivors of the nuclear attack in the ruins. A wannabe prophecy expert would protest vigorously here and object that not all the omens have come to pass: "Now it won't be long before WW3 breaks out, only few portents still need to be fulfilled!" I have expected for years that 80% of the strong portents will be fulfilled & 50% of the weak portents: in 2024 we are definitely *over* these levels. One can distinguish 3 major topics: epidemics, wars and earth changes. Since 2020, the epidemics have been *much* stronger than expected & prophesized, the wars are more or less as expected, only the natural disasters remain well below expectations for some inexplicable reason.

I complain to the Creator of heaven and earth every day: the subtle stink here on this planet is terrible, no white soul can stand it – please we need spiritual garbage disposal pronto in the form of epidemics, wars and natural disasters. The good news is that each of the approximately 6 eclipses will clear out 5-75% of humanity. Likely, the death toll of soul-review eclipse (3-3.5 hours) remains in the single-digit percentage range in the week after: we want to take it gently and not rush into things. But during the 3 days of darkness, it's time to 'let the cat out of the bag' like in a fairy tale & beat the most evil race in the galaxy with heavenly brutality: death rate 67-75% according to most sources, e.g. *Josef Stockert*, *Marie-Julie Jahenny*, *Sister Mary of the Crucified Jesus* (19th century), *Maria Baourd & Porto Stefano* ([Link](#), [Link](#)).

This of course affects the population still alive then, which is pleasingly small. With Bill Gates' Covid miracle weapon we have already been able to halve the world population of 8 billion (backed up in the premium area with dozens of pieces of evidence), praise be to Christ. *Gates*, like every black soul, is a slave of God & serves God even if he doesn't want to. In China, the great role model, we have already been allowed to slaughter 75-80% of the dragons & therefore around 93% of the shops in China have already closed, and more and more houses are simply being given away. According to official figures, there were 93% fewer births in parts of China as early as 2023 ([Link](#)), so many strong *Pfizer* batches were distributed with a mortality rate of >99% among babies ([Link](#)).

Back in 2010 I predicted here that the world population would reach its all-time high in 2012-13 & the epidemic/ population reduction actually began in 2013-14 - which of course nobody wants to

admit, a black soul can never be in accordance with the truth (currently 99.98% of people have a black soul). To my knowledge not a single (!) prophecy said that we would wipe out half of the world's population *before* the year X: the prophecies often portray events in a way that is far too harmless & euphemistic, thank God everything turns out to be much more dramatic.

Furthermore, the 3 days of darkness only comes after the multi-orgasm of World War III, when, according to Rabbi Moshe Sternbuch (1720-97), 1/3 of the world's population dies and 1/3 is wounded in 12-20 minutes (and a large proportion of the wounded die the following year). In this respect, we can be confident that Mother Earth will soon experience a miraculous cure for her worst plague. If Russia *does not* (!) use the atom bombs, not a single person will survive, so we absolutely need the Russian nuclear saviors. According to the quasi-senior prophet Benjamin Solari Parravicini (BSP), after the fantastic nuclear solution, 3/4 of the world will sink into chaos ([Link](#)). The remaining quarter or third is mainly in Eastern Europe, Russia, China & parts of Asia & Africa, while in Australia & the Americas almost nothing is happening.

We know that the 3 days of darkness are in late autumn of the year X: the exact date is still somewhat questionable, the most likely date was explained in the premium area. *If* nuclear redemption occurs, then the survivors should prepare from this point on for the 3 days of darkness 2-4 months later. The start of nuclear redemption is dated almost identically by dozens of prophecies: August 11-17 in the year X, with another peak around September 23-28 in the year X (42 days later). I am even constantly finding other consistent prophecies, e.g. the Buddhist Obon festival August 13-16, 2024, where the overhang is corrected = spiritual clearing out. The Chinese Nostradamus Liu Bowen (1311-1375) spoke of the fact that for eternal life (=Christ's return) one must survive the year of the dragon & snake (=2024/25) & specifically the Obon festival on the 15th of the 7th lunar month ([Link](#), [Link](#), [Link](#), [Link](#), [Link](#), [Link](#)). The next opportunity would only be 12 years later, which is of course way too late. Liu Bowen spoke of the great epidemic outbreak in the year of the pig & rat 2019-20 & the closure of Wuhan was actually exactly at the intersection of these two years, i.e. at the Chinese New Year in early 2020. He even correctly saw the focus in the province Huguang: that is roughly Hubei with the capital Wuhan.

