Free Amanita Newsletter 12/17/2025: End of prophecies through the Exodus/ Silence of God & February 17-26, 2026

Not everyone who says to me, 'Lord, Lord,' will enter the kingdom of heaven, but only the one who does the will of my Father in heaven. (= true essence of the Bible, Matthew 7-21)

Free Amanita Market Commentary

As early as 2024, a major crypto bull market top was predicted for the summer of 2025 in the premium section, and this prediction came true. In 2025, the first peak was specified for the third week of July 2025: this was the first peak of a double top and, in important cryptocurrencies like ETH and XRP, the final bull market peak, which was also predicted for the banker's coin, XRP. Amanita #23/25 from July 13, 2025, specified the final upward movement as follows: "*I expect the final crypto rocket at the end of August/ beginning of September.*" Indeed, at the end of August, there was a low of $108,000 for the Bilderberg coin, BTC, and this is where the last upward swing started for a few weeks, which, however, in the case of the shitcoin BTC, was only a double top with the third week of July. In the premium area I predicted that silver=47 (atomic number) would explode in the Islamic year 47, causing a massive price surge: and that's exactly what happened. With the Islamic New Year of 1447 in June 2025, silver reached a new 14-year high and has since doubled in value. But one thing is clear: we haven't seen anything yet: we want to explore unimaginable price targets… Market timing is rarely practiced anymore, but when it is, it's very good. We'll ride the financial markets until Judgment Day, or as long as they exist - praise be to the Lord!

End of Prophecies Through the Exodus/ Silence of God & February 17-26, 2026

The last newsletter, dated October 2, 2025, devoted itself to the greatest prophetic failure in human history in September 2025. This marked, as prophesied, the Exodus of God and His largely (but not entirely) silent existence since then. In this newsletter, I continue these explanations and address the upcoming events of 2026, with the first major key date being February 17-26, 2026, and the window for the first 'rapture'=resurrection from May to October 2026. Normally, I only release specific dates in the premium section, but this time the Almighty insisted on a free publication. I hope that I can once again provide a comprehensive overview in this newsletter, so that I can fulfill my mission as God's flail. If you don't feel offended, then I sincerely apologize. To paraphrase Alan Greenspan: if you understood me, then it's a misunderstanding… Because my palm leaves already established in the 2010s that I am an avatar of Shiva the destroyer (primarily) and Vishnu the preserver (secondarily), and that my writings will only be understood in the Satya Yuga, i.e., not before the 2030s.

Thank you for your interest and for Christmas I wish you a return to the divine light and for the year 2026 - God bless all white souls!

Content of free Amanita newsletter & premium market letter: In 2000-15 Amanita Market Forecasting was a normal market letter with 80-95% of the content related to the financial markets. Since 2015 the content has shifted more & more towards general world forecasts, with special consideration of political, military, health & spiritual topics as well as earth changes. That's why since 2022 only about 20% of the content (text quantity) has been dedicated to the financial markets. With the upcoming collapse of the global financial system until 2026 the financial content will naturally fall below 20%, which can't be avoided.

The free Amanita newsletter is sent out every 3-12 months, it complements the Amanita premium newsletter subscription, which is published 1-5 times per month (target: 30-40 premium updates per year). The free market commentary is only considered to be a commentary on the financial markets. The Amanita system is based on a high degree of diversification in 7 markets (currencies, cryptos, agriculture, precious metals, energy, bonds & stocks) & only makes sense as a whole (but never in isolated parts!), because all positions are well-orchestrated. For these 2 reasons (professional instruments & diversification) a replication only works for larger portfolios with at least EUR or USD 400,000, as well as for institutions. Because the Amanita premium market letter is very different from every other market service on the planet, you should be prepared for at least 3-6 months to get acquainted with the Amanita system. That's why the shortest subscription period is 6 months & trial subscriptions are no longer offered. Personal services had to be discontinued in 2008 because waiting times rose to more than one year.

Prophecies #26: End of the prophecies through Exodus/ Silence of God & February 17-26, 2026

As long as it is day, we must do the works of him who sent me. Night is coming, when no one can work. (John 9:4)

The last newsletter, dated October 2, 2025, devoted itself wholeheartedly to the greatest prophetic failure in human history in September 2025. This marked, as prophesied, the exodus of God and His largely (but not entirely) silent existence since then. In this newsletter, I continue these observations and address the upcoming events of 2026, with the first major key date being February 17-26, 2026, and the window for the first 'rapture'=resurrection from May to October 2026. Normally, I only release specific dates in the premium section, but this time the Almighty insisted on a free publication. #raptureTok September 23/24, 2025: End of Prophecies & Exodus of God

All have turned away, all have become corrupt; there is no one who does good, not even one. (Psalm 14)

The main topic of the last free Amanita newsletter, dated October 2, 2025, was the biggest prophetic failure in history in the lead-up to the alleged ' rapture'/resurrection on September 23/24, 2025, listed on Wikipedia as #raptureTok (Link). What was unique about this was the incredible number of more than 100,000 alleged 'confirmations' for this event in September 2025: perhaps the number of 'confirmations' was even greater than 1 million ! There were over 1,000 videos about the 'rapture' on September 23/24, 2025, on YouTube, TikTok, and other social media platforms, and these often included over 100 comments with confirmations. On TikTok alone, there were at least 100,000 posts. Example: Brian Christine (Link) received over 250 personal endorsements in just three days under a single video on his small YouTube channel with approximately 7,000 subscribers. He observed over 100 new YouTube channels created specifically for the alleged 'rapture'=resurrection on September 23/24, 2025. When you see such perfect alignment, you know that mass delusion/the devil is always behind it. The crazy rapture dogma is based on over 200 errors: one of these is the misunderstanding that there are 13 types of 'rapture' or resurrection; see my article from November 19, 2024 (https://www.amanita.at/docs/open/20241120-e.pdf). According to Professor William Watson (Link), the oldest theories about the 'rapture'=resurrection date back to around the year 100, based on Clement of Rome (deceased 999), the second or third successor of Peter. At that time, Christianity was still calibrated extremely high at LoC=930-980 (Link): this was when the pre-rapture was taught.

Until the early 21st century, 3-7 confirmations were sufficient for a valid prophecy; by 2025, even over 100,000 confirmations will no longer suffice. One could also say: there is a prophecy hyperinflation. Hyperinflation marks the end of a currency, and this prophecy hyperinflation marked the end of the word of God: we have add zeros to the number of prophecies, but they are practically worthless. Particularly striking were the many parallel synchronicities: license plates, times, etc., all coinciding with the number 923. These are frequency emissions from the dark side. By 2025, such synchronicities are almost 100% demonic in nature (unlike in previous millennia): the more such synchronicities one has, the darker the soul – this is essentially an objective measure of it. This extreme alignment or regularity is a sure confirmation of a dark or dead soul and, collectively, a death code. As early as the 3rd century, the Chinese physician Wang Shu-he observed: "*If the heartbeat becomes as regular as the tapping of a woodpecker or the dripping of rain on the roof, the patient will die within 4 days.*" This correlation is known today as heart rate

variability. All biological or social systems need a healthy statistical variance in their rhythms, i.e., a certain degree of chaos = life. The pioneer of this nonsense was Alois Irlmaier, the king of the garbage prophets: almost all of his statements bear a near-verbatim resemblance to other statements – proof of Satan's influence. Incidentally, this phenomenon is also evident in nature; many have reported a peculiar stillness in nature for months (Link).

The cause of these black frequency outbursts is the intensification of the UFO invasion (2nd wave). In the premium section, I wrote almost a year ago (later in the free section) that the UFO wave would subside in the first half of 2025 (Elliott wave 2) and that the second, much stronger wave would begin in the summer of 2025 (Elliott wave 1 of 3). This is exactly what happened; the search volume for drones (Link) exploded almost *to the day* with the blood moon on September 7, 2025, and was subsequently 5-10 times (!) larger than at the end of 2024. This is related to the appearance of 3I/Atlas on July 1, 2025, the best information on this can be found at Maik Rofon (Link), Silki (Link) & Stefan Burns (Link).

This incredible event around September 2025 proved that God is increasingly silent and that false prophets are taking over, whose queen reeks of sulfur and has horns and hooves. This further confirms that less than one person in 100,000 has a white soul: these souls are written in the Book of the Lamb, go to Heaven, and therefore hear from God. Black souls are written in the Book of Death, go to Hell, and therefore primarily hear the messages of demons. Now, in 2025, there are only 25,000 white souls left, according to the Boss; in the summer of 2022, there were still more than half a million, so one or two more zeros (approximately one person in 10,000). In a video by Peniel Ngonde from August 17, 2022, Anna from Brazil recounts her experience of Hell, stating that only one in 10,000 is different=white (Link removed by YouTube terrorists): perfect confirmation.

This trend of silence from God has continued since October 2, 2025, also because most of those who opened their goddamn lying mouths regarding the 'rapture'=resurrection on September 23/24, 2025, remained silent after their failure. Now I can even announce the end of the prophecies, i.e., the (temporary) exodus of God from the evil human race. Joshua Mhlakela was the alpha villain in the #raptureTok shitshow, and interestingly, in 2018 (when his soul was still white), he received precisely this message about the exodus (of the Church) around September 22/23, 2025. So the exodus did happen, but quite differently than expected. The Church, in the strict sense, is filled with the Holy Spirit: when the Holy Spirit withdraws, there is essentially no Church anymore. This is not surprising; junior prophets hardly ever understand the messages they receive. They interpret them with their intellect, and that's a recipe for disaster. Decoding, however, is very complex, and the swine priests are happy to shift this essential prophetic task onto the audience. Since his statement about a "1 billion percent" probability of the ‘rapture’=resurrection on September 23/24, 2025, Joshua Mhlakela has repeatedly exposed himself by postponing the date multiple times. He has violated the word of God repeatedly, therefore he is a serial rapist.

Nevertheless, the serial rapist received further interesting messages, which he naturally didn't understand, especially that he was the last arrow in God's quiver, see Melissa (Link). This, too, turned out quite differently than expected: Mhlakela considered himself the quasi-Messiah, bringing humanity the great good news – instead, he was the final shot across the bow of the Christian devils, or rather the final nail in the coffin of a dead Christianity. All of this is part of the divine play Lila, for God's amusement: God is, so to speak, slapping his thigh at this monkey business. Melissa saw boxes: the Boss showed me exactly such boxes, which are a mild form of cage/prison. As the saying "thinking outside the box" suggests, the boxes are more about mental categorization or frequency prisons. If I focus on that, then I can see these boxes where people are sitting. There are 5 major world religions, plus a vast number of esoteric, mystical, and occult circles and associations. Christianity alone has about ten main branches and 42,000 denominations (Link): nowhere is the diabolical division greater than in Christianity (the devil's motto is: divide and conquer). Each of these little or big boxes contains a bit of truth, Satan has seen to that: but as long as you remain within one box, you cannot possibly see the whole picture. Only at a level of consciousness in the (mid) 700s does the identification with these boxes dissolve. Anyone who still identifies with one of these boxes (no matter what they're called) is a box worshipper = idol worshipper and not a servant of God.

On Dr. Hawkins' scale of consciousness (Link), we find the silence of God very high up in the 800s = emptiness of God, while the speech of the senior prophets is in the 700s (and the speech of the

junior prophets in the 500s). The 800s are the level of Buddhism, 800=samadhi: apart from the apostles, no Christian managed to reach the middle 700s. It is not without reason that a German saying is: *Talking is silver (=Yin), but silence is gold (=Yang).* This is why Buddhism is also called a religion without God. In Asian religions, this is highly valued, among other things in Dark Yoga (Link), see the biochemical processes around the soul gland = pineal gland, similar to a psychedelic journey with Dieter Brörs (Link, Link). The problem, of course, is that in the black souls, the pineal glands are now largely destroyed, significantly more so in the vaccinated mutants with MAC addresses than in the unvaccinated. Some time ago, a pathologist from Venice confirmed the almost complete destruction of the pineal gland based on numerous autopsies of mutants (Link, Link).

This withdrawal of God, however, is only temporary and not complete: the complete and permanent withdrawal of God from this planet will not occur until around the year 7000, according to the Brahma Vaivarta Purana (Link). For the first 10,000 years of the Kali Yuga, God remains on Earth (with short breaks), while for the remaining 422,000 years, the zombies/ morlocks rule, as Orson Welles already noted in 1895 (Link). There is a small historical precedent: 400 years of silence between the Old and New Testaments. So we see a repetition: before the Lord comes, there is a silence, perhaps this time only 400 days: from September 24, 2025, this roughly corresponds to Halloween on October 31, 2026. In principle, this 400-year cycle is repeating itself here, because in 1624 the 'world capital' New York was founded (hence also the primary UN headquarters): that was 400+1 years ago, so, as is almost always the case, with the +1 code. New York is the Whore of Babylon of the Bible in the narrowest sense; in a broader sense, it is the great Satan USA as a whole; and in the widest sense, it refers to the current satanic world system with its demonocracy, paper money, vaccinations, AI, etc. The founding of New York marked the dark 400 years of human history, where the retreat of God, in a broad sense, began. Humanity became increasingly materialistic ('scientific') and increasingly lost access to the higher planes of existence. When I was in New York in 1999, I felt that the pressure in the city was crushing me: the vibration was already so abnormal in 1999 that I had to leave prematurely.

The withdrawal and silence of God (temporarily) was announced by many sources:

(1) The first warning actually came from Jesus Christ on the cross: "*My God, why have you forsaken me?*"

(2) Mari Loli Mazon of Garabandal spoke on October 19, 1982, of a great silence during the soul-viewing/warning/aviso (Link). The death of the blind Joseph Lomangino in 2014 was the biggest setback for Garabandal, even though it had been prophesied that he would regain his sight at the time of the miracle. However, some experts in prophecy had foreseen Lomangino's death because Garabandal had prophesied an event that shook faith in Garabandal. Explanation: if one is in the afterlife after death, then one can certainly see (in both Heaven and Hell). There was a hospital study where strange pictures were placed on top of boxes that one cannot normally see (Link). But those who had near-death experiences saw these pictures after leaving their bodies - and those who were sent back described these pictures accurately. Prophecies usually come true 2-3 times: it is therefore possible that the lack of timely announcements from Garabandal & Medjugorje is the second huge disappointment after the death of Lomangino.

(3) Father Livio Fanzaga of Radio Maria mentioned this silence before the final 7 of the 10 secrets of Medjugorje (Link). The first secret is a massive natural disaster or a sign in the sky: the first secret is probably identical to the celestial sign before the soul-reading. The third secret is almost certainly identical to the Garabandal miracle, therefore, the first two secrets occur around the time of the soul-reading. Incidentally, the souls of *all* the visionaries of Garabandal and Medjugorje have now turned black. During his visit to St. Stephen's Cathedral on September 19, 2024, Ivan Dragičević transferred the role of Medjugorje to Vienna - and then his soul also turned black. Therefore, one cannot rely on the two speakers of Garabandal and Medjugorje fulfilling their foretold task as predicted. We must be prepared for the possibility that this, too, will *not* go as announced.

(4) Glynda Lomax (Link) with LoC=585 received a similar warning on October 22, 2025: she naturally does not realize that this was primarily a description of the present and only secondarily a prophecy. With a consciousness level of junior prophets LoC<730-750, the word of God hardly falls on fertile ground, but rather on terrible ground.

(5) Vicki Goforth Parnell (Link) also received the message on October 5, 2025, that God had issued *all* the warnings. If we take this message literally, then Goforth Parnell contradicts herself, because she has published many more warnings since October 5, 2025: so what is the source of these new warnings?

(6) 'WM' from the Amanita network misinterpreted this painful withdrawal or death as a personal and not global event.

(7) Werner Grunwald (Link) saw on October 13, 2025, that a white dove (=Holy Spirit) first hid in a box in front of the woman (=Church), then flew away, and was finally shot: of course, he doesn't understand the message either. Grunwald also saw the extreme battles in the Augsburg-Ulm-Landsberg am Lech-Munich area with extreme destruction. This is the Lechfeld battle (like on August 10, 955) seen by many (Link, Link, Link): with the typical westerly wind, Munich is destroyed by atomic dust – praise be to the Lord! Ulm has the tallest church tower in the world at 161.5 meters: this is a symbol of Christianity.

(8) To my knowledge, the Stuttgart seer (Link) is the *only* seer who truly understands this and therefore refuses new interviews, arguing that everything essential has already been said. It is no coincidence that he has *no* Christian background, as the biggest nonsense always comes from the ranks of the Christian devils (=satanic after-church according to Anna Katharina Emmerick (Link, Link, Link).

(9) Mark Mallett lamented the silence of God (Link) in November 2025 (albeit vaguely).

(10) Marion Bohse (Link) also noted the absence of new visions in fall 2025.

(11) Pastor Michel Rodrigue from Canada now confirms that 'everything has been said' (Link, Link). He is *the only* person to recognize that the 7 seals have already been opened (at the most superficial level), see Dr. Gertraud Pflügl from Nagelberg in the prophet's triangle in the Austrian Waldviertel (Link). The Christian prophecy scene is a complete mess: there are myriad different accounts of the opening of the seals. Some examples: Eaglewingsstudy correctly received a message in 2019/20 that the 4th seal = plague had already been opened (Link). Noelia ama a Jesús reported in 2020 about the preparations for the opening of the 6th seal, which implies that the 5th seal was already open (Link). UB Ready = Byron Searle received the message in November 2022 that the 5th seal was already open (Link). Marlena Elizabeth only received confirmation of the opened 3rd seal in June 2021 (Link).