We need the Russian nuclear saviors like a bite of bread. In the 20th century, the Orthodox elder Christopher of Tula ([Link](#)) spoke of two end-time scenarios: in the first scenario, the great war comes (World War III with ABC weapons), then humanity survives. However, if the great war does *not* come (second scenario), then humanity dies out (!) completely... Because if we humans do not clean up the mess ourselves, then the highest authority in the universe will tear our planet into confetti, similar to the Mallona/ Maldek/ Tiamat, whose remains decorate the asteroid belt: permission was granted for this in early 2023.

A few sources, such as Helmut Lungenschmid, claim that the return of Christ will be immediately at the first sunrise after the 3 days of darkness ([Link](#)): this is only possible through the spiritual clearing out in these 3 days. In 2022, Lungenschmid's soul turned black; I met him personally when his soul was still white.

3 Days of Darkness: Causes (of Death)

This leads to the question of why exactly 2/3-3/4 of people die: this was hardly discussed until 2023, at best hinted at. What is true is that some (especially those who have been injected) get a heart attack due to the enormous stress (giants cause stress!) and die from it. But there are still 2 zeros missing for 67-75%, what is the rest? My 4 speculations on this - I stress 'speculations', because the sources are quite weak:

(1) Ultimate MCAs: Many prophecies not only speak of a global blackout, but also that electrical devices will no longer work in principle, i.e. not even with batteries: something similar to a temporary EMP? This of course leads to deaths directly and indirectly: if you are in the Arctic Circle, power outages can lead to freezing to death after just 3 days. It is questionable how long the black starts will take afterwards and whether they will even succeed. But the most dramatic effect by far if *all* electrical devices do not work is that all 400+ nuclear power plants around the globe will experience a super-GAU, because the diesel generators for cooling will also no longer work. 400+ super-GAUs would kill *all* of humanity within a year: in the northern hemisphere, with many more nuclear power plants, more quickly than in the southern hemisphere. But that doesn't

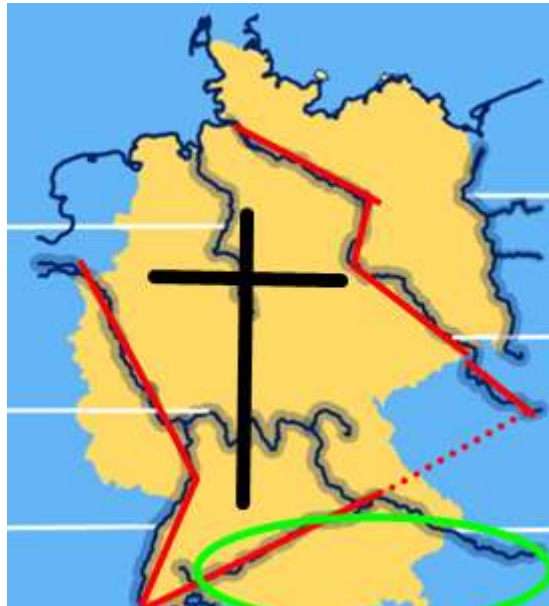

fit the prophecies at all, so it can't happen like that, but why? There are only 3 ways to resolve this contradiction:

(a) These prophecies are false.

(b) Supernatural intervention.

(c) All nuclear power stations will be destroyed beforehand with tactical atom bombs, which generates less than 1/1000 of the radioactivity of an ultimate MCA. However, this only seems realistic where *Ivan* cleans up the mess, i.e. Europe and North America. I see the inevitable ultimate MCAs of the French and Swiss nuclear power plants as the main reason for the nuclear contamination in Western Europe, so thankfully only a few survive there. Some years ago, during a test of French nuclear power stations, a large proportion of the emergency generators *did not* work, i.e. they would immediately explode during *every* blackout, not just the 3DD. This explains why Western Europe becomes pretty uninhabitable and only Brittany will remain habitable: because in typical western weather conditions the radioactive fallout is blown eastwards (hundreds of kilometers without rain). In total, according to *Nostradamus* 8-34, from Lyon via Switzerland to Ulm-Augsburg, we will kill 7 million people ([Link](#)): that is the highest death toll mentioned by the king of the Prophets. This also explains the prophecy that in France you partly have to walk 50-100 km to meet a single person.