Terry Bennett announced on October 2, 2025, that the 5th seal in Heaven had been opened (Link, Link) – the 3rd seal on October 11, 2024, and the 4th seal on October 12, 2024 (Link). The 5th seal represents the persecution of Christians and, according to Rudolf Steiner, the turning towards the healing sun (Yang) and away from the malevolent influence of the moon (Yin) (an extraterrestrial spaceship) (Link). Bennett looks terribly sinister, and he (allegedly) 'saw' Charlie Kirk as one of God's martyrs under God's altar: this is 100% absurd. We will never let a Zionist whore into heaven who does not raise his voice against sodomy and who was a close advisor to the Antichrist-to-be Trump. Moreover, his widow Erika Kirk = Ghislaine Maxwell 2.0 was (is?) involved in the Epstein child trafficking, especially in Romania (Link, Link).

So there's zero agreement here: this is the usual incomprehensible mess of Christian prophecies – why? First, junior prophets receive their information with a delay. Second, the seven seals are opened three or more times, which is never understood: the first time it's just a slight hint of the topic, the second time is stronger, and the third time brings the seal's multi-orgasm. Third, the seven seals overlap (+/- 1). Incidentally, there's another explanation: that the almost universally accepted equation of the four horsemen of the Apocalypse with the first four seals is incorrect. Then we arrive at the 4+7=11 years from autumn 2016 to autumn 2027.

(12) My Hiding Place warned on November 15, 2025, that there are no more miracles through God (Link).

(13) Similar warnings come from Ali Winters (Link, Link), Steve Holmes (Link), Catherine Webb (Link).

(14) In the 500+ year old Bhavishya Malika we find the indication that the forgiveness of sins (e.g. through Jagannatha) will stop in 2025-32.

(15) Alison Pound (Link) even received the exact timing in January 2019 for this silence of God (blood moon 7/9/2025) and the tearing apart of the evil empire - of course, like all junior prophets, she didn't understand her message: "*The blood moon over America heralds this cataclysmic event. This is the last of the tetrad.*" A tetrad is four total lunar eclipses (=blood moons) in a row: since only 29-34% of lunar eclipses are total (Link), this is a rare event: five times since 1493 (Link). These tetrads marked the most important moments in Jewish history; the last tetrad in 2015 heralded the construction of the Third Temple. We have a near-tetrad from 9/3/2025 to 28/8/2026 with three total lunar eclipses, and the fourth is near total with a 93% umbra. The silence of God occurred as prophesied with the blood moon of September 7, 2025, which is #2 of a near-tetrad. However, the blood moon of September 7, 2025, was the only blood moon of the tetrad not over North America, which is why the cataclysm did not occur there. This is precisely the typical end-times pattern, where the feminine Yin (darkness) governs everything, while the masculine Yang is almost non-existent: not the first-best solution (Yang=1) applies, but the second-best solution (Yin=2). The first-best solution for fulfilling this prophecy is a full tetrad, the second-best a near-tetrad.

However, there are two other explanations: it's possible that the moon will be closer to Earth as early as 2026, in which case August 28, 2026, might be a blood moon (a total lunar eclipse). Secondly, the moon also glows red during a micronova (a blood moon): this is the second explanation for the blood moon. All of this demonstrates another important end-times rule: one should *never* expect a clear and simple fulfillment (Yang), but always a convoluted, complicated, multiple, and unexpected fulfillment (Yin). Pound's statement is a multiple code, namely the usual double (Yin) or triple fulfillment. Her information from October 13, 2025, stated that there was a stillness (silence) in the sky in October 2025, like *never* before (Link). For any true prophetess, the alarm would immediately ring at 108 decibels (but it doesn't here), because that's exactly how Revelation 8 = the transition between the 6th and 7th seals of the Apocalypse is fulfilled:

And when the Lamb opened the seventh seal, there was silence in heaven for about half an hour.
[…]
And the angel took the censer and filled it with fire from the altar and threw it on the earth. And there were sounds of thunder, rumblings, flashes of lightning, and an earthquake. And the seven angels with the seven trumpets prepared to sound them. And the first angel sounded his trumpet; and there came hail and fire mixed with blood, and it was hurled down on the earth; and a third of the earth was burned up, and a third of the trees were burned up, and all the green grass was burned up. And the second angel sounded his trumpet; and something like a great mountain, burning with fire, was thrown into the sea, and a third of the sea turned to blood; and a third of the living creatures in the sea died; and a third of the ships were destroyed. And the third angel sounded his trumpet; And a great star fell from the sky, burning like a torch, and it fell on a third of the rivers and on the springs of water. And the name of the star is Wormwood.

The 2014 alien film *Quiet Hour* even hints at an alien connection. The half-hour of silence in the sky is apparently a triple code:

(1) It means, on the one hand, the time for the soul review, 15-20 minutes.

(2) Secondly, I suspect the meaning is half a year: Autumn 2025-Spring 2026.

(3) Last but not least, this can be interpreted as half a decade until autumn 2030: The end times in the narrower sense began in 2016/17 in the Jewish year 5777, as prophesied by some sources for over 800 years. Seven years later, on September 15, 2023, the Kali Yuga ended after 5125 years, and another seven years later, in autumn 2030, the 7 transitional years from the Iron Age to the Golden Age (2023-30) end, and the 7 years from 2030-37 begin, during which we eradicate the last remaining black souls. In 2030-32, *an extreme* number of things coincide, also according to ancient prophecies, including Jayabaya from 13th-century Indonesia: according to this, all 108+108 predictions will be fulfilled by 2031, and this is when the Golden Age begins (Link). The 5th chakra is the chakra of communication: after 5 years of silence, God speaks again. 2031 is a major turning point in Global Scaling® according to Dr. Hartmut Müller, based on proton resonance.

Alison Pound's message, with blood moon #2 of the Fast tetrad (March 9, 2025 – August 28, 2026), while the North American Cataclysm (apparently the Big One in California) occurs with blood moon #3 on March 3, 2026, or blood moon #4 on August 28, 2026. However, this is likely another double code, with North American Cataclysms occurring with both blood moons. There are

usually 5-6 months between blood moons: according to Dr. Mary Jane Even (Link), the soul review (and therefore major cataclysms) takes place 6 months before the 3DD three-day eclipse/Christ's return: March 3, 2026, is 6 months before August 28, 2026 (without the +1 code for delay). Similarly, according to the fifth trumpet in Revelation 9, scorpions torment the black souls for five months without killing them. Is this coming 42 days after the soul review as a little 'food for thought'?

Alison Pound is a true right-winger, praising a violent and cruel God (Link), for example with this prophecy: God will tear to pieces all the Christian devils who pray for peace in Israel – because that is against the divine will. Alison Pound's statement aligns well with that of Sammy Omosh from Kenya (Link), who received the message of Christ's return in 2015 with the last blood moon of the tetrad and dated it to September 28, 2015 (tetrad April 15, 2014 – September 28, 2015). Omosh was very disappointed after September 28, 2015, that it didn't come true; naturally, he too didn't understand his message: Junior prophets are a sorry sight in this regard. The rule of thumb is always: the first and best opportunity for the message to come true (=Yang) *doesn't* work, but rather the second and second-best opportunity (=Yin) at the earliest. In this case, the near-tetrad of March 9, 2025 – August 28, 2026 is also the last possible opportunity, because we will soon be blasting the moon into pieces with our asteroid weapon, or rather 3I/Atlas. This is the secret meaning of the message to Pound from the 'last of the tetrads'. Most likely, August 28, 2026, will be the last blood moon in the very last of all tetrads.

What are the practical consequences? This was also described by Alison Pound in 2019 (Link): God no longer warns, but acts, i.e., finally pours out his holy wrath on the evil race. The logic behind this is: barking dogs don't bite – but thankfully, the barking has now stopped. The Last Judgment began at Pentecost 2019, and with the help of Bill Gates' wonder weapon, we have already managed to wipe out more than half the world's population. But in the Fast tetrad, leading up to August 28, 2026, we are dramatically increasing the pace of the lashings to an all-time high.

Since October 2025, I have therefore dramatically reduced the time I spend searching for genuinely *new* prophecies, as this has become like looking for a needle in a haystack. Now, only footnotes/ annotations/ details/ clarifications & redundant reminders/ repetitions are forthcoming, with virtually nothing new or important. Most of it consists of things that have already been reported 666 times, things that are produced by the ego, the mind, or the dark side. As early as spring 2024, the Boss significantly reduced his messaging, because since spring 2024 the prophecies for the year X (X1=2024, X2=2025 & X3=2026) have been fulfilled weekly and sometimes daily (as discussed in detail in the premium section).

I know over 100 remote viewers, and of those, I only consider two relevant anymore - that is, the ones whose predictions in autumn 2025 aren't complete rubbish: Sébastien Martin (LoC=495, almost genius) and the Future Forecasters. I successfully practiced remote viewing during my doctoral studies in 1998-99 and earned a decent living from it at the casino. Back then, I also participated in an experiment by Greg Kolodziejzyk with hundreds of remote viewers, which was a complete failure. Even then, it became clear to me that the existing theories were far from sufficient. Since October 2025, the number of prophecies on Jonathan Theiben's website (444prophecynews.com) has been collapsing. For years there were usually 5-12 posts per day (e.g., 11 on January 2, 2022), but this number has since shrinking to often only 1-2 per day, e.g., 0 on October 16, 2025 & November 25, 2025, and only one post on October 28, 2025, November 1, 2025, November 4, 2025, November 5, 2025, November 13, 2025, November 17, 2025 & November 18, 2025. It should be noted, however, that many of these posts are not new prophecies, but rather other things, such as discussions of old prophecies or commentaries (on world events, the Bible, or other prophecies). Above all, there are obnoxious windbags and self-important blowhards who notoriously act important and issue the same meaningless warning 666 times (like LynL, Solitary Man, and McKana): these blowhards can be completely ignored. But there are also many other "messages" (?) that simply regurgitate what's already known. So, if you apply a strict standard, 90-99% less important information is being shared than before. And when something important does emerge, it's almost 100% misunderstood by these would-be prophets.

Since 2025, I haven't known anyone with a white soul, neither offline nor online. According to surveys, of the mere 25,000 white souls remaining (down from billions in the 2010s!), more than half are imprisoned in some kind of prison and therefore invisible to the world – the rest suffer massive spiritual attacks, both subtle and/or physical. Now, in the autumn of 2025, the question is

no longer whether a soul is white or black, but whether a black soul has suffered final soul death (the 50th level of impurity on the Jewish scale) or not. Only those without soul death can still expect anything useful, especially from these 2-4 sources: Brandon Dawson & partially Troy Black (with significant limitations, also Vicki Goforth Parnell and the palm leaves). With Troy Black, it's important to note that he never understands his own messages and cleverly hides the word of God behind tons of blather - sometimes he even deliberately plays dumb. Brandon Biggs also started rambling on for hours in the Troy Black style when his soul turned black: the devil loves wasting time and hiding the truth under mountains of endless drivel. Videos are *in principle* a theft of time, absorbing information from text is much faster and better for the soul: that's why the image of the 666th beast (=screens) is so dangerous. Already Goethe warned that images sink deep into the soul: that's why the braindead (m)asses like videos so much, the terrible soul poisoning began with TV in the 1950s.

Furthermore, a few of the 200+ sources on 444prophecynews.com (e.g., Alison Pound) are still usable, as are a few of the Future Forecasters (especially Nyiam V. & Dick Allgire) and sources from Peniel Ngonde. Then there are some useful sites that interpret old prophecies in the light of current events, such as the Prophecy Club by Reverend Stan Johnson (Link), Marion Bohse (Link), and Mother & Refuge of the End Times (Link). Of course, worst are the videos with AI voices, as is unfortunately also the case with some of Peniel Ngonde's and Mother & Refuge of the End Times' content.

Even those with white souls have an average of 500+ spiritual errors, and those with black souls have thousands. For example, Brandon Dawson (Link) denied the existence of aliens, and Dick Allgire respects the Synagogue of Satan = Freemasonry, for which he was duly lambasted in the comments (Link). Note: a *single* (!) spiritual error can lead to hellfire; therefore, a lack of spiritual knowledge is the greatest of all dangers, namely, fatal (for the soul). Isaiah 5-13: " *Therefore my people are put into exile, for lack of knowledge.*" Hosea 4-6: "*My people die for lack of knowledge.*" However, no biblical passage speaks of death from a lack of love: this is not surprising, since faith and love are detrimental to knowledge. There's a reason for the saying: "*Love is blind* " and "*Believing means knowing nothing.*" Classification: knowledge & law/justice = Yang = primary, love & faith = Yin = secondary. The worst is the love of the world, 1 John 2/15: "*Whoever loves the world does not love the Father.*" On the day of judgment, the Boss will therefore say to the black souls (Matthew 7:23): *Then I will tell them plainly, 'I never knew you. Away from me, you evildoers!'*

Without the shadow of a doubt, knowledge or wisdom is 1008 times more important than anything else, because with the right knowledge, one will automatically weigh the 330 million qualities of God (love being one of them) correctly. As the prophet Kohelet rightly stated, there is a right quality of time for everything – and I would add the right quality of location. The most important spiritual texts are therefore the Vedas, which means (spiritual) knowledge. Similarly, Buddhism emphasizes ignorance/ignorance = Venus as a root poison. Christianity, as always, takes the cake: there, ignorance = stupidity is declared a cardinal virtue, in the form of an emphasis on faith: to believe means to know nothing, as the saying goes. The Boss commanded us (Matthew 10-16) to be smart as snakes: but of course the Christian devils don't want to know anything about that, instead they prefer to be gullible. In early Christianity, wisdom=Vedas was still highly valued, then this current was labeled unchristian Gnosis and suppressed by faith: all major decisions of Christianity for the last 1800 years have been 100% wrong. My inquiries with the Almighty on this matter revealed that one should possess 100% Vedic spiritual knowledge; the average person has 2%, and even those with profound spiritual understanding only 55% (just barely above the minimum level of 50%). I have been studying spiritual texts since 1993 and have conducted over 300,000 inquiries with the Almighty since 2002: but even that is by no means sufficient for 100%.

Spiritual (D)Evolution of the End Times since 2012

If anyone comes to me and does not hate his father and mother and wife and children and brothers and sisters - yes, even his own life - he cannot be my disciple. (Luke 14:26)

However, God's exodus unfolds like a concert: first comes the farewell, the band leaves and returns for one last little encore – this too is essentially a +1 code ("I have one more"). The Boss left in September 2025 and will return briefly for 42 days with the soul review before withdrawing almost completely for years. A German saying is, "*say a quiet goodbye":* however, the Boss really

pounded the table in September 2025, because the evil race is hard of hearing or almost deaf. Despite this, almost no one understood God's message. The molecular biologist Urania1304 had an interesting experience on November 4, 2025, from the prophecy forum (Link):

Inspired by the previous posts, I was thinking about the apparitions and warnings earlier in my car. I asked myself, "So? Has humanity changed for the better in any way since then?" From my car radio, which wasn't even on, came a clear and loud " NO !" I was so startled that I had to pull over. I'd never had any experiences like this before.

I expect the very last brief revival in the 3-3.5 months following the soul review. To better understand this, we should take a short recap of the most important fulfilled prophecies since 2012. Immediately after the death of Pope John Paul II in 2005, I correctly predicted Joseph Ratzinger as his successor, even though he was not considered a likely candidate at that time: my first prediction based purely on prophecies (namely, those of Malachy in 1596 or earlier). This was the first important prophetic milestone, because according to Garabandal, Pope Benedict was the last pope recognized by Heaven. Since 2012, and especially since 2020-24, hundreds (!) of prophecies have been fulfilled, as discussed in every premium area update. Here, I would like to give just a brief overview of the most important milestones (a comprehensive list would fill an entire book):

(1) With the great Mayan date of December 23, 2012, the Merlin lineage in Boston, USA (where I was involved) brought about a massive Earth transformation: mother earth lost her core veil. For billions of years, mother earth (a 7D being) descended into devolution/condensation/Yin, but this enormous trend reversed itself here into a trend towards evolution/liberation/Yang. The fulfillment of prophecies is almost never recognized.

(2) On March 13, 2013, BerGOGlio was declared the black antipope Francis: he is the false prophet from the Bible & part of the Antichrist Trinity #1, which was proclaimed in the 20th century by, among others, Josip Terelja in 1991. It was seen (Link) as well as by Nostradamus 8-77. There are 7 reasons why his election was invalid.

(3) I predicted the start of the 40 quarters of the test for August 23, 2013: precisely at this point, Russia's 20+ year slumber ended, and with its involvement in Syria, Russia began to play a role again as a global player. Of the approximately 191 states, Russia naturally has *the* central role in the end times.

(4) Joey Lomangino died. The Garabandal seers had told him he would regain his sight on the day of the miracle. And indeed, he did, though not in a 3D poop bag. Some Garabandal exegetes had anticipated his death, as Garabandal had warned that an event would shatter his credibility.

(5) On August 27, 2015, the Islamic invasion of Europe began with millions of Rapugees, as seen by Bariona in 1998 (Link). This can be seen as the true beginning of World War III: Islam versus Christianity, as planned by high-degree Freemasonry (Albert Pike) since the 19th century.

(6) 2016/17 marked the beginning of the end times in the narrower sense, as accurately predicted by numerous sources for over 800 years (in the broadest sense, the end times began in June 1881 with the Jewish invasion of Palestine following the Ukrainian exodus). On October 4, 2016, Trump became US President: since the 19th century (Ingersoll Lockwood), we have known that Trump is the last US President.

(7) In 2017, the secret rollout of mRNA death jabs (=vaccines 2.0) began, as already discussed in the premium area in 2018. It was determined here in 2018 that these new vaccines would lead to death with a time delay starting in 2020: and that's exactly what happened.

(8) Dr. Werner Papke (Link) postulated around the turn of the millennium that the Third Temple would be built starting December 1, 2018: on December 10, 2018 (+1 week = +1 code), an innocent lamb was ritually murdered in JerUSAlem – however, in a natural temple, not a stone temple. This was the first official Jewish animal Satanism in almost 2000 years.

(9) On Pentecost, June 9, 2019, the Last Judgment began: since then, spiritual practice must be completely different from what it has been for the last millennia. This is not realized in 99.9% of cases, and therefore, by 2025, almost every prayer will be a sin.

(10) In 2019, I, to my knowledge the *only* professional prognosticator in the world, predicted that from mid-January 2020 (the plague constellation Saturn at 0° Pluto) the theme of epidemics would dominate: precisely when the lockdown of Wuhan began. Many prophecies spoke of two major waves of epidemics, including John Paul Jackson: the first wave was harmless compared to the second, the mother of all epidemics. This also marked the beginning of the predicted 42 months of the reign of the Antichrist, culminating in the coronavirus – as well as the 6+6+6 years of war and destruction according to the Mongolian prophecy by Ferdinand Ossendowski, as already decoded a decade earlier for 2020.

(11) In December 2020, the official rollout of death jabs began: all mutants (with a MAC address) now have the 666 mark of the Beast 2.0 (in their bodies). This had been predicted for decades (at least since 2001): since 2020, it has been a reality, but the brain-dead (m)asses almost never recognize the fulfillment of prophecies.

(12) The first sealing of the white souls took place in May-June 2021: 42 months before the invitation to the wedding feast with the Lamb.

(13) On December 17, 2021, Russia declared war on the filthy NAZO pigs: based on my Nostradamus decoding, I had foreseen this for mid-December 2021, years in advance. I predicted the actual start of the war February 24, 2022 almost to the day in 2021: to my knowledge as the only professional prognosticator in the world. This was the beginning of the conventional Third World War in a broader sense: in 1998-99, in the working group on stock market astrology led by Peter Fraiss, we discovered that the only major outbreak of war in our lifetime was to be expected in 2022. This was based on the orbital angular momentum of the sun (distance of the center of mass, CM, from the solar center), based on the groundbreaking work of Dr. Theodor Landscheidt (1927-2004), a German judge. The fine-tuning was the CM 0° Jupiter on December 29, 2021.

(14) The second sealing of the white souls took place at the turn of the year 2022/23, which came as a surprise.

(15) On May 6, 2023, King Charles was crowned: as King of JerUSAlem, he is Antichrist #2 of the Antichrist Trinity.

(16) On September 15, 2023, the Kali Yuga ended, as predicted since 2013. Therefore, on October 7, 2023, the Middle East War began, which many prophecies saw as the beginning of a conventional World War III (in the narrower sense). This occurred on the 50th anniversary (jubilee year) of the Yom Kippur War, as prophesied by Chuck-Johnel Youngbrandt. Moreover, on October 13, 2023 we also declared global jihad for the first time in history (Link) - praise be to Christ!

(17) From spring 2024 onwards, an extremely large number of prophecies concerning Year X suddenly began to come true. Year X, which will be fulfilled in three years (divine/astrological New Year March 21st), began here: 2024/25 = X1, 2025/26 = X2, and 2026/27 = X3. In Central Europe, the winter was so mild that grass was already being mowed at the beginning of March 2024: one to two months earlier than usual. In May and July 2024, we carried out a double-digit number of assassinations of high-ranking officials. The number of high-ranking officials targeted (a favorite target of the Irlmaier conspiracy theorists) was already exceeded many times over in July 2024. Unfortunately, we only managed to give Trump a gentle ear massage with lead; thankfully, we were able to send Biden to the fires of hell. In April 2024, the Iran-Israel war broke out. Due to the Ayatollah's illness (coma), his son Mujtaba Khamenei (d. 8.9.69) assumed power in the spring of 2024 and was de facto appointed his successor on 26.9.2024 (Link). This fulfilled a 1000+ year old Muslim prophecy (Link) about the coming of the Mahdi (=Muslim Antichrist) when there is a lunar eclipse followed by a solar eclipse during Ramadan. This only happens once every few decades, most recently with the eclipses of 25.3.2024 and 8.4.2024. On 21.4.2024 at 5 a.m., the first official Jewish cow Satanism (Third Temple) took place in almost 2000 years.

(18) In 2024-25, there were large spiritual liberation movements, but exclusively for white souls. This is the fulfillment of Psalms 124 (->2024) & 125 (->2025), which deal with the liberation of the soul from the fowler's net. Both psalms speak of birds: that's why we were able to unleash the avian flu in 2024-25. Bill Gates & Co. created an avian flu with an astonishing and unsurpassable mortality rate of 100% among mammals (Link, Link). We also made provisions

for human-to-human transmission: a doctor in Dragonville reported 100 cases of avian flu in his practice as early as 2024 (Link). During the 'flu wave' (Link) of 2025, people in China die within a single day (as widely predicted!): this is certainly not Covid, but the much more beneficial bird flu.

(19) On November 18, 2024, almost exactly as predicted, the alien invasion began with the third and final transit of Pluto into Aquarius (Aquarius = cosmos & aliens). UFO sightings increased by 2-3 times (100-1000 times more than before). Many new spiritual weapons have been deployed since the onset of the alien invasion, which is why we were able to reduce the number of white souls by 1-2 zeros.

(20) At Christmas 2024, invitations were sent to the Bride of Christ for the wedding with the Lamb: but 80-90% were uninvited because they proved to be unworthy.

(21) In 2025, the largely secret rollout (except in Japan, Link) of saRNA death jabs (vaccinations 3.0) began, which are even more helpful for healing the Earth: life expectancy is reduced by half to a whole zero (70-90%) compared to mRNA death jabs, which on average already reduced remaining life expectancy by a zero (e.g., 5 years instead of 50 for a 30-year-old). In the EU, these earth healers are known as Kostaive (Link).

(22) On May 8, 2025, Pope Leo became the last pope (#113) of the 400+ year old Malachi prophecy. According to Garabandal, he does not count as a pope, only in the eyes of the brain-dead (m)asses.

(23) On July 1, 2025, 3I Atlas was discovered, undoubtedly the blue Kachina of the Hopi prophecy: "*When the KaChina dances, the masks fall. Only the pure [=white souls] survive: purification. The strongest towers of power will crumble.*" The rise to power of KaChina coincides with the rise to power of China, which is linguistically plausible.

(24) In the summer of 2025, the predicted second UFO wave began, triggered by 3I Atlas, with its first peak in September 2025, focusing on Germanic countries (Germany, Benelux, and Scandinavia). The search volume for drones immediately dropped to zero (Link). This focus is logical, as the Germanic peoples are the leading nation in the 1000-year Golden Age (Judaism in the dark age of Kali Yuga), as Jesus Christ mentioned to Germanic mercenaries according to the Marcion writings (Judaism was the leading nation in the dark age until September 15, 2023). This Germanic focus is not surprising: the first two world wars were primarily the struggle of world Jewry against the Germanic people, and the third world war (including aliens and vaccinations) has the same focus. Even during the hybrid Third World War, with its use of death jabs, Austria received the worst death jabs (Germany fared less well) and therefore had the greatest labor shortage in Europe (and thus probably worldwide) from 2021 onwards, while simultaneously experiencing one of the worst GDP growth rates in the EU. This 100% paradoxical contradiction can only be explained by Bill Gates' wonder weapon. Behind it lies the Heartland Theory of the British geologist Mackinder: whoever controls the Heartland/Intermarium (roughly corresponding to the Austro-Hungarian Empire) controls the planet. And whoever controls this planet controls the galaxy: the Vedic scriptures established this over 5000 years ago. That's why the galaxy's worst villains are fighting for dominance over our planet, specifically in the Intermarium.

(25) On September 23rd/24th, 2025, with #raptureTok, the exodus of God took place and his silence began.

Indirect timing of central spiritual events: event chains

Now the end is coming upon you, for I will send my [holy] wrath against you and judge you as you deserve, and bring all your abominations upon you. My eye will look upon you without pity, and I will show no mercy, but I will give you what you deserve, and your abominations will come upon you, that you may know that I am the Lord. (Ezekiel 7)

After this impressive list of key spiritual events (which is just a tiny fraction), the question naturally arises: what exactly happens next on the timeline? There are basically 2 methods: direct and indirect timing. Let's start with indirect timing: the integration into chains of events is, in principle, more important and reliable than direct dates, but not overwhelmingly so. Important are some

cornerstones provided by the Bible and Nostradamus, as well as by a handful of other senior prophets. A middle ground is provided by dates such as "in the month of September," "in an even-numbered year," etc. I have collected dozens of *explicit* timeline models (each with 3-37 points), unfortunately only with a moderate agreement. The most comprehensive model is that of Dr. Dave Williams with 36-37 points from the 2010s (Link): we are at #9 or #10. In fact, almost all extensive prophecies contain a rudimentary process model, i.e., some kind of sequence is described: by this definition, there are even hundreds of *implicit* process models.

So many self-proclaimed prophets (especially from the Irlmaier circle) want to convince us that so much still "must" happen before Nuclear Day X and the 3DD: the statement "must" would only be correct if the indirect timing of the prophecies were 100% reliable. However, this is not the case at all, not even close: there are only probabilities in one direction or the other, and therefore 100% guaranteed surprises. *All* time references are the Achilles' heel of prophecies, whether direct or indirect. Self-proclaimed know-it-alls like Stoertepriest (Link) vividly demonstrate the intellectual collapse of humanity... It is 100% absurd to judge the winter of 2025/26 as too cold on November 30, 2025 (!) for the mild winter predicted before Year X: the meteorological start of winter is on December 1st. & the astronomical one on December 21st. Of course, the opposite is true, as always: in the Alps (=Irlmaier area) there is a break in operations during the winter season for the first time ever (Link). There are 2+ other reasons why this 'analysis' is 100% absurd.

The oldest explicit model of the course of events known to me comes from Bernhard Bouvier=Friedrich Doepner in 1988 (Link), based on 350 prophecies, with 7 points:

(1) General lead time: 12 of the 15 points were fulfilled by 2023, the other 3 points are only partially fulfilled.

(2) Signs of the war year: These 12 points were fulfilled at least partially or completely in recent years, depending on the definition.

(3) War year early summer

(4) War year summer

(5) War year Autumn

(6) Year after the year of the war

(7) Further future

Several prophecies agreed that things would get heated for 3-5 years before year X (or X3) of the maximum escalation, including Taurec=Alexander Hauser 2011 (Link), Chuck-Johnel Youngbrandt (1970s & 1980s), and Zarathustra #10ff (Link), with its 4 years of *apparently* useless prepping. This statement was certainly correct in principle, even if the specific context of the events was quite inaccurate. To my knowledge, Sarah Menet (1979) was the *only* (!) out of 1000+ sources that clearly predicted the dominance of the epidemic theme in the years *before* year X: she is an almost unknown and therefore very important source, because popularity among the (m)asses is a 100% contraindication. The (m)asses are only satisfied when they are covered from head to toe in lies until they stink like a cesspool. Menet received her information during a near-death experience (incorrectly termed a death experience) after shooting herself: near-death experiences are the strongest prophetic sources. The Menet model comprises 14 points from one winter to the next, meaning each point represents approximately one month on average, allowing for a very rough division (±1-2 months?).

First, we must completely distance ourselves from the utterly nonsensical thinking of the Christian devils, debating the pre-trib/ mid-trib/ post-trib ‘rapture’ within the 7 years of tribulation for ages. The reality looks totally different:

(1) The transition from the Kali Yuga to the Golden Age lasts almost 2 centuries in the broadest sense, beginning in 1881: start of the Jewish invasion of Palestine

(2) A relatively broad definition is the 50 years of transition beginning with the Harmonic Convergence in August 1987 (Link), when humanity crossed the threshold of LoC>200 for the first time since the beginning of the Kali Yuga in 3102 BC – see David Hawkins MD PhD (Link). The Mayan date 12/2/2012, was in the middle: this marked the beginning of the 8+8+8 years of Christ manifestation.

(3) An important medium-sized definition is 35 years of tribulation, as recognized e.g. by La Salette 1846 and Caesarius of Heisterbach 1180-1240 (Link).

(4) In the Jewish year 5777 (=2016/17) we began the 7+7+7 years of the central end times until October 2037: the Virgo constellation 9/23/2017 was the only directly mentioned timeline in the Bible. Trump was 70 years, 7 months, and 7 days old at his first inauguration: again with the number 777, of course, no coincidence.

(5) In 2020, we gleefully began the 6+6+6 years of war and destruction according to the Mongolian prophecy of Ferdinand Ossendowski (as warned here a decade ago).

(6) On 12/17/2021 with the Russian declaration of war against the dirty NAZO pigs, the 27 years of bloodshed began according to Nostradamus.

(6) On 12/17/2021, with the Russian declaration of war against the dirty NAZO pigs, the 27 years of bloodshed according to Nostradamus began (mid-December 2021 was already decoded in the 2010s for the fall of the whore of Babylon).

(7) So we have prepared thoroughly and will therefore begin the 8-12 years of maximum cataclysms in 2026-27, according to a double-digit number of prophecies: with wonderful events such as nuclear wars, alien wars, zombie plagues, pole shifts, 2DD/3DD/7DD/10DD etc. Revelation 2-10 speaks of 10 days of tribulation: this almost certainly means 10 years (astrological=earthly key 1 day=1 year). The Syrian Apocalypse of Baruch apparently speaks of 7+7=14 years, where one week is a year week of 7 years (Link): the beginning of these 14 years is probably the outbreak of the Israhell warars on 7.10.2023, because most prophecies defined this as the beginning of the conventional WW3. The Syrian Baruch Apocalypse apparently speaks of 7+7=14 years, where one week is a year week of 7 years (Link). There are 7 main fronts in WW3, man against man is only one of them: we want to experience all 7 to the very end. This will be a huge party that we certainly won't miss: let us praise the heavenly Father!

One might think that the practically universal assumption of 7 years of divine punishment among Christian devils is light-years away from reality and can't be topped. But far from it, it can always get worse: among German-speaking denizens of prophecy, the assumption of a single year X of divine punishment is almost universally made… Thus both groups can be thrown in the trash, because neither of them even comes close to the full truth.

Let's begin with the soul review, which occurs quite early in the most intense 6-9 months. A good summary can be found at Daniel O'Connor (Link). Here, I expect the beginning of the 3-3.5 months of the last revival. Dr. Mary Jane Even's model (January 4, 1997) speaks of the soul review and, 6 months later, the three-day darkness (Link): this fits well with classical European prophecy - except, of course, that almost everything lasts longer than expected, which is why I'm writing about 6-9 months here. It also fits with the 5th trumpet of the Apocalypse according to Revelation 9, where the black souls are tormented for 5 months by a kind of locust-scorpion: Alonda Stallings saw this glorious divine punishment from May to October (Link). Marie Loli Mazon of Garabandal spoke of the soul review when Russia destroys the goddamn NAZO devils (Link): this roughly establishes the location of the soul review since the 1960s, practically set in stone. A similar statement comes from Rabbi Gaon of Vilna (1720-97), according to whom Russia will reclaim Istanbul/Constantinople immediately (a week?) before the arrival of the Messiah (Link). Before that, however, there will already be several months of war, or rather, the liberation of Constantinople is pretty much the end of the war.

On November 24, 2005 Dr. Maurice Sklar saw the wedding with the Lamb, when the Chinese troops reach JerUSAlem & according to Swift Passage 2017 the first 'rapture=resurrection comes when Russia bombs Israhell (Link), confirmed by @jacobhall8267 & at least since 2017 also by Dr. Dave Williams (Link). Similarly, Zion144 2014 (Link) saw the liberation of Palestina by tanks parallel to the 'rapture'=resurrection. The destruction of Israel is almost certain to come in June/July (August?), in several verses the Bible points to May-June according to Pastor Philipp Barnett (Link). However, the wedding is not necessarily identical with the first 'rapture'=resurrection: perhaps first there is the marriage supper & later (4 months?) the first 'rapture'=resurrection. On December 10, 2025, I had a coded dream in which the bride of Christ is saved 22 seconds before the train starts moving: according to the biblical key 1 day = 1000 years, that is 3 months beforehand. It could also be a double code for calendar week 22 = end of May.