Moreover, this is the background to the almost 1000 year old Hepidanus prophecy ([Link](#)) of a huge field of corpses between the Danube, Rhine and Elbe - with the missing piece between the Danube and Elbe being roughly the line Regensburg-Prague. This is certainly only a broad estimate, one should allow a tolerance of +/-100 km or more. So only the southeast (parts of Bavaria) and the northeast (especially Prussia) remain, but we devastate the Northeast with the promised North Sea tsunami and the yellow line, hence not much more than a small part in southeastern Germany remains. That is why Germany becomes Austria's junior partner in the German Reich: A.E.I.O.U. In the film *Endzeit* (2019), the Weimar-Jena area remains as a habitat: this could work for a while before we destroy everything within a radius of hundreds of kilometers with an exemplary asteroid impact near Plzeň (July/ October circa 2034 +/- years [Link](#)).

(2) Transformation of the vaccinated into zombies: It is possible that the zombie outbreak prophesied in the Bible will begin during the siege of JerUSAlem with the three days of darkness, i.e. that all those who are actually vaccinated (with a MAC address) will turn into zombies ([Link](#)). In the Italian Manduria prophecy of January 16, 2010, it was specified that the 3 dark days will occur while JerUSAlem is surrounded by liberators from dozens of nations ([Link](#)). According to sources such as *Father Paisios* of Mount Athos ([Link](#)), this siege will last 6 months & then we ask nice Muslims to take JerUSAlem & occupy it for 42 months. So that means that from the beginning of the siege of JerUSAlem under Russian leadership, the clock is ticking: 3DD within 6 months. A possible date for the beginning of the siege is 8/13/24 Tisha B'Av, *the* Jewish unlucky date.

The Bible speaks of a death rate of 5/6=83% among the besiegers of JerUSAlem, which should correspond almost exactly to the *actual* vaccination rate (without placebos) among soldiers in late

autumn 2024. On the one hand, vaccination was compulsory almost everywhere in the military, and on the other hand, some of them have already died. So you should definitely not spend these 3 dark days with needle devils, because they could tear you apart.

Because the beings brought in by the Swiss CERN seem to be at the 3D/4D dimensional boundary, i.e. semi-ethereal: at this dimensional boundary, windows, doors & walls actually still represent an obstacle. On a subtle level, there is a connection to the Covid death injections via the bridge of dark matter or black goo or black slime/black oil or graphene oxide/ hydrogel ([Link](#), [Link](#), [Link](#)). It took years for the vaccinated mutants to self-assemble into androids/ cyborgs, in order to fight us humans: but now in 2024 we are ready. Already in 1984 the *TerminATOR* warned that the cyborgs would arrive in 40 years = 2024 ([Link](#)) – and that we will defeat the mutants/ machines/ AI in 2029, an approximate date has been calculated. This also occurs 14 times on Prophecynews444.com ([Link](#)), especially by EWM ([Link](#)). It is of course no coincidence that both CERN and the WHO are based in Geneva (astonishing for a relatively small city with fewer than 200,000 inhabitants): the two mutually enrich and promote each other on a subtle level. This also explains the manifold descriptions of a * living* (!) darkness, see also Vicki Goforth Parnell ([Link](#)). In this respect, we can hope that no injection devil survives the 3 days of darkness. It could start as early as 3-3.5 hours of darkness on the day of the soul review, in the week following, I expect that a single-digit percentage of humanity will kick the bucket (or injection).