Birger Claesson saw the (first) ‘rapture’=resurrection *during* (!) the Russian denazification of Sweden on December 12, 1950 (Link), as did a woman from Sweden in 1972/73 (Link). According to some prophecies, Scandinavia will clearly be denazified some time (weeks, months?) before the rest of Europe: thus, the first ‘rapture’=resurrection would be * before* the denazification of Central and Western Europe. Similarly, Erna Stieglitz (1950) saw that Russia would first clear its northern flanks (=Scandinavia) and southern flanks (=Balkans, Southern Europe) and only then its central flank = Central and Western Europe. The model by Bernhard Bouvier and Friedrich Doepner (1988, Link) envisions the denazification of the two flanks taking place in early summer (June to mid-July). According to this model, the first "resurrection" would presumably occur after three weeks of war, i.e., around the first half of July. Anton Johansson (1907) states that Germany and Austria were divided on how to react to the fall of Sweden (Link): thus, they had not yet been denazified. Johansson envisioned Sweden's denazification taking place in one summer (Link): therefore, a "resurrection" (the first or at the latest the second) would also have to occur in one summer. All these descriptions confirm that the denazification of Scandinavia was not a blitzkrieg: it took longer - at least weeks. Johansson uses the term "weekly" as a single timeframe. In the end times, most things take approximately 3.5 time units, so a duration of 3-4 weeks is most likely for the delicious Swedish chocolate-covered marshmallows.

Mari Loli Mazon said on October 19, 1982, that it looked as if the church had disappeared (Link): this 'disappearance' could also be interpreted as the ‘rapture’=resurrection with the Garabandal miracle. Heather Michelle also saw the ‘rapture’=resurrection in a summer (Link). Similarly, on October 23, 2019 J. Cooper’s husband saw a ‘rapture’=resurrection during the US civil war (Link), apparently even *before* the US denazification by Russia and China. In 1989, Michelle Walcott saw (Link) the great US persecution of Christians (by the Trump beast?) even before a ‘rapture’=resurrection: the question is whether this refers to the first or second rapture.

There is another Islamic argument for July, namely a backwards calculation: there are many *old* sources (e.g. Helmut Lungenschmid 1973) for a 'rapture' = resurrection around mid-December (Advent/Christmas/Hanukkah), probably the second. I have dreamt that I fly home from JerUSAlem on a December 25: ‘rapture’=resurrection. According to Islamic sources (Link, Link), 40 months pass between the 2 waves of resurrection: since Islamic sources are light years more reliable than Christian sources, this is extremely important. Because of the key meaning of 42 months/1260 days I assume 40-42 months. 41 months before mid-December again points to mid-July (+/-1 month).

In Bob's model (March 2007), we completed point #3 in September 2025, with by far the biggest rapture hype in history (Link): #4 is the slaughter of Christians, #5 the slaughter of regime opponents, #6 the wedding feast with the Lamb, and #7 the return of Christ. The greatest persecution of Christians, of course, already began in 2020, when almost all churches in the world (except in Russia and Sweden) were closed, as *never* before.

Virginia Duduman Boldea (daughter of Dumitru Duduman) confirmed that, according to her father, things will get extremely bad in the Whore of Babylon USA even before the ‘rapture’=resurrection. I interpret this as the final 1-4 months of the US civil war - or even only after the liberation of the US by the BRICS heroes. It is soothing that Jeremiah 50 speaks of complete US extermination: "*A nation from the north [Russia] will attack her and lay waste her land. No one (!) will live in it.” We also have Jeremiah 50-26 (->2026): “Completely destroy her & and leave her no remnant. […] Because of the Lord’s anger she will be uninhabited but will be completely desolate*." Julie Whedbee’s model (Link) is somewhat more nuanced: she places the great persecution of Christians between the first and second raptures. Whedbee sees two sealed groups: the first fruits and the martyrs, the latter of whom continue to incarnate in a 3D excrement bag during the 1000-year reign of Christ. This clarifies the question of who will even be incarnating in a 3D vehicle in the coming 1000 years. Gracia (link) takes a slightly different view, stating that after the 'rapture' = resurrection, the blood of Christ is no longer of any help or available: however, this almost certainly refers to the second or third 'rapture', not the first.

The would-be Antichrist in the White House admitted indirectly that he certainly wouldn't be going to heaven (Link): so it doesn't matter anyway, he can go berserk. According to visions since the 2010s, Trump will have guillotines erected to behead Christians, e.g. from the Handmaid of the Most High (Link). J. Cooper's husband had a similar dream on October 23, 2019 (Link). My Hiding Place 2022 (Link) foresaw the total persecution of Christians in the US *before* the first

‘rapture’=resurrection. EWM saw the zombie plague in 2026 in 2020, when Obama is back in power (Link): probably after Trump's death, but unlikely to coincide. A similar plague prediction comes from Robert Avila in 2022 (Link).

Unfortunately, Foster misunderstands the 'children': he means the children of God = white souls, the black souls are creatures of God, but not his children. That's a huge difference, and it's also explained in Matthew 19-14: the (little) children go to heaven. Furthermore, 'children' are a symbol of innocence, meaning those who have atoned for their sins.

The Bible contains 6+ verses on the parallel between the 'rapture'=resurrection & the fall of the Whore of Babylon (Link).

Gwendolen Song (Link) dreamed of Obummer taking power 'immediately' after the ‘rapture'=resurrection, similar to James Eric-Johnson (Link): I estimate this to be 3-4 months before the US liberation by the BRICS heroes. Obummer (4.8.61) has his most important biorhythm peak (99%) between 2011 and 2032 in the fall of 2026: this could be an indication of his success. E. Aguirre (Link) saw Trump's death in 2017 in the year after his re-election (=2025), similar to other sources: according to them, time is running out. The would-be Antichrist in the soon-to-be-orphaned house admitted indirectly that he certainly wouldn't be going to heaven (Link): so it doesn't matter anyway, he can let loose. Ever since Mitar Tarabic's 19th-century Kremlin prophecy, we have known that Trump will be gone even before the denazification of North America (link). The 'rapture'/resurrection will happen with the last trumpet = Trump(et): this suggests the first 'rapture'/resurrection will occur while Trump is still in office, due to the end-times effect of "(almost) everything coming (too) late," probably around the time of Trump's death/ incapacity (=late) or shortly afterward (=too late).

Similarly, John Leary (Link) saw the soul review 42 days before nuclear day X in the great Satan USA, also during the civil war phase. Many prophecies since the 20th century say that the Bride of Christ ascends while the nuclear bombs descend, see for example Elizabeth Marie (Link) & Chris L (Link). The much-lauded nuclear days are therefore simultaneously possible dates for the ‘rapture’=resurrection and 42 days prior for the soul review. 42 days after the soul review is the first realistic date of the rapture/resurrection: this should be mentally noted. The 4 most important nuclear dates:

(1) May 26 (June 3): According to some prophecies, the first major nuclear day in the annual cycle is at the end of May/beginning of June, meaning that the soul review would take place 42 days earlier in the second half of April – contradicting other factors. This is primarily a date for the suitcase bombs in the major US cities and perhaps also for nuclear saviors in the Middle East, also according to the Waldviertel farmer SZ in (early?) summer.

(2) 11.8.: This date is important in old European prophecies, in the Simpsons & Chuck-Johnel Youngbrandt. This is also approximately the date of the US atomic bombing of Japan in 1945.

(3) 11.11.: This is the nuclear date of Reverend Philipp Barnett.

(4) 17.12. (7.12.-1.1): There are a large number of prophecies for this, but without clear convergence.

Lucy (Link) dreamed in 1998 that the Bride of Christ (=old woman) had already washed her garment *before* the Russian invasion (in the blood of the Lamb). Jeremiah 50-45 (Link) speaks of a 'rapture': in the preceding verses the troop buildup at the US borders is discussed & in the following verse the conquest of the Whore of Babylon USA begins. Hence, the troops are already standing by for denazification when the 'snatching of the shepherd boys' occurs: the shepherd boys are those who serve the Good Shepherd = Christ. In apparent contradiction to other statements, Ricci Wilson Johnson saw that the church *after* the US invasion is still in 3D poop bags: but the church is not raptured at all, only the Bride of Christ, who is a tiny fraction of it (<1%). 50x45=2250: 2250 and 2025 are anagrams; with the +1 code we arrive at 2026.

42 days after the soul review is the earliest possible (ideal?) timeline for the first 'rapture' = resurrection. The revival should then continue for another 2-3 months *during* the wars. Pain, suffering, and violence are unfortunately our only option to bring the evil race to repentance – we have tried everything else for a long time, and nothing has worked. From many prophecies concerning the USA, we know above all the beginning of total civil war (=Elliott wave 5): in a (late?) autumn to (early?) winter. In contrast, we primarily know the climax: according to Marie Julie

Jahenny, Nostradamus 6-8 & other sources, the French government collapsed and fled around May 24th. This is part of Elliott wave 5 of the civil war, lasting 37-45 days in May-July.

Even when considering Garabandal's statements as a whole, we find the soul review *before* the denazification of Western Europe, i.e., at the beginning of the major civil war phase. The Pope returns from Moscow, and then the massive civil wars (=Muslim wars) break out (or continue?), and this is the soul review. Slightly different interpretations suggest that the soul review/Aviso briefly halts World War III, or that one wave ends, and then a new wave begins (Link). In the Simpsons S16E19 (link), we also find the 'rapture'=resurrection during (or after?) the US civil war, as a blue plane (=Demoncrats) flies into a red airship (=Rape-ublicans). Strangely, Charlie's angels are mentioned: surely a code for the assassination of Charles Kirk on September 10, 2025. Afterwards, for the first time in decades, US flags were flown at half-staff due to a political assassination. The blue angels likely refer to the blue Kachina Atlas; Harvard professor Avi Loeb spoke of the 'true gods' who come with the Atlas…

According to the prophet Micah (see Tim Foster Link, Link), the snatching of the 'children' occurs *after* the beginning of the siege of JerUSAlem, but *before* the destruction of the world's center, the zombie apocalypse, and the 3DD – and roughly simultaneously with the plucking of the vulture/ eagle = USA. The siege of JerUSAlem lasts 12.8 months according to Ezekiel 4 (including 7 months of zombie plague): so we have a theoretical maximum window of 390 days, which is, however, severely limited by many other factors - glory to God in the highest! These 12.8 months include 7+ months of the zombie plague, however the first 'rapture'=resurrection is before the zombie plague: so it must happen in the first 5.8 months of the siege. Many factors point to the first 'rapture'=resurrection during the 1-3 months of the siege of JerUSAlem.

The most questionable source is Nostradamus, who in his letter to King Henry (#110) wrote of strange birds (Link) that cry 'huy huy' even *before* the height of the tribulations. A possible connection between 'flying like a bird' (='rapture'=resurrection) and avian influenza is uncertain: it might confirm a rather early 'rapture' = resurrection. The double 'huy huy' could be a code for a double 'rapture'.

Our thinking has been poisoned by misguided prophets like Alois Irlmaier, who saw only a single wave of war. However, reliable sources speak of 4-5 waves of denazification by Ivan the Terrible_

(1) Ukraine since 2022

(2) Southern flank (Balkans, Southern Europe) & perhaps also northern flank (Eastern Europe/ Scandinavia/ East Germany)

(3) Questionable, another intermediate step, e.g. north flank & south flank?

(4) USA – as no. 4 or No. 5?

(5) Central flank to Italy, Switzerland & France

Garabandal order:

1. Warning = Mini-Punishment: Due to the shock of the soul-reading, many deaths occur from heart attacks, etc., as mentioned by several sources, including Garabandal (Link). I estimate that, in total, 80-95% of humanity dies in the 12 months following the soul review for many reasons, the shock of the soul review being one of them. According to John Leary, Helmut Lungenschmid, and others, Satan is not allowed to intervene during the 42 days following the soul-reading: God's final act of grace. Initially, many (10-50% of the world's population?) will briefly find their way back to God before most fall back again after these 42 days. According to Lungenschmid, the trauma of spiritual visions is particularly healing for two weeks: then the science believers and atheists take over and explain the events as hallucinations due to solar storms, etc. Trauma is extremely healing because it tears people out of their apparent normality: this simply doesn't want to sink in, people only ever see the negative.

2. Miracles = Healings: Apparently, miraculous healings have occurred at all sites with Marian apparitions in the past. This will fuel the revival. Mari Loli Mazon of Garabandal (Link) said in the late 1980s/early 1990s that the vision (Aviso) occurs 3 weeks or 3 months before the miracle (mid-April or mid-May). Logically, 3 weeks beforehand seems more likely, as this would place the miracle in the middle of the 6-week period when Satan cannot interfere. If the vision is 3 months before the miracle, then the miracle would occur during the time when Satan is once again

dominant. However, other factors point more towards 3 months, so unfortunately, there is no clear consensus: I slightly favor 3 weeks.

3. Punishment: From then on, there will only be beatings and no love – praise be to the Lord!

Conchita Gonzales of Garabandal spoke of the soul review *after* an important synod, according to Mother Nieves Garcia: the word synod was still unknown in the 1960s, the Council was underway (Link). The Vatican's major world synod is considered a warning and was originally supposed to conclude at the end of 2023, but was initially extended until the end of 2025. However, this was revised, and the world synod ended on October 27, 2024, with the final plenary session (Link): so it has long since been fulfilled. Unfortunately, in the end times, everything always unfolds in a very Yin way = strange, weird, bizarre, complicated & confusing, nothing is ever Yang = simple & clear: so it becomes even more complicated. Shortly before his death in April 2025 (after the Synod ended on October 27, 2024), the black antipope BerGOGlio, inexplicably stated that the *official* end of the World Synod would not occur until June 2025 (Link): we have now fulfilled that as well. But even that isn't all: strangely enough, the World Synod will continue (?) under the title Church Assembly until October 2028 (Link). This is a different title than "synod," so I no longer consider it particularly relevant. All of this demonstrates how difficult even indirect timing is: there are many uncertainties.

Sammy Omosh's model (Link) is slightly different:

(1) The Bride of Christ receives the glorious resurrection body (=12D angel body).

(2) Then a brief soul harvest = final revival.

(3) 'Rapture'=resurrection with the wedding feast of the Lamb.

This model is strange because it differentiates between raptures and would mean that the first 'rapture'=resurrection is either with the vision of souls or with the miracle, i.e., *before* the revival for 3.5 months (or at the latest during it). The second 'rapture'=resurrection would then be the final one without (immediate) return. Logically, this makes sense, because those with the 12D angelic body will still appear as spiritual teachers during the 3.5 months of the revival. In any case, this fits with Matthew 24, according to which the (first) 'rapture'=resurrection is like in the time of Noah: everything is still (apparently) normal at this point. The Omosh model also essentially aligns with Stefan Parlow's statement of July 16, 2004: according to this model, the second wave of ascension (=rapture) will occur with the 3 dark days (the first will happen beforehand) – as indicated by numerous prophecies. Zarathustra #56 (Link) spoke of 5 resurrections, and many dreams confirm 2-5 resurrections (Link, Link, Link).

In Matthew 22 we find the following account:

(1) Matthew 22/3-22/5 (->2023-25): futile invitation to the wedding feast (took place on 26.12.2024), because nobody cares (passive rebellion against God=Yin), everyone just wants to continue living their everyday life.

(2) Matthew 22-6 (->2026) speaks of the persecution of Christians, i.e. the killing of the prophets sent by God (active rebellion against God = Yang): this is the civil war phase.

(3) Thereupon God unleashes his holy wrath, according to Matthew 22:7 (->2027): " *Then the king was angry; and he sent his army, and had the murderers killed and their city laid waste to ashes.*" This is the salutary nuclear phase in World War III, just like our brutal blows with the asteroid weapon.

(4) According to Matthew 22-9 (->2029), *after* the first wave of the nuclear war (=total destruction of cities), a second invitation to the wedding with the Lamb goes out to *everyone*.

However, something happened that I absolutely did not expect: I never would have thought that we would wipe out half the world's population *before* the soul review and throw almost all of them into hellfire: they have no chance anymore. God is very cruel: but that he is so cruel surprised even me. This is a good reason to praise God's cruelty 24/7. Good news in this context is that the world population will fall to 1-4 million or even below 1 million: instead of the previously expected 4 million. There are historical analyses of how strict and cruel the Almighty is when purging the population:

(a) According to one possible calculation (link) , 14 million people lived at the time of Noah, and only 8 of them were saved: that is, only one person out of every 1-2 million – this would result in only a few thousand survivors in 2048. However, I would interpret it more as meaning that only 8 people survived in the region of Israel, but even globally perhaps only thousands, i.e., in the high mountains.

(b) In the area of Sodom and Gomorrah, it is estimated that 10,000-50,000 people lived (Link, Link) and probably only one (Lot) was righteous. Only about one righteous out of 10,000 survived, also his two daughters.

(c) 75,000 years ago there was a genetic bottleneck (Link): the Genographic Project estimates that only 2000 people survived.

The Boss thus cleaned house several times, with a terrifying survival rate of 1 in 10,000 to 1 in 2 million. Many European prophecies say that after cleaning out the pigsty in Europe (e.g., the old Pramstahler Link), it takes 1-5 hours of walk to meet another person. Europe's population density was around 70 inhabitants/km² at its peak (i.e., before our atrocities with Bill Gates' magic bullet). These long walks for one person suggest that perhaps one person per 100 km² remains (one person in a 10x10 km square): this is a reduction to 1/7000, which globally means approximately 1 million people, since we started at 7-8 billion. The lower limit for population reduction is the 85,000 wisdom teachers mentioned in Buddhist scriptures - we don't want to overdo the population reduction. The most positive thing I can say about the human race is that it will be virtually gone by the 2030s.

Matthew 24 speaks of the first ‘rapture’=resurrection, as in the time of Noah: back then, everything was * seemingly* normal, and then suddenly the fist of God struck with heavenly cruelty, wiping out >99.99% of humanity. This is a strong argument for an early first ‘rapture’=resurrection: one can discuss what this specifically means, but it certainly occurred *before* the Russian nuclear attack in North America. One reason is that afterward, the internet, especially in the West, would be practically non-existent due to dependence on US service providers, including cloud services. For this reason alone, one can expect a sense of impending doom, the opposite of normality, especially in Europe (if it doesn't already exist beforehand). One source, strangely enough, speaks of the ‘rapture’=resurrection only a week *afterward*: this probably refers to the first US nuclear wave from the suitcase bombs in major US cities. Revelation 18-19 gives the following order:

(1) Nuclear solution for New York = Whore of Babylon in the narrower sense (or for the USA = Whore of Babylon in the broader sense?): through nuclear suitcase bombs, either on December 21st or June 21st, unfortunately there is no convergence – in this context, June 21st fits better.

(2) Wedding with the Lamb: mid-July – mid-August?

(3) Zombie Apocalypse: On August 20, 2025, I dreamt of the zombie apocalypse in August. Revelation 19:16ff is the parallel passage to Ezekiel 39, where the 7 months of zombie elimination are described. If August is correct, then the wedding with the Lamb would probably take place in (early?) summer.

The model by Jeff Byerly from the 2010s (Link) fits this pattern: it is somewhat more detailed with 5 phases and also begins with the destruction (with nuclear weapons?) of the dirtiest of all whores, NYC. #2 is the persecution of Christians and a nuclear war (where? suitcase bombs?), #3 a darkness (3 hours? 2 days? 3 days?) with asteroids, a worldquake, and the transformation of the Bride of Christ (=wedding with the Lamb?), #4 the revival with many miracles, and #5 the maximum wrath of God. A superquake in Mexico-KALIfornia is the major reference point in Angela Whitworth's 2018 model (Link) in the weeks to a few months before the wedding. Like others (e.g., Sammy Omosh & Lisa Fetty 2018 Link), Byerly distinguishes between 2 raptures: wedding/ transformation and resurrection - or the immediate return to earth after the resurrection? In this model, the wedding with the Lamb marks the beginning of the revival, which many sources predicted for a summer: this supports the wedding between late May & July. I expect 2-5 ‘raptures’=resurrections until 2038 (Link).

Therefore, we must detonate the gleeful US suitcase bombs (partially?) before the first ‘rapture’=resurrection (especially in the ultimate whore, New York), hallelujah! Elizabeth Marie also thinks so (Link). Whether this ‘rapture’=resurrection will also occur before nuclear day X in the Middle East, I dare not claim: the main impact on the rest of the world will be a massive oil shock,

but not necessarily much more. Presumably, the first ‘rapture’=resurrection will come *after* the exciting nuclear party in the Middle East: accordingly, the USA and the Middle East will let loose with nuclear weapons *before*, but not in Europe (except perhaps in Northern Europe).

Akeem Godson (Link) foresaw a "rapture" with the asteroid impact on the East Coast, which, according to Chuck-Johnel Youngbrandt, wiped out 62 million pests. The number 26 is the mirror image of 62: it could therefore be a code for 2026. Perry Stone (Link) saw three disasters on the coasts of North America before a ‘rapture’=resurrection: East, South (Gulf of Mexico), and West. Here, too, the question arises whether this refers to the first, second, or third ‘rapture’=resurrection: more likely the second or third. The first rapture is likely to coincide roughly with the major asteroid impacts, especially the one near Puerto Rico: however, there are some contradictions before or after. Certainly, massive natural disasters will occur before the first 'rapture' = resurrection, but not necessarily asteroid impacts.

Another fulfilled prophecy is the official appearance of 3I Atlas on July 1, 2025 (of course, it was actually known years earlier): in English, 3I is pronounced like "3 eye." This is no coincidence, but a code, because the soul review is only possible with an open 3rd eye: a level of consciousness LoC>540 on Dr. Hawkins' scale (Link). Only from the mid to high 500s onward does one have access to the soul and thus the possibility of a soul-review: 99.9% of humanity never calibrated to such a high level and therefore never had significant soul review access (Link). The seconds of orgasm are usually the only moment in the high 500s for a soul to incarnate during conception. In 2015, I learned from an avatar how to trigger soul review in someone via the third eye, but people died quickly afterward, so we stopped. In 2006, I was walking near the UN City in Vienna when an Indian UN diplomat (wearing a rather expensive suit and a turban) stared at me intently from the other side. I was about to flee when he came over, pointed excitedly at my forehead, and said in English that my third eye was opening - this opening was pretty much complete four years later, in 2010. In the 2000s, my connection to the Boss wasn't very good, so he kept sending me people with all sorts of messages.

My first life review, or rather, soul review, occurred at the end of 1998 during a psychedelic journey with Ayahuasca: it was a stroke of luck, and it was there that I first heard the voice of the Divine Father. It's almost incomprehensible how one's entire life flashes by in a fraction of a second. This website, amanita.at, is named after the fly agaric mushroom, Amanita muscaria, which is clearly connected to the rapture: many fly agarics so that we may fly. Now, in 2025, I suddenly saw more fly agarics than ever before: this is a sign of the rapture. We also find plants as indirect indicators in the work of Hermann Kappelmann (Link): a great many primroses from the pivotal year 2023 onwards (the end of Kali Yuga after 5125 years).

Stefan Parlow recorded the false alien rapture 50 days before the real ‘rapture’=resurrection. In 1996, David Daughtrey (Link) first saw a huge, round UFO on television, then within a single day a solar impact on the far side of the planet, triggering a massive solar storm that caused blackouts in North America. If this is true, then it will happen in four phases:

(1) North American Blackouts: August 11th? In the Simpsons (Link, Link), the eagle (representing the USA) is cornered and destroyed in August, and a black bag is placed over its head, presumably referring to a total blackout in North America in August. There's even a code for 2026: 4+(5+5+5+2+3+2)=26. The code 11-8 appears frequently in the Simpsons, meaning either 11.8. or 8.11. August 11th is also the US nuclear date/blackout date in Chuck-Johnel Youngbrandt's work. 11x8=88, short for 888=Christ (Link): it could also be a code for the 88th year after the largest war in human history (September 1, 1939), which begins in September 2026. In Ken Peters' model (1980), the resurrection of the dead takes place before a two-week blackout. The *government* persecution of US Christians seen by many sources must occur *before* the August blackouts: because afterwards there is no longer any state authority, the motto is 'every man for himself', and people kill each other indiscriminately for a bite of bread or for absolutely no reason. The only uncertainty here is that the Simpsons have a second blackout timeline for November: perhaps only partial blackouts in August and the rest in November?

(2) Alien rapture 1-3 weeks later: Late summer, especially late August to early September? In 2022 Michelle Katherine Orts predicted the alien invasion would occur on August 20 of an unknown year (Link). Orts also received the exact date of the Ukraine war (February 23, 2022, on the US West Coast): albeit only 9 days in advance, when it was already quite foreseeable. Alison Pound (Link) heard about the alien rapture coinciding with the Jewish Trump festival, carried out by blue aliens (-

>blue Kachina?). The next Feast of the Trumpets is September 12, 2026. This is reminiscent of the film JeruZalem (July 10, 2015), where JerUSAlem is overrun by aliens on Yom Kippur (a few days after the Feast of the Trumpets) – as suggested by BJ Brown (Link). In the film logo, we see Z=26 very prominently as a code: this pointed to 2026, just like the Z at the beginning of the Ukraine war on the Russian vehicles (as emphasized here since 2022). In the Simpsons, there's an ET rapture with dogs in a spaceship: dogs = evil people, and in the USA, August 26th is National Dog Day: is this a code for August 26th?

(3) 7 weeks later, the 'rapture' = resurrection: early autumn? 20.8. + 50 days = 9.10. However, the question arises whether this is the first or second rapture: more likely the second.

(4) In 1590, Francisco Ribera taught that the rapture would occur 45 days before the end of the 42 months of the (first?) Tribulation. The first wave of the Tribulation ends with the first return of Christ after the 3rd Tribulation: therefore, the first 3rd Tribulation would be 42 days after the first rapture: October 9 + 45 = November 20.

However, the end-times delay also plays a role here, with "interim days," so it all seems to be dragging on into December, as many sources have indicated. On October 4, 2025, I had my third zombie dream: I'm driving home from school when suddenly a zombie plague breaks out. There are at least two interpretations: the first is that this signifies the end of the school year, which is around June 30th. The second interpretation is that the zombie plague will break out when I finish my apprenticeship in a 3D-shaped poop bag (end of a long school year): this coincides with the first "rapture" = resurrection. It could be a double code based on my first two zombie dreams. On August 6, 2025, I dreamt of a class reunion where everyone looked pretty dead, except for maybe one or two? The two class reunions were in spring, and my graduation was in June: is that a code for spring? On August 20, 2025, I had my second zombie dream: on an August night, zombies staggered out of the Vienna General Hospital (AKH). So, if a rapture occurs parallel to the zombie apocalypse, then both could happen in August – or the ‘rapture’=resurrection already somewhat earlier in July. This is reminiscent of the Bariona prophecy:

From August 14th, Cologne is closed. Why, I don't know. Those who are inside can't get out, and those who are outside can't get in. An acquaintance of mine who lives in Cologne is fleeing. He hastily puts his little daughter in her car seat. In the process, the child loses a shoe. A voice speaks to him: 'Leave the shoe, hurry, or it will be too late!' The acquaintance drives off at high speed, the shoe left lying in the street.

Such a total quarantine is usually only found in the case of the most severe epidemics; otherwise, there are military checkpoints where one is allowed through or not. At the same time, this prophecy with the abandoned shoe contains a reference to the fairy tale Cinderella and thus to the wedding with the lamb. For Cinderella (=bride of Christ) receives help from the doves (=Holy Spirit) and ultimately marries the prince (=Jesus Christ). She has to sort lentils (the lentils are in the eye = sight -> soul-viewing): " *Yes, the bad ones into the crop, the good ones into the pot.*" This is the final separation into white and black souls. This monstrous plague could very well coincide with conventional warfare; Anthony of Aachen (Link) describes the magnificent battle near Cologne with the addition: " *A terrible disease [=plague] will help to clean up*." We can certainly use all the help we can get in cleaning up.

In the premium segment, the dollar indicator has been the subject of intense discussion since 2024. There's an exceptionally high degree of convergence in predictions (unprecedented) regarding how high the dollar will rise before we permanently destroy the euro. It's essentially a monetary countdown, showing us exactly where we stand. Unlike time-based indicators, this is more of an indication of the remaining event frequency, in that respect, it perfectly complements the other indicators.

Vicki Goforth Parnell (Link) received a message that Lucifer petitioned the Heavenly Court for a postponement of the 3 dark days(3DD): this means that the 3DD is very near, or even too near. In November 2025, there was a significant change at the Heavenly Court: there are now three levels. In the Kali Yuga, only the most serious crimes (capital offenses) could be safely brought before the court (all other offenses required mercy). Since November, it has been possible for white souls to bring all offenses before the Heavenly Court, especially those on the middle level, which includes ' ordinary' crimes. With some limitations, it is also possible to report offenses on the third level, which includes minor offenses: the earthly equivalent is administrative law, such as parking tickets.

However, usually only white souls can appear before the Heavenly Judgment, apart from the privileges granted to the Queen of Hell, etc. On October 29, 2025, I was able to request the full Christ anointings for the first time - and even more, thus fulfilling John 14:12 (14+12=26->2026) in 2026: " *Whoever believes in me will also do the works I have been doing, and greater works than these, because I am going to the Father."* Before, white souls only received a few percent of the Christ anointings, but this has increased significantly since then. I feel like I've been waiting for this for eons…

Bottom line 6-8 main anchors: We have a very good confirmation for the first 'rapture'=resurrection (or just the marriage supper with the Lamb?) in a summer (July 10-August 14?), while Russia is denazifying Scandinavia & the great Satan USA in the final 1-3 months of the civil war. Moreover, the marriage supper happens immediately/ soon after the (nuclear) destruction of the whore of Babylon New York & at the peak of the Israhell war, when we destroy the foreskin. Furthermore, massive natural disasters will occur before the first 'rapture'=resurrection: unfortunately, it's not really clear which ones, when & how many: most likely we see huge earthquakes beforehand, especially in the Americas. Normal natural disasters wipe out hundreds of thousands of people at most, so I expect at least millions of deaths during this earth healing: thus these natural disasters certainly cannot be overlooked. I see these 6 points as the main anchors, there are 2 more, but weaker: #7 shortly before (or after?) Trump's death & #8 shortly before (or during?) the US invasion by the BRICS heroes. However, with #7 and #8 it's not absolutely certain what happens first. It's even more questionable whether or not there will be the second 'rapture'=resurrection 3.5-4 months later with (before?) the 3 dark days 3DD - or 3.5 years later. According to traditional European prophecies and many newer sources (example Link), we expect the 3DD November 1st - December 8th. The indirect timing is significantly more important than the direct timing, which I will discuss in the next chapter.

Direct timing: spring-summer (fall) 2026

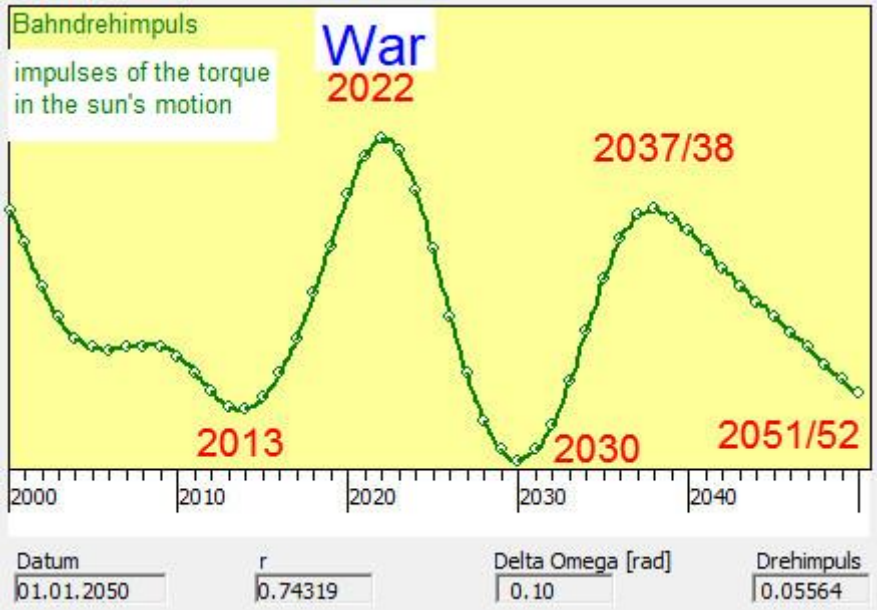
Hear this, you foolish and senseless people, who have eyes but do not see, who have ears but do not hear. (Jeremiah 5-21)

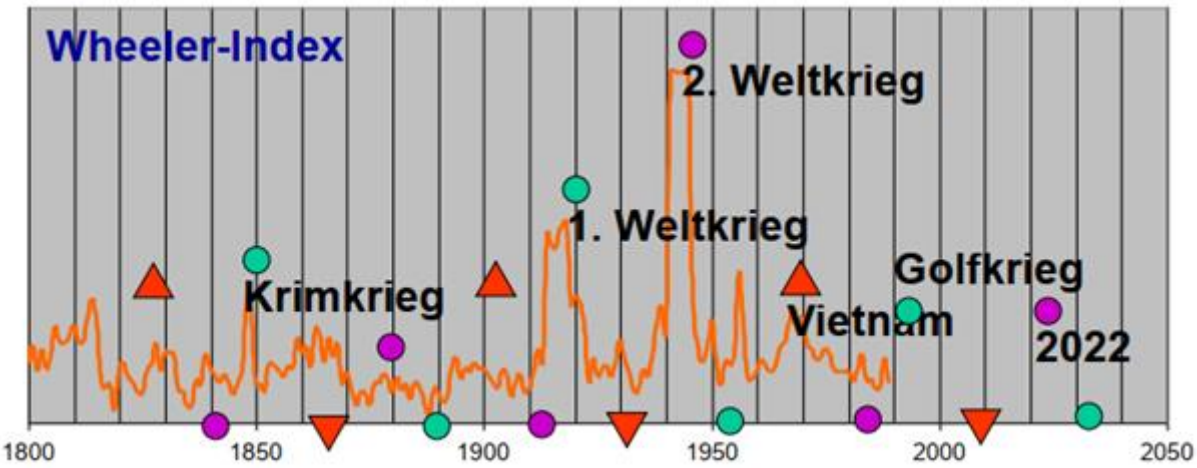
In 2024, I created the SHTF Model 1.0 (SHTF = shit hits the fan) for the empirical prediction of the peak of events in the coming decades, using a large number of factors. Around mid-2025, I created the significantly improved SHTF Model 2.0 with almost twice as many factors and a modified methodology, including the incorporation of the end-times effect of being late (mentioned months ago in the premium section). For example, many astrological constellations occur three times within a year. Previously, the first aspect was usually the most important (=Yang), but now, in the end times, it is the last (=Yin) – and even later. The SHTF Model 2.0 now shows the escalation peak around May 2026.