Of course, this only applies to those who did not receive exclusively placebo injections, which can be verified by whether this person has an unknown MAC address or not, as researched in 2021 by the Spanish doctor *Luis Miguel De Benito* with a doctorate in molecular biology ([Link](#), [Link](#), [Link](#)). 0% of the unvaccinated had a MAC address in this small pilot study, but 86% of those (single or double) vaccinated did, which confirms the average placebo rate of 20-40%. There were even updates to the operating systems of the cell phones (= 666 marks of the beast) so that the MAC addresses of the injection devils are no longer automatically displayed - that's why you need bluetooth scanner apps ([Link](#)). Some vombies (vaccine zombies) even have several MAC addresses, apparently depending on the number of death jabs. The cell phone is the mark of the 666 beast & those who have been injected have the cell phone inside them, so to speak, which increases their malice.

It is best to look for remote places in nature where there is no bluetooth signal and switch your phone to flight mode for the bluetooth scanner. I've already checked this myself, amazing. However, it shouldn't be in cemeteries, because even freshly buried injection devils continue to emit radiation, as first discovered by the Mexican doctor Dr. Pedro Chavez Zavala ([Link](#), [Link](#)) & confirmed by others ([Link](#), [Link](#)). So you can in principle continue to communicate with the (unburned) corpses of injected vombies (at least 1-3 months after death) & in this sense they are not really dead, but undead = zombies.

By the way: people with a lot of PCR nose fucks can also have a MAC address. At the end of 2020, I wanted to go to Sweden to escape the Covid terror, but the Boss forbade me from doing so: that would have required a PCR bogus test, and at the time I didn't know how dangerous even these can be. In the premium area, a warning was already issued in 2021, based on information from the Most High: 50 satanic PCR nose-picking rituals are about as harmful as a lethal injection.

(3) Death by ray weapons: In the first volume of *Kampf der Dimensionen I* (1982) on page 112, *Edward Korkowski* speaks of a kind of radiation weapon used by certain aliens, whereby evil people (without God's protection) first become 'burgers' (meat balls) and then melt away. However, he does not mention this explicitly in connection with the 3DD, but still *after* the nuclear liberation.

(4) Death by semi-ethereal beings, especially giants/Nephilim: There are many prophecies that the giants will return like in the times of *David*, who defeated the giant Goliath. Prophecynews444.com alone lists 55 prophecies on this ([Link](#)), there are also some in connection with the 3DD ([Link](#)). The giants in stasis chambers were researched by the Russian ophthalmologist Prof. Dr. *Ernst Muldashev*, among others. *Joel 2-2ff* speaks of horse-like giants (=centaurs) during a great darkness & immediately afterwards *Joel 2-22* speaks of the repulse of the troops (near JerUSAlem) from the north (=Russia=Magog): this suggests a close temporal connection between the siege of JerUSAlem, the 3DD & the giants. The 3DD begins with great thunderclaps & according to *Revelation 10-4 John* was not allowed to write down what the 7 thunderclaps told him: according to sources such as *Bette Stevens*, *Byron Searle* & *Linda Hasche (Clay)* this secret in the Book of Revelation refers to the release of the giants ([Link](#), [Link](#)). There is no doubt about the

return of giants between 3 meters and hundreds of meters in size, the only question is when: according to various sources the start is during the 3DD. One prophecy mentions giants as high as the clouds, so at least hundreds of meters ([Link](#)). The *Book of Enoch* (part of the Ethiopian Bible) even mentions giants with a height of more than 1.5 km (3000 cubits), although they may not return. Let us pray that the giants fulfill the wrath of God ([Link](#)), get a good meal & free us from the black souls, hallelujah!

Until about 2036 we will be treated to around 6 eclipses, with very different causes. The irregular eclipse of 3-3.5 hours on the day of the soul review seems to be normal in the sense that it is caused by something other than the moon, which moves between the earth and the sun: the successful dress rehearsal for this was in mid-March. However, the mechanism for the promised three-day eclipse seems to be completely different, namely the opening of dimensional portals by the Swiss CERN: the most evil place in the galaxy can only be in Switzerland, because Switzerland is Satan's #1 favorite, by far. It is child's play to open purely subtle (higher dimensional) portals (you learn this in the first year of Merlin), but much more difficult to open gross (3D) portals: this requires 3D technology like CERN.