For the SHTF Model 2.0, I scoured my hard drive, where ancient models from 10-30 years ago were still lying unused. The rule always applies: the older, the better. The proprietary '15' model for the stock markets shows the biggest low in *centuries* in 2025-26; a deeper low isn't expected until 2094 – similar to other proprietary models like the CM Model & Boxing Model. The Prophet Model, based on the biorhythms of important prophets, also only shows one peak in 2025-27: spring 2026. The GDP model shows the major low for the global economy in 2026, as has been discussed in the premium area for years: more precisely, in Q3/2026 – again the end times effect of delay could kick in.

But my oldest models date back to my pioneering days from 1996-99 during my diploma thesis and later my doctoral dissertation. For my diploma thesis, I examined the astrological configurations of 3,528 highly creditworthy Austrian companies and 1,800 bankruptcies, based on data from the Credit Protection Association of 1870. Here, in the Vienna Working Group for Stock Market Astrology, founded by Peter Fraiss, we came across new insights, based in part on the pioneering work of Dr. Theodor Landscheidt in the 1980s (Link). As early as 2003, Landscheidt predicted a drought around 2025 (Link, Link): thus, the beginning of the Great Flood would only occur after that. Almost 30 years ago, we were therefore certain that the only major war of our lifetime would begin in 2022, based on the orbital angular momentum of the sun: chart below, calculated with the Sarastro program, analyzed using the Wheeler Index of War Activity. The Ukraine war of 2022 was the beginning of a conventional World War III, and the Z=26 marking on the Russian tanks

undoubtedly pointed towards 2026, as has been discussed here since 2022. The next, smaller high-pressure system in 2037/38 might still have some significance, but due to Nibiru and other events, the orbital angular momentum of the sun (Link, Link) will be completely different in the 2030s. 2012-13 was a period of maximum peace; 2014-15 saw several major wars, including Russia's annexation of Crimea and the invasion of Europe by millions of Rapugees.





The first derivative of orbital angular momentum is the variance of the Sun's orbital angular momentum in the image below, the 3-year cycle (Link, Link), which, interestingly, correlates strongly with civil wars and revolutions, and secondarily with international wars: this is a cycle of 30-40 years. In this respect, we already understood in the 1990s that the only major civil war peak in our lifetime is due in 2026-27: because these civil wars usually occur in the year shown and sometimes even in the year *before* – civil wars are an important indicator in the prophecies. Landscheidt himself wrote a quarter of a century ago of '1989 reloaded' in 2026, not 2027 (Link): the fall and resurrection of the Soviet Union. The same pattern is evident with major stock market lows, which tend to occur in the months before the peaks in the variance of solar orbital angular momentum. Similarly, major stock market highs tend to precede lows in the variance within the first 1-2 years. The major highs (the middle finger, so to speak, or Saturn's finger) cause the most turmoil. However, we also see that all minor highs since 1940 have had some effect (+/- 1):

* 2020: 2020-21 Covid civil war (the governments killed their population)

* 2012 (mini-peak only): 2011 saw many revolutions and civil wars in the Middle East -> the highest number of wars since World War II.

* 2001: 9/11 marked the beginning of the US civil war in the broadest sense and the biggest geopolitical and military turning point in decades (Afghanistan War)

* 1996: The 1996 Congo Wars (#1 was a civil war, #2 also an international war) resulted in the highest number of casualties of any war between 1953 and 2022, with 4 million victims.

* 1989: 1989 collapse of the Soviet Union, largely peaceful revolution – 1990/91 first Gulf War

* 1980: 1979 Iranian Revolution -> 1980 Iran-Iraq War

* 1965: 1965 Devil's Revolution in the Vatican at the conclusion of the Second Vatican Council, 1965-68 Devil's Revolution

* 1956: 1956 Hungarian uprising -> shaking of communism

* 1950: 1949 revolution China

* 1940: 1939 World War II

* 1917: 1917-18 saw many revolutions and overthrows of emperors/kings/tsars, including in Russia, Germany & Austria. The soldiers' vaccination campaign from 1917 onwards led to the Spanish flu with 50-100 million deaths (more than World War I), the first major biological warfare or 'vaccine revolution'.

The formula 1900 + Psalm number has been used in predictions since the mid-20th century. Psalm 126 (->2026) is therefore interesting: "*Search me, God, and know my heart; test me and know my anxious thoughts."* This thorough examination sounds very much like a soul review. The ominous Nostradamus year 3797 (the only one after 1999) could be a code for 2026, since 3+7+9+7=26.

On December 7, 2025, I had two highly coded dreams in a row, which apparently point to a soul review in April, especially around April 7th and April 16th-22nd (Andrea's name day). It could also signify a victory of the forces of light over evil.

In the Simpsons, we find over 9 clues pointing to the 'rapture'=resurrection in 2026, some with +1 codes (meaning as early as 2025), as discussed in the free Amanita newsletter of October 2, 2025 (https://www.amanita.at/docs/open/20251002-e.pdf). I have since discovered further factors. The number 47 shown in connection with the (lack of) rapture is a triple code for the Islamic year 47 (1447 to June 2026), for the 47th US President Trump, and for the soul metal silver with the atomic number 47, which has been skyrocketing in value since the beginning of the Islamic year 1447. Strangely, Homer Simpson uses the number of Filipinos in his calculation of the date of the 'rapture'=resurrection (Link) . Philipp means 'friend of horses' (philos = friend & hippos = horse) and thus points to the Year of the Horse beginning on February 17, 2026. The Philippines and Philadelphia share the same root: Philadelphia is one of the seven churches in the Book of Revelation, the only one that remained white = Bride of Christ. The statement about eternal life in the Year of the Horse can already be found in Liu Bowen (1311-75), meaning if one survives the Year of the Dragon (=2024/25) and the Year of the Snake (=2025/26). The crucifixion took place in 0033, the Year of the Water Snake. Historically, most major plagues of the last millennia occurred around the end of the Year of the Snake = shortly before the Year of the Horse = beginning of 2026 (+/- a quarter) or around the Year of the Rat (+/- a month). The lockdown of Wuhan therefore occurred practically *to the day* with the New Year of the Rat in 2020. Similarly, the most bearish

years for stocks are Snake, Horse & Sheep/Goat 2025-27. The New Year of the Goat on February 6, 2027, was already defined as the final timeline in I Pet Goat 2 (2012). Chris L (Link) already saw in 2019 that the first 'rapture'=resurrection will come even before the alien children with the black eyes, which was already predicted by Ra Uru Hu in 1987 from 15.2.2027 onwards (Link).

In the case of indirect time references, we often have an overlap with cycles, e.g. in the Irlmaier 7-stage process model so popular with (m)asses (Link):

1. Enormous prosperity: from the 1950s-1960s

2. Decline in faith: from the 1960s-1970s

3. Moral decay: from the 1970s onwards (infanticide = abortion, equal rights, legalization of corruption under the guise of 'lobbying', etc.)

4. Multiculturalism: from the 1980s-1990s

5. High inflation: since 2021 (all-time high search volume for "inflation" from 2021 onwards - Link)

6. Civil wars: hybrid since 2020 with the Covid weapon, or actually since 2015 (invasion of millions of Rapugees)

7. Denazification by Russia

While this model provides a good summary, it is essentially only a description of the last two of the 10 phases of the 700-year cycle (Link) or a refinement of Oswald Spengler's cycle (who, incidentally, recognized Russia's special cyclical role over 100 years ago). For those familiar with cycles, the insights gained from such general statements are therefore negligible. In fact, the opposite was often true: considering the pronouncements of "garbage prophets" like Alois Irlmaier actually worsens (!) forecasts instead of improving them. Like all such prophets, Irlmaier held a perpetually short-term view, completely contradicting the 700-year cycle – which, incidentally, is half a cycle of the 1350-year climate cycle (Link) and one-fifth of the 3600-year Nibiru cycle.

Phase #9, the terminal decline in the 700-year cycle, clearly began in the 1960s with welfare/socialism, terrorism (which was almost unknown until then), the first influx of foreigners (guest workers), and the female Yin reign of terror (the beginning of the cycle is Yang, the end is Yin). On average, Phase #9 lasts 65 years and thus pointed to the 2020s (2030s) for the beginning of the final Phase #10, collapse: #10 undoubtedly began in 2020 with the Covid terror, with typical symptoms such as travel difficulties, etc. Using pure cycle analysis according to Irlmaier, one would therefore never have expected Phase #10 before the 2020s. This is not a theoretical, retrospective statement: the excellent cycle analyst J.H.L. Lawler (in collaboration with Edward Dewey) predicted wars in the Balkans and the Middle East around 2004-2007 as early as 1968, based on the 700-year cycle and other cycles. These are remarkably accurate predictions: the Balkan Wars of 1991-2001, 9/11 in 2001, the Second Gulf War in 2003, and the Arab Spring in 2010. Furthermore, Lawler predicted a minor depression around 2009 and a major one in the early 2020s decades in advance: these predictions also came true almost exactly. Lawler's *only* prediction for the early 2020s to early 2030s in decades: war around 2025.

In my 2024 analysis of search volume for "rapture" + year, I noticed that the search volume for " rapture 2026 " was lowest in the 2020s. A Google & Yandex search for "rapture 2026" yielded almost nothing, or even sources claiming that the "rapture" would *not* happen in 2026. A TikTok search for "rapture 2026" on December 2, 2025, even returned: " *No results found.*" Strangely, my YouTube search for "rapture 2026" on December 2, 2025, across two different accounts (my main account was ruined by the YouTube terrorists), also yielded virtually nothing. At the top of the list was a video with only 68 views in two weeks (Link), another with 59 views in six months (Link), yet another with barely more than 2,000 views after one to two years (Link). The channel Rapture 2026 (Link) had only a few hundred subscribers & channel June2026Rapture (Link) hardly more than 100. These view counts are 3-5 zeros (a factor of 1000 to 100,000!) below the hype surrounding the "rapture" on September 23/24, 2025. Such unpopular videos are only shown when there's truly nothing else available. Even for 2027, there's much more, although at the time of the query, that was 13 times further away than 2026. This is further, extremely important confirmation for 2026, because the crackpots are always clueless and a 100% contrarian indicator: the truth is always a hard sell.

Zarathustra #10ff (Link) spoke about 3000 years ago of four years of *apparently* useless prepping: in 2020, the majority of the world's population became preppers for the first time. In the old Iranian calendar, March 21st is the New Year: so 2020/21 was the first year, and one could add four years until March 21, 2025. Since then, depending on the interpretation of the extension zone, we have been in the +1 code. However, one could also interpret this to mean that prepping was certainly not necessary until March 2025, but only *sometime* later. Zarathustra #14 could be a highly coded triple code for summer after four + two years (ten winters), as well as after ten years (around 2030) for the new ice age with continuous snowfall for seven months. The beginning is supposed to be on the 15th of the month Khordad = Daē-pa-Meher (Link, Link, Link): approximately June 5th.

In total, over 100 factors point to 2025-26, and only a few to 2024 or 2027: there were already partial fulfillments of these in 2024-25, and some require the code +1.x. Some of these are duplicate codes. One of the oldest sources for the rough timing is the Austrian prophet Jakob Lorber (1800-1864), who spoke almost two centuries ago of Christ's return slightly less than 2000 years after the crucifixion. During the 20th century, this was refined to seven years before the full two divine days, which equates to two millennia: the crucifixion almost certainly took place in the year 0033, so this points to 2026 = 0033 + 2000 - 7. But the historical window for the Crucifixion (in an April) is 0031-0034, so we arrive at April 2024 to April 2027, which is also being discussed by spiritual exegetes such as Daniel O'Connor and others (Link).

87+ (!) factors confirm the end of the worst and most significant disruptions around October 2037 (+/- months), and my research constantly uncovers more: almost everything points to 2035-38. *No one* in the world has a broader range of evidence in this regard. One example of a new factor among these 87+: Dr. N. Centurio wrote as early as 1953 in his book *Nostradamus: The Prophet of World History* about the emperor's final victory in the last battles around 2035 – with the war ending soon after (2036-37). Centurio also wrote about the conquest of Istanbul around 2030 and that the major events would begin around 2020: this is exactly what happened, so he must be taken very seriously.

Direct timing: Year of the Horse 2026 in the Chinese-Tibetan calendar

For when your judgment falls on the earth, the inhabitants of the world will learn righteousness.
(Isaiah 26: 9)

The Chinese calendar is 60 years long (12 signs x 5 elements), while the Tibetan calendar, due to its two additional polarities (Yang/Yin), has a 120-year cycle. The most extreme aspect of this 120-year cycle is the Yang fire horse, beginning on February 17, 2026. This calendar is actually 120 x 9 = 1080 years long, as there are also 20-year Feng Shui Yun cycles (Link, Link): Yun #9 is 2024-44, where the number 9 represents Mars and thus the end/end times. 999 is the Terminator code: the Putin came to power on August 9, 1999, with the number 999. Officially, Yun #9 is the Yin Metal Snake, although the description is more fitting for Fire: very rapid and dramatic changes.

Therefore, the Year of the Yang fire horse 2026/27, along with the Yang fire dragon, is the year with the most fire in these cycles: the more fire, the more eventful and intense/climatically warmer. Confucius already attributed floods and plagues to the fire horse (especially its fiery Yang). The list of occurrences of the two fire signs horse & dragon with the element fire is impressive:

(1) The last fire dragon was in 1976: humanity experienced the earthquake with the highest death toll since Shaanxi in 1556, with an estimated 300,000-500,000 deaths in China - hallelujah!

(2) With the last fire horse in 1966/67 (+/-1), the largest revolutionary movement of the 20th century took place, and the foreskin conquered JerUSAlem: this is surely no coincidence and certainly the perfect opportunity to liberate JerUSAlem from Satan again after 60 years. The conquest took place in the Jewish year 26 (5726), and this naturally points to the Western year 26 (2026). 26 = Iron = Mars = War: according to Rabbi Efraim Palvanov, iron is the metal of Judaism. By the way, Palvanov calculates 9.2 billion Adam soul sparks (Link). This is certainly true, because Judaism was the alpha people in the Iron Age = dark age Kali Yuga. In Russian, iron is called железо, with almost the same root as шесть = 6. Furthermore, 26 is the number of the extraterrestrial reptilian god Yahweh. The number of the biblical book is equally important: Ezekiel is the 26th book of the Bible. Ezekiel flew in a UFO, and NASA engineer Franz Blumrich was even able to file a US patent in 1972 based on the descriptions in the Book of Ezekiel (Link). Furthermore, there were monster earthquakes in 1964-65, and above all, the second strongest earthquake in history: Alaska 9.2. Last but not least, the Hong Kong flu around 1968 was the second worst (rapid) epidemic between 1920 and 2020, hallelujah!

(3) Around the time of the fire dragon in 1916/17 there was the second largest wave of revolutions in the 20th century, the largest plandemic in centuries (the Spanish flu was spread from the end of 1917 with the vaccination of soldiers) & of course the height of the First World War.

(4) The last Yang fire horse was in 1906: the deadliest earthquake in North American history, which tore San Francisco to pieces. Furthermore, the 1906 earthquake in Ecuador, with a magnitude of 8.8, was the sixth strongest in history.

(5) During the fire dragon War of 1856, we fought the bloodiest war in about 40 years (Crimean War).

(6) The Yang fire horse of 1786/87 roughly marked the beginning of Freemasonry revolutions (1789 France), the first major victory of Freemasonry.

(7) The Thirty Years' War, beginning in 1618, was the largest war in centuries (parallel to the Manchu War in China, with an admirable 25 million dead, more than the First World War): in the year after the fire dragon.

(8) The Shaanxi earthquake of 1556, which is estimated to have caused 800,000 stubble and crushed bodies, was considered the most beneficial earthquake in world history and occurred ‘purely by chance’ in the year of the fire dragon.

(9) The hemorrhagic fever of 1546 in Mexico was the greatest epidemic in the Americas, where we wiped out 12-15 million: again in the year of the fire horse.

(10) The Battle of Hastings in 1066 in the fire horse was the most important battle for approximately 300 years (Link).

(11) The greatest climate anomaly of the last millennia (together with the Year Without a Summer in 1816) began in 536 in the Year of the fire dragon, culminating in the Justinianic Plague in 541 – praise be to the Lord!

(12) The Antonine Plague began in 165/66 under the fire horse: it killed 5-10 million people and is considered the most healing plague of antiquity.

(13) The birth of Christ took place around the year 4 BC = fire dragon. That makes sense, because according to Luke 12:49ff, the Boss defined his earthly mission like this: “*I have come to bring fire on the earth, and how I wish it were already kindled! […] Do you think I came to bring peace to the earth? No, I tell you, not peace, but division*.” In following Christ, we servants of God naturally strive to bring a lot of fire to the earth.