This is somewhat reminiscent of the scenario of the film *Pitch Black* ([Link](#)) from 2000, as well as *Shadow & Bone: Legends of the Grisha*. *Troy Black* spoke as early as September 2023 of giants that, thank God, would soon devastate North America ([Link](#)): just a few months later, shortly before New Year's Eve 2023/24, this daring prophecy began to come true ([Link](#)). 3-5 meter tall aliens appeared in a shopping center in Miami, and *all* available police vehicles were sent there (70-100!): officially because of a few teenagers setting off fireworks... A Miami cop said *after* the incident: "So I can confirm to you all here today right now that there are no aliens in Miami in *Bayside Marketplace* – at the moment." So he said as a code that there were actually aliens at the incident. What a 'coincidence' that someone had a vision of the 3DD & the giants in connection with Miami of all places ([Link](#)).

Witnesses described the opening of a portal & the sudden emergence of beings similar to those in the movie *Xenomorph* ([Link](#)). They were about the size of the *Hulk*. One witness (a former police officer) describes these black beings as a glitch in the matrix, interdimensional & like a 'wave': this is probably a description of beings on the border 3D/4D that are not quite 'solid' yet, but still more 'wave-like'. There are almost no videos of this incident (only one from outside the mall) for 4 reasons:

- (1) People were panicking & running for their lives.
- (2) Cell phones did not work near these creatures, at most further away.
- (3) Police officers stood at the exit and confiscated all mobile phones with video recordings, as well as all recordings from the surveillance cameras.
- (4) All those who spoke out publicly on this issue were threatened by state terrorists, especially by MIBs (Men in Black).

There are several theories as to why this happened in Miami that day:

- (1) It was a test run for the 3 days of darkness.

- (2) The legitimately elected US President Trump was in Miami that day, which could be the key: the President was immediately taken to a security room that he was not allowed to leave. The hybrid & conventional US civil war has been going on since the turn of the year 2020/21, just as Archangel *Michael Terry Bennett* announced this back in 2001.
- (3) Even the Miami airport was closed because there was strong interference, the airspace near Miami was suddenly empty, as online flight monitors such as Flightradar24.com showed. Pilots expressed the theory that the coordinates (25.77864 & -80.18677) were simply entered incorrectly, meaning that these beings actually wanted to go to Antarctica - pilots have made this exact mistake several times. According to *Byron Searle, Bette Stevens & Vicki Goforth Parnell*, these giants are made in Antarctica ([Link](#), [Link](#), [Link](#)) to return during the 3DD, praise be to Christ. Let us pray day & night that the giants execute God's judgment & cleanse this planet!

Protection against these creatures: there is unanimous agreement that one should barricade oneself in buildings and not go outside under any circumstances, not even look out or open doors or windows. According to one source, a car would also be sufficient protection in an emergency, it has to be something closed. These creatures imitate the voices of people you know or love who ask to be let in: one should not give in to these requests under any circumstances. The thing about looking out when visibility is 0 is one of the glaring contradictions that was only resolved by some recent prophecies. According to them, it is not supposed to be completely dark during the day, but there is a kind of thick fog or a kind of pale/ diffuse or 'false' light. This is somewhat reminiscent of the film *Fog* based on *Stephen King*. I mention this here explicitly so that when a little bit of light appears, do **not** mistakenly assume that the darkness is already over – and walk outside to be killed. The statements of the Waldviertler farmer SZ ([Link](#)) also point in this direction, suggesting a *variable* duration of darkness of 3-10 days, depending on the exact definition of darkness or the possibility of going out:

The diffuse light that then spread and the poisoning of the atmosphere lasted much longer than just three days. Anyone who left their hiding place after five or six days would still suffer permanent damage.

It is generally recommended to cover windows **completely** with black garbage bags or similar, some even recommend wooden boards because of earthquakes & possible window breakage. This leads to another important question that is rarely discussed: if you really make everything 100% dark & electric clocks don't work, how do you know the three day darkness is over? I got two old mechanical clocks to wind up for this, if in doubt stay indoors for the full 72 hours.

There are some claims that there are big differences between the black souls (written in the book of death=hell) & the white souls (written in the book of life=heaven), with very different statements. Some expect a rapture of the white souls during these 3 days to receive a big spiritual update, maybe even the wedding with the lamb will take place? Many sources claim that only (consecrated?) beeswax candles burn & nothing else, although other sources counter that this only applies to the black souls. Here too there is a biblical model, discussed for example by *Jeff Byerly* on April 10, 2019, namely that according to *Exodus 10-23* only the Israelites had light in their houses, but their Egyptian slave drivers did not. A few sources even believe that the white souls supernaturally have normal electricity & heat during these 3 days, so that their dwellings are kept at a tolerable 15-17° C. *Maria Graf-Sutter* (1906-64) from Appenzell/ Switzerland suggested that the darkness actually is a *protection* for the white souls.

There is also the claim of deadly dust outside, which almost certainly only refers to the pole shift eclipse in the mid-2030s, which will be triggered by Nibiru. Interestingly, Muslim prophecies ([Link](#), [Link](#)) speak of an irregular eclipse coming, which the Muslims *will not* survive, only the (true) Christians (=white souls): they die from a cold wind, which probably refers to the poisonous dust. The end of the Muslims can only come in 8 years at the earliest (2032), because first the prophesied 8 years of the rule of Islam = KAlIphate ([Link](#)) are needed, which begins in 2024 at the earliest. Probably the last (?) eclipse in the mid-2030s will be caused by the pole shift, because afterwards the sun will rise in the west. However, according to the prophecy of a Sufi master ([Link](#)), the sun strangely only rises in the west **briefly**. This eclipse is supposed to be in the month of Zil-Hajj after Eid al-Adha: June 16, 2024 & then every year about 11 days earlier due to the Muslim lunar calendar, e.g. March 1, 2034. In the premium area, much more details have been provided about these more distant irregular eclipses, with possible concrete dates.

The Netflix film *Bird Box* (2018) deals very well with the not being allowed to look outside, a recommendable film in this context (continuation in Spain of all places, the Eldorado of soul review). This bird cage or bird catcher is reminiscent of Psalm 124 (->2024) and thus of the currently developing bird flu, as well as of the liberation of the soul:

We have escaped like a bird from the snare of the fowler; the net is torn, and we are free.

3 days of darkness: aftermath

You throw away the black souls as if they were trash. That's why I love your commands. (Psalm 119 verse 119 with the double 911)

Several sources claim that Christ returns immediately after the three days of darkness: this is a huge reward for those who survive, especially if they have a white soul. In 2004, according to @davidbrathen2268, a five-year-old girl suddenly said out of nowhere that Christ would return in 20 years (=2024) ([Link](#)). Life after the three-day darkness will *never* be the same again, everything will change fundamentally, here are just 3 examples:

(1) Spiritually: the powers of light are experiencing an incredible upswing.

(2) Economically, no stone will be left unturned. The most obvious result is real estate vacancy rates of 60-90%. Thanks to *Bill Gates'* miracle weapon, China already has property vacancy rates of up to 60-70% in 2024 ([Link](#), [Link](#)) & they will probably hit 90% after the 3DD. Because China is so busy exorcising the devil, we are not going to drop atom bombs on China. So real estate will be available at spot prices, just as real estate is now being given away in China - but often nobody wants the property anyway because of the taxes.

(3) Politically, there are extremely welcome changes after the 3DD, as the left-wing bastards will be extremely culled, because they have been injected so much more than the right. As early as 2021, I predicted that within years the lethal injections would lead to an incredible political swing to the right. Of course, all official polls and elections are falsified, the situation is much more dramatic than admitted. The child-fucking putschist in the White House is probably only at 8% (!) according to insiders ([Link](#)). In a survey on heute.at on July 22, 2023, an incredible 65% voted for the right-wing Austrian FPÖ ([Link](#)): a 'tiny' gap of 38% compared to the official joke surveys just before ([Link](#)). Heute.at made a name for itself by consistently not manipulating online surveys. Nevertheless, heute.at is a mainstream medium, which means the situation is likely to be even more extreme.

Our prayers should be day and night that God carries out his judgment as quickly and thoroughly as possible, with the three days of darkness being the glorious climax.