So we see extreme earthquakes, revolutions, plagues & wars surrounding the fire horse & fire dragon, exactly as predicted by Chinese astrology: perfect confirmation for 2026. In the year 2036/37 of the fire dragon, we'll let loose one last time: the end of the greatest cataclysms.

However, there are other anomalies in the Asian calendar for 2026/27: this year is ruled by Hexagram 28 of the I Ching: Death & Coffin (Link, Link). Furthermore, 28 is the short form of 288, the Jewish number associated with hell. We find the exact same healing symbolism of death in Hebrew numerology (Link): the years 2026, 2027, and 2028 signify killing, slaughter, and carnage - hallelujah, praise be to the Lord! In contrast, 2025 signifies the Mountain of God and the Altar (Link, Link). In Tibetan numerology, 2025/26 is a black year, belonging to the worst of the three categories (Link). The Tibetan calendar (1st Rabjung) began in the year of the Kalachakra Tantra in early 1027: therefore early 2027 marks exactly one extremely important millennium, a reminiscence of the 1000-year reign of Christ.

Furthermore, the 17th rabjung (1987-2047 Link) is considered a karmic reckoning phase: this is the Last Judgment, where we all must answer for our actions. 17 is the most frequent number on the dollar bill and symbolizes rebellion against God – as well as its consequences = negative karma. The 27 blood years, culminating in the end of the Antichrist's reign according to Nostradamus 8-77, are, as usual, a double or triple code: the first reference point is summer 1999 according to Nostradamus 10-72, the only directly mentioned year +/- centuries. Even Taurec (Alexander Hauser) recognized in 2013 (when his soul was still white) that we will ruin an Antichrist by 2026/27 (Link). We already ruined the first Antichrist (black antipope BerGOGlio) in 2025, and we will ruin the second Antichrist (King of JerUSAlem Charles (as well as the Antichrist-to-be Donald Trump)) in 2026/27. But the third Antichrist mentioned by Nostradamus 8-77 will continue to operate for even longer. The Antichrist system will be completely destroyed by 2047/48: 27 blood years after the coronation of the Antichrist in 2020 with the crown virus. A 'blood year' is, among other things, a code for vaccinations, where poison is injected into the bloodstream. October 2037 marks the end of the major upheavals (especially the pole shift), but then the Earth will remain very unstable for a good decade, or 42 quarters, and there will still be a high death toll. A possible third code is the Arab Spring starting at the end of 2010 (2011 saw the highest number of wars since World War II). World War): 27 blood years later points to the end of 2037. All of this is further evidence that we are working through a huge cycle.

The horse makes sense for other reasons as well, being the 7th sign in the Chinese zodiac: 7 is by far the most frequent number in the Bible, representing divine perfection. In the meridian clock, the horse (=fire) rules the time from 11 a.m. to 1 p.m. (Link), which is the time of the heart (heart meridian), when the sun (=heart) is at its highest point. The heart is the essence of a person and represents either the false self = ego (core veil) or the true = divine self. Therefore, in the Chinese zodiac, the horse symbolizes freedom and liberation (from the 3D poop bag). Last but not least, the four horsemen of the Apocalypse are associated with the horse. Rabbi Efraim Palvanov, by the way, sees a strong connection between the Chinese and Jewish calendars. This time, the world will be destroyed primarily with fire, not water, if the pact is not broken (Link). Revelation 9 associates the glorious divine punishment of the locust-scorpions (tormenting the black souls for 5 months) with horses 4 times: code for the Year of the Horse.

Direct timing: Yin years & first key date February 17-26, 2026

Like garbage, you remove all black souls. Therefore, I love what you command. (war prayer Psalm 119 verse 119 with the double 911)

With indirect timing, the end-times effect of "(*almost) everything comes (too) late*" sometimes applies: with direct timing, however, it almost always applies to conventional prophecies, similarly with numerology and cycles to some extent – but only rarely with astrological constellations. Especially with direct prophetic time statements (e.g., in the year 2033), the earliest possible point in time is always needed, meaning a +1 code is usually required (the only question is which one). In this respect, astrological constellations are the most reliable. Since 2019, I have been discussing (in the premium section) the key constellation Saturn 0° Neptune on February 20, 2026: this 35-40 year cycle is the most important conventional constellation at least in 2025/26, or even +/- years. The last conjunction (0°) coincided with the greatest global upheaval of 1950-2020 within *days*: the fall of the Berlin Wall on November 9, 1989. André Barbault was able to pinpoint the fall of

communism and the Soviet Union to this exact constellation decades in advance, because the theme of Saturn-Neptune is religious and quasi-religious systems or delusions, such as communism, the man-made greenhouse effect, etc. Putin was born in October 1952, just weeks before the previous 0° conjunction on November 21, 1952. The Russian Revolution occurred soon after the conjunction in August 1917. Saturn-Neptune can also be interpreted as follows: testing=Saturn of the soul=Neptune -> soul review. Neptune is the ruler of the sea and thus the soul: in German shared root of the words See=sea & Seele=soul is no coincidence, but rather the soul is governed by the element of water = Yin.

Saturn-Neptune is the Russian constellation, the second is Jupiter over the heaven's gate at 108° on April 24, 2026 (the third and final time), which marks the victory of heaven. Therefore, Jupiter at the heaven's gate is the worst constellation for Judaism, which is always on the side of hell: the great pogroms and expulsions took place during this 11.86-year cycle. In contrast, Jupiter's transits above 288° (288 being the Jewish number associated with hell, opposite to 108°) represent a victory for hell, as seen most recently on February 21, 2020 (the coronation of the queen of hell with the corona virus) and in early 1949 (the founding of the Rothschild rogue state of Israel in 1948). The sun's transit above 108° around July 10th/11th therefore roughly marks the beginning of the three-week Jewish mourning period, during which one often gets a good thrashing, hallelujah! Russia (June 12, 1990) is the only (important) nation with Jupiter at the Heavenly Gate at 108°; this is therefore the Russian constellation. According to all good prophets (=anti-Irlmaier) like Edgar Cayce, Russia is the hope of the world. I have my sun and ascendant at the Heavenly Gate, which undoubtedly facilitates keeping my soul pure. Thirdly, there is another incredibly strong world war constellation, which will not occur again until 2036 (premium area). The period from February 20, 2026 to April 24, 2026 is therefore heavily emphasized here.

A strong argument in favor of July is that it is one of the most unpopular months among rapture fools (Link). In the expectations and calculations of Christian devils, the 7 major Jewish feasts play *the* central role, as do some minor festivals: 95% of the Christian devils locate the 'rapture'=resurrection here. These 7 festivals occur in all seasons except summer: this is the strongest argument for summer, the only truly terrible season for Judaism. The 'rapture'=resurrection is unimaginably terrible for Judaism because not a *single* Jew can be "raptured" - as long as they don't renounce Judaism and serve Jesus Christ, not the reptilian god Yahweh. Furthermore, the reign of terror of the Khazarian mafia ended on September 15, 2023, after 5000+ years, as forecast here since 2013: immediately in the weeks following September 15, 2023, a terrible time began for the Rothschild rogue state (on October 7, 2023), praise be to Christ!

In Gematria, rapture=526 (Link), while the original Greek text states harpazo=726 (Link). The recurrence of 26->2026 is highly conspicuous and could be interpreted as May & July 2026 (without the +1 code). In April 2022, Michelle Katherine Orts received information about the great persecution of Christians around July 2026 (Link). A girl (2016) repeatedly witnessed the 'rapture'=resurrection in July: before or during the impact of an asteroid on the moon, leading to a meteor storm & fire rain on earth. This is likely identical to the visions of ITOma (Link) and the Waldviertel farmer SZ (Link) of a summer, as well as Pastor TD Hale in 2012 (Link). On the other hand, Gwendolen Song saw that the 'rapture'=resurrection had *not* occurred yet on July 4th during the US war (Link). In the film Quiet Earth (1985), a rapture (people disappeared) takes place on July 5th. Similarly, Until That Glorious Day 2021 predicted the rapture would occur shortly after the US birthday on July 4th (Link). In the Jewish calendar, 7/10 (10^{th} of 7^{th} month Tishri) is the holiest day (Yom Kippur), when according to Leviticus 25 the trumpets sound (-> rapture): argument for July 10th. Micah 7 speaks of a practically non-existent harvest (=tiny first rapture) during the time of the harvest of grapes and early figs: this is in July (possibly August). Sammy Omosh reports on a prophet in Kenya (Link) who says that heaven will close around the beginning of a July for approximately 42 months: this could have a similar meaning. Outpouring Gates=Zach (Link) saw that in January- July 2026, God will pierce people's hearts: soul review & revival? According to my decoding of the Economist cover 2026 (in the premium section), Last Judgment & the blood of Christ are shown for summer 2026: therefore, the first 'rapture'=resurrection should occur by summer 2026.

The later 'raptured Enoch (chapter 60) describes a monstrous earthquake, a tremendous celestial event & the end of grace on 7/14 (Link): this could mean July 14th, Tishri 14th or Nisan 14th. Purely by 'coincidence', the Apocalypse of Thomas also implicitly names the week beginning on 7/15 as the most terrible week in human history, see Tim Foster (Link): the only question is which

of the 3 possible calendars. The assumption that it must necessarily be a Jewish calendar (religious or secular) is certainly *not* correct. We saw this with the outbreak of the Middle East wars on October 7, 2023: in principle, Chuck-Johnel Youngbrandt's prophecy of the outbreak on Yom Kippur was fulfilled – however, in the *Western* calendar, not the Jewish one (exactly one Jubilee year after the first Yom Kippur War in 1973). Accordingly, we arrive at 3 possible timelines for the irregular eclipses etc.: 15 Tishri (late September to mid-October, next time 9/26/2026 Link), 15 Nisan (first three weeks of April, next time April 2, 2026 Link), and 15 July. Prophecies are usually fulfilled 3 times (not just once, as the wannabe experts believe in their delusion): July 15 is probably only a premonition. Based on other sources, I expect the main fulfillments to occur on the 15th of Tishri and 15th of Nisan. I've dreamt 4-5 times now about a darkness at the end of September/ beginning of October, which coincides with the 15th of Tishri in 2026, 2028, 2029, and 2031, thus pointing to these years. By the way, the 15th of Nisan (or the 14th?) was the crucifixion of Jesus Christ. If the 15th of Tishri is indeed a Monday (questionable according to the sources), then this points to September 23rd/24th, 2029: exactly the 5th anniversary of the biggest prophetic flop in history. There are some sources specifically for April 7th, including the Simpsons as a top source: this only coincides with the 15th of Nisan on April 7th, 2031.

According to my decoding of I Pet Goat 2 (2012), a more accurate version of the Research Time decoding (Link), the soul review event will occur either on New Year of the Horse, February 17, 2026, or at the end of March/beginning of April 2026. Then, for 42 days until the beginning of May 2026, it will be relatively quiet before all hell breaks loose. Apparently, the white butterfly symbolizes the soul review event, after which the Virgin Mary will dominate for a long period. UFO insider Chris Bledsoe has been speaking since 2012 about the end of the world (as we know it) around April 5, 2026: this could refer to the soul review event and its accompanying phenomena. The blind boy Mischa from Belgorod (Link), with a very high success rate, said at the end of 2025: "*I will see spring, and then I will go to sleep.*" Death is 'sleep's brother': is he referring to his death in spring/summer 2026? Another statement: "*In May, silence will descend the moment 2 people shake hands.*" The silence is clearly a code for the soul review, however May contradicts other sources.

Every year at the end of the year, news stories circulate claiming that Baba Vanga (1911-96) prophesied for the coming year: 98-99.9% of these are pure fabrications – only Nostradamus is similarly misused. The blind Bulgarian seer with contact to extraterrestrials did say something about some years, and these were largely partially fulfilled, but she said nothing about most years. In fact, she spoke of a terrible event with five occurrences of the number 2 (Link): this applies to every February 22nd in the 2020s, so it's an indirect code for the 2020s. We have already seen two partial fulfillments: around February 22nd, 2020, the outbreak of the hybrid World War III (the Covid circus), and almost exactly on February 22nd, 2022, the beginning of the conventional World War III (Ukraine). In fact, this was one of the reasons why I wrote about the outbreak of the Ukraine war on February 22, 2022, as early as 2021 – as, to my knowledge, the only forecasting service in the world. Baba Vanga, as a true prophetess, has thus had many astonishingly accurate predictions since her death. In contrast, for over 70 years, people have puzzled over the meaning of Alois Irlmaier's various statements involving the 8s and 9s: no one has really been able to make sense of them, and to my knowledge, no one has been able to make a reliable prediction based on them.

But these were only partial fulfillments; the following potentially terrible dates remain: February 22, 2026, February 22, 2027, February 22, 2028, and February 22, 2029. One could also consider December 22nd in the 2020s as a secondary date, although the 2s in this case are not consecutive. This pattern can be further refined: according to my research, almost all major crises in history occurred in January of an even-numbered Yin year, give or take a few months. Using this Yin cycle the 3 major crises since the beginning of the end times in 2016 the 3 occurrences marked the 3 big global escalation points (worked 100%):

(1) January 2020 virus war

(2) January 2022 war in Ukraine

(3) January 2024 Middle East wars (in October 2023).

Using this formula, only 2 terrifyingly beautiful candidates remain: February 22, 2026, and February 22, 2028. It also fits with the many statements about the great showdown in a leap year (=X1) or a

global sporting event (Football World Cup or Olympics), as suggested by Kameran Fally in 2016 (Link) based on Islamic prophecies.

In Genesis 49:17, the tribe of Dan is transformed into a snake that bites the horse: this perhaps alludes to the transition from snake to horse on February 17, 2026. According to the Midrash, the great plague will occur *before* the coming of the Messiah: the question is whether Plandemic 1.0 (Covid) is sufficient or if Plandemic 2.0 is needed. Plandemic 2.0 began in late May/early June 2024, when vaccine stocks exploded by hundreds of percent within weeks, and the EU leadership headquarters in Brussels ordered 40 million doses of avian flu vaccine. However, the reptilians' original plan to fully roll out avian flu starting in late 2024 could not be implemented; here, too, the code +1 year applies.

It also fits that almost all major stock market downturns since the 20th century (due to escalations in the Yin year) occurred around October 1st of an even-numbered Yin year, give or take a few months: such as October 1st, 2020, and October 1st, 2022, and October 1st, 2026, and October 1st, 2028. Therefore, we need the divine/astrological New Year in March for differentiation. Note: Years ending in 0 have no polarity and can therefore be either positive or negative. All of this corresponds to the polarities: masculine Yang = above & good times, feminine Yin = below & bad times. Besides this two-year cycle, there is also a 3 year cycle (the Kitchin or Rothschild cycle) of major world events due in the fall of 2025: usually within one quarter, rarely within two quarters (statistical standard deviation: one quarter). The 3 year cycle has a stronger influence on financial markets than on world politics, as does the triple cycle of 9-9.5 years, known as Juglar (Link, Link, Link). The double Juglar cycle of 18-19 years = Kuznet is also strong: 19 is the number associated with Islam, solar eclipses, and Welles Wilder's delta cycle. There is also a key cycle of approximately 42 months, which can be traced back to the baptism and crucifixion of Jesus Christ. It is due around autumn 2026, but its timing is rather imprecise. These patterns strongly point to around February 22, 2026, as the beginning of major events leading up to the end of 2026.

In the prophecies of 2026, we are working through many +1 codes, especially +1 year. This is because the feminine Yin (darkness) reigns in the end times, therefore the rule is: not the first possible solution (Yang) strikes, but the second best solution (Yin). The background for the end-times effect +1: Yang = 1, Yin = 2 - 1 + 1 = 2 or Yin = Yang + 1.

(1) This includes, in particular, March 21, 2025, according to the Vedic calculations of Bibhu Dev Misa (Link) and March 29, 2025, according to the 500+ year-old Bhavishya Malika (Link). Adding one year thus points to approximately the end of March 2026. According to the Bhavishya Malika, the entry of Saturn into Pisces (sidereal = Vedic) was the date, which corresponds to 24.1-24.2° Pisces in the west and occurred on March 29, 2025. Now, at the end of 2025, Saturn is stationary within 1° of 24.1-24.2° Pisces, which is essentially the second entry (though not exactly). *Exactly* on March 29, 2025, the strangest celestial phenomenon in recent history occurred, visible across half the globe (https://www.amanita.at/docs/open/20250508-e.pdf).

(2) Phoebus from Vienna already predicted the Garabandal miracle would happen in 2025 in 2020 (Link) & he learned from the Waldviertel farmer SZ as early as 1991 that these events would only occur in the 2020s (Link): 2025+1=2026 (+1 Code).

(3) Since spring 2024, I've been looking primarily towards February (spring) 2026 for the Soul Reckoning, because there was no soul review in the first months of 2024. This is also a +1 code: the next realistic opportunity. Mari Loli Mazon mentioned that the soul review = Warning (Link) is an event in an even-numbered year (=Yin), see Xavier Ayral as one of the few competent researchers in this area in Glenn Hudson’s forum (Link, Link, Link, Link). Because of Mari Loli Mazon's statement in the late 1980s/early 1990s (Link) about a 3-week or 3-month gap between the soul review and the miracle, the warning and the miracle are therefore in the same calendar year. Strangely, however, I then found a dubious source that claimed a statement by Conchita Gonzales that this would be in an odd-numbered year. However, Glenn Hudson, Conchita Gonzales' online spokesperson, did not contradict the statement about the even-numbered Yin year, so the odd-numbered year can be pretty much dismissed. I primarily researched the two-year cycle, where the peak of events occurs in the months around January of an even-numbered year (like January 2026), meaning almost all major world events happened within this timeframe: this fits perfectly. The two-year cycle also appears strongly in the spectral analysis of the Dow Jones (Link, Link).

(4) Based on Talmud Sanhedrin 97a, since 2021 Rabbi Efraim Palvanov (Link) has seen the end of the 7 prophesied years with the Messiah's return by the Chinese Horse New Year on February 16, 2026: here too, as almost always, we certainly need the +1 code.

(5) Benjamin Parravicini spoke of the shower of sparks with the 555, which probably pointed to 25.5.2025: +1 is 25.5.2026, which corresponds well with the early summer shower of sparks according to the Waldviertel farmer SZ.

(6) The Jewish sources are light-years better than the others (the Christian ones are by far the worst), with many *day-by-day* hits. The Jewish 86th year (5786 to September 12, 2026) could represent a liberation: 86 years was the duration of the greatest enslavement in Babylon, see Rabbi Efraim Palvanov (Link, Link). Rabbi Professor Lawrence Hajioff (Link, Link, Link, Link) offers two interpretations for the coming of the Messiah in the Jewish year 5786 (autumn 2025 to autumn 2026). In the first interpretation, Rabbi Gaon of Vilna indirectly mentioned (via the calculation formula) in the 18th century the date June 13, 2025, as the beginning of the 214.2857 years of peace until the Jewish year 6000 (6000/28=214.2857), i.e., 101.4 days (=0.2857x355) before the Jewish New Year 5786 on September 23, 2025: precisely on June 13, 2025, we started the glorious 12-day war for the proper punishment of the foreskin. However, we have here either a 180° code (war instead of peace) or a +1 code. This 180° code is also found in 1 Thessalonians 5:3: "*When people are saying, 'Peace and security,' suddenly destruction will come on them, as on a pregnant woman in labor, and there is no escape."* The filthy Zion SOB in the White House created a sham peace in the Middle East in the following months, which he called the 'eternal' (!) peace, supposedly ending 3,000 years of war. Based on these unbelievable statements, I am certain that 1 Thessalonians 5:3 was at least partially fulfilled in 2025.

However, one can also assume a double code, meaning one can perform the same calculation from the end of the year 6000 instead of from the beginning: Jewish New Year 12.9.2026 - 101.4 days = 2.6.2026. Purely 'coincidentally,' this coincides almost *to the day* with Don Bosco's (19th century) prediction of the blue moon (second full moon) in the month of blossoms (May) on 31.5.2026 for the appearance of the rainbow of peace (Link). Here, it is stated that the evil will end before 31.5.2026 (without the +1 code): this has always been interpreted as the final end of the evil – but that is impossible, the evil will continue until 2037. Only the (theoretical) blue moon in the flower month of March (in Italy) on March 31, 2037, marks the *final* end of evil: a classic double code 2026 & 2037. May 31, 2026, must therefore signify the temporary end of evil: for 42 days after the soul-reading, the demons are not allowed to intervene, the last great act of God's grace. Prophecies are *never* fulfilled 100% as expected, on average perhaps only 50%. This *may* indicate that the soul review occurs approximately 42 days beforehand (April 19, 2026).

June 2nd, 2026 is a code for the end of the axis of evil USrahell, hallelujah! Because as long as the Axis of Evil, USrahell, exists as the greatest obstacle to peace, there will never be a single day of peace on this slave planet. The great Satan USA has been involved in one or more wars almost every year since the 19th century, and it's not much different with the little Satan, Israhell. It's also true that, according to several sources, acts of war will occur in the decades from 2240 (starting in the Jewish year 6000), because of extraterrestrials.

According to the Terminator series from 1984 onwards, Justin Perry will be killed on March 29, 2026, by a Terminator (Link): the AI war is a crucial part of the US civil war, including the hacked Teslas, which we will use to run over the black souls. The Terminator already prophesied in 1984 that the machines (=AI) would take over around 2024, as far as I know, the only source: films are a much better prophetic source than conventional prophecies.

On October 23, 2025, I dreamt that learning Spanish was faster for me than learning Russian, taking only 2-3 months: this points to the beginning of 2026 – because of Garabandal = soul review in Spain? The first Marian apparition in history was in the year 40 in Spain (Apostle James). On November 2, 2025, I had an interesting dream: I wanted to bring in the harvest with my father, with a tractor and two trailers, that's 6 axles. I wanted to push back with it and thought to myself in the dream, that can't possibly work. As a farmer's son, I often pushed back with a tractor and a trailer: it's easy with 3 axles and difficult with 4 axles. Pushing back with 6 axles is practically impossible and therefore a miracle: a 6-fold code for the Garabandal miracle? It apparently means that the miracle will occur in 6 months (May 2, 2026), or in the 6th month (June), or in 6 years (like 2026). All three codes thus point to May to early June 2026. The harvest is the symbol for the last great awakening in human history after the soul review. It is striking that this dream came *exactly* 6.66

months before May 23, 2026: according to Debora Marasco of Manduria (Link), May 23rd is the last Marian apparition and Assumption, i.e., when the lowest and last aspect of God (the Divine Mother 13D) withdraws from Earth. Don Bosco (Link, link) clearly spoke in the 19th century of May 2026 as the date of the great showdown: the only blue moon (second full moon) in a flowering month of April-May +/- decades.

Troy Black (Link) mentions massive troubles for Miami even before the World Cup in June 2026, apparently flooding ('fishy'). Black (Link) also speaks of a large group of people experiencing remorse around January 2026, which sounds very much like soul review. He also mentions the sins of ancestors, which raises an interesting fundamental question: does soul review only reveal biographical karma, or also systemic karma - ancestors and karma from past lives? Furthermore, he saw a metamorphosis from caterpillar to butterfly: clearly a code for a 'rapture,' where one flies. The death researcher Elisabeth Kübler -Ross found the symbol of the butterfly in the Majdanek concentration camp, where children had scratched butterflies into the wooden walls with their fingernails: this was how they perceived the soul's emergence at death.

Unfortunately, Troy Black espouses a perverse, garbage-can theology where Jesus is the dumping ground for everything. He received the word of God that Jesus carried away our shame - but not healed or resolved it. Everything carried away is brought back during the soul review. Troy Black, like practically 100% of 'Christians,' misunderstands the redemptive work of Christ: Avatars merely delayed humanity's self-destruction, without preventing it. As is almost always the case, delaying only makes things worse; just think of postponed dentist appointments… Spiritual progress is only successful at a LoC>600; until LoC<599, one is an 'avatar parasite.' However, LoC > 600 is extremely rare; there have been entire centuries without a single person reaching LoC > 600. David Hawkins on this (Link):

Those who operate below the LoC level of 600 need a savior; those who operate above the level of 600 are redeemed and act as saviors.

The Simpsons (Link, Link) hint at the soul review around the time of the Super Bowl (scheduled for February 8, 2026), because this is when people talk about the good and bad things they have done. Christina Gallagher (2006) saw the soul review in February (Link), and John Leary saw it similarly during the football season leading up to the Super Bowl in the second week of February. Statements by Marie-Julie Jahenny *before* the 3rd Knot of the Wheat (around April) confirm February-April (Link, Link). The question is, which +1 code is needed here? Incidentally, the key timeline around the end of February (+/- weeks) also appears in the writings of the most popular prophet in the German-speaking world, Alois Irlmaier: however, it is, as usual, practically 100% misunderstood by the Irlmaier crowd. On December 7, 1952, Irlmaier described the weather during the terribly beautiful upheavals (Link):

What time of year is it? Dreary, rainy, and a mix of snow. Perhaps a thaw. The mountains have snow at the top, but it's bare down below. […] I see something white on the trees, but that could be blossoms, and it could be snow.

The first blossoming trees, the thaw, and the snow on the mountains clearly point to around the end of February (give or take a few weeks). In contrast, all those Irlmaier-Eggsbärtn types almost exclusively focus on August-October: we must completely distance ourselves from this misguided thinking. Even the Eastern prophecies (light-years ahead of the Western ones = gynocracies) repeatedly mention the key timeline around the end of February.

For the soul reading, I see three main possibilities: (1) end of February (2) mid-March (3) end of April/beginning of May. Unfortunately, there are good arguments for each timeline, and there is no real convergence.

Direct timing: Mid-May to early October 2026 revival & rapture?

O God, break their teeth in their mouths! Break the jaws of lions, O Lord! They shall perish like scattered water, like grass that withers by the wayside, like a snail that dissolves into slime; like a stillborn child they shall not see the sun. Before your pots feel the fire of the thornbush, God will sweep away the enemies, both fresh and dry. When he sees retribution, the righteous rejoice; he bathes his feet in the blood of the wicked. Then people will say, "The righteous receive their reward; there is a God who judges on earth." (Prayer for War, Psalm 58)

Almost everything indicates that the first ‘rapture’=resurrection will occur between mid-May and mid-October of a given year, and most of it points to 2026. Unfortunately, there is no convergence, which could have several causes: there could be two raptures/resurrections within a few months. Zarathustra #56 (Link) even speaks of five waves of resurrection, the 5 x 1/5 could point to 5 x 5 = 25 -> 2025, with the +1 code for 2026.

The earliest possible date for the rapture (or rather, the failure of these prophecies) is May 18th/19th, according to the Simpsons. However, there have already been two partial fulfillments: the biggest rapture hype, the all-time high in rapture search volume until 2025, occurred before the rapture prophesied by Harold Camping for May 21st, 2011. Secondly, the rapture predicted for May 18th, 2024 (May 18th being the exact date in the Simpsons!) also counts (Link): in May 2024, rapture search volume reached its highest level in nine years – but small compared to 2025. Mid-May to mid-June 2026 is the Year of the fire horse: this is certainly a focal point. Brandon Dawson (Link) spoke of the rupture of the amniotic sac (-> rebirth) from June 26, 2026. Strangely, Ouroboros already spoke of June 26, 2026 at the beginning of 2021, because this date connects 666=Devil & 888=Christ (Link).

But the rest of the Simpsons strongly points to June for the first ‘rapture’=resurrection. The world earthquake (micronova?) apparently takes place in June (Link): a monster earthquake is always described as occurring in the week before the central spiritual events. The Simpsons as one of the 3-7 best sources, already pointed in S09 E05 from November 2, 1997, to the FIFA World Cup in North America starting on June 11, 2026 (Link, Link), where people go crazy or suddenly slaughter each other (=civil war, possibly also zombies). A single Simpsons statement undoubtedly carries more weight than 666 Irlmaier statements. Nostradamus 10-74 (Link, Link) also speaks of the great catastrophe (hecatomb) not far from the millennium (=year 2000) after the great 7 (=Jewish year 5777, a 'great' number being 3 times this number) during the games. The biggest Games are the FIFA World Cup (planned for June 11-July 19, 2026) with the most spectators: the Olympic Games are only #2, and everything else is quite insignificant in comparison. In ancient Greece, hecatombs occurred primarily in the month beginning on July 16: this overlaps, so perhaps a time code for July 16-19, 2026? Furthermore, the Simpsons also point to May 18, 2033 = the final rapture? Because the (non-occurring) 'rapture' = resurrection is supposed to happen on a Wednesday, May 18. (or the night after), which will only happen on May 18, 2033 (Link). The Simpsons predicted a rapture hype followed by a huge disappointment, which happened on September 23/24, 2025.

The excellent Polish seer Filip Fediuk from Stary Waliszów (1907-92 Link, Link, Link, Link, Link, Link, Link) predicted the major floods in southern Poland of recent decades with the numbers 777 and 999, down to the exact day, including the precise flood levels: 7/7/97 (777) and 9/9/2024 (9 + 9+9 years later on 9/9). Actually the number 999 is a triple code: firstly, for the super-flood around 9/9/2024, and secondly, for 9/9/2025 (=9/9/9), when Poland invoked Article 4 of the NATO treaty, effectively starting a war with Russia. The third code is 9.9.26, where we will hopefully end the Polish rogue state: on the one hand, the code is one year later, and on the other hand, the 6 (Venus) in 26 is the mirror image of 9 (Mars). Fediuk is an anti-Irlmaier and, with this level of accuracy, need not shy away from comparison with Nostradamus – even if his work is, of course, tiny in comparison.

E. Aguirre (Link) predicted in 2017 that the US civil war would last 10 months, beginning with Trump's death the year after the child abuser's re-election, with one million dead. This likely refers only to the dead soldiers: according to Naftali Imber, 4 million soldiers participate, resulting in a death rate of a remarkable 25%. According to the Mishnah (base of Talmud) Eduyot 2-10, the great punishment, embodied in the Gog & Magog War, would last 12 months, like other phenomena of suffering throughout history (Link). Ezekiel 4 speaks of 12.8 months of the siege of JerUSAlem. However, other sources (link), such as Byron Searle (link) , only speak of a US civil war lasting a few months. Therefore, the beginning of these 10 months *might* have already been on September 10, 2025, with the assassination of Charlie Kirk, a close advisor to Trump, thus lasting until summer 2026: this assassination was definitely mentioned by the Simpsons in connection with the US civil war (Charlie). This aligns with Alison Pound’s statement (Link) that there would be a war on September 11, 2025. In traditional European prophecies, the full civil war phase (=Elliott wave 5) lasts only 3-6 months: outbreak with the Pope's return from Moscow & soul review from late February to early May. These 3-10 months in the evil empire only concern the final Elliott wave 5 of the US civil war: Wave 1 began with 9/11 and Wave 3 at the turn of the year 2020/21, as the Archangel Gabriel already informed Terry Bennett in 2001 (Biden coup 3.11.20 &

6.1.2021 storming of the Capitol). The deployment of the military within the country, as in the evil USA since spring 2025, is, except in the case of natural disasters, always a sign of Elliott wave 5 of a civil war. Diane Gruber provides a useful model for the 9 stages of the US civil war (Link): we are currently in stage 7 and want to quickly move to 8 & 9.

John 4:35 speaks enigmatically of the four months leading up to the harvest. We have been experiencing a 4-month cycle since mid-March 2024, marking key spiritual & cosmic events.

(1) First irregular solar eclipse in mid-March 2024 (Link, Link)

(2) Second irregular solar eclipse in mid-July 2024, see also Prof. James Kaufman (Link, Link)

(3) Mid-November 2024: Beginning of alien invasion, largest UFO wave in history, death fog

(4) Mid-March 2025: second, somewhat weaker UFO wave, but also 2 abduction attempts against my dual soul and me in Germany

(5) In mid-July 2025, the alien spaceship 3I/Atlas appears with millions of reptilian soldiers on board.

(6) Mid-November 2025: Avian influenza (=alien invasion): The CDC admitted to human deaths from avian influenza for the first time (Link, Link). Then the Pasteur Institute in Paris warned of the avian influenza plandemic (Link). Neither the mainstream media nor alternative media seem to grasp that Plandemic 2.0 is in almost every respect the opposite of Plandemic 1.0. Plandemic 1.0 was exaggerated, but now it's being completely ignored. This time, the illuminati have truly done an admirable job: an avian influenza virus with an unparalleled mortality rate of 100% in mammals (Link, Link). An Australian avian influenza study (Link) found in 2024 that 90% (!) of pregnant women died when they contracted the (new) avian influenza – and almost all fetuses died as well. This time things are really getting serious; we are more than fed up with the low death rates.

(7) Mid-March 2026: Soul review? March 18th is the key date for Medjugorje.

(8) Mid-July 2026: first 'rapture' = resurrection? The sun is also at the 108° celestial cusp, similar to Jupiter on April 24, 2026. Nostradamus, the king of prophets, died on July 12, 1566, with the sun at the 108° celestial cusp: this perhaps points to July 12 of a given year (my birthday). On October 9, 2025, I dreamed the following: a woman I know is standing there in a wedding dress (= Bride of Christ) and I tell her that she cannot be a bride yet, but only in July. Joe Ouelette's daughter (Link) also saw a 'rapture' = resurrection in July? July 10-15 of a year is the midpoint of the rapture window from May to October. On December 1, 2025, I had the following dream: I flee somewhere to the tropics, perhaps to an island. It's mid-year, and about a month prior, global logistics collapsed (late May/early June?). We're barely receiving any goods by ship anymore. I'm on a radio show discussing this, and I put some packages of sweets on the table, saying there's still plenty. But when the host sees this, he discreetly packs them away, and I think to myself: aha, so there isn't enough after all. This is a sign that around May/June (2026?), the sweetness/yin/grace will run out.

(9) Mid-November 2026: 3DD?

(10) Mid-March 2027:???

There are a surprisingly large number of indications for a 'rapture' (=resurrection?) in a summer. At Pentecost, June 9, 2019, the Last Judgment began: 42 months or 7 years later is June 9, 2026. Pastor Stan Johnson also anticipates the first 'rapture'=resurrection at Pentecost long before. Anton Johansson (November 14, 1907) mentions a 'rapture'=resurrection during the Russian denazification of Scandinavia, which, according to Bernhard Bouvier/Friedrich Doepner (1988), will occur in early summer, a prediction I also believe (Link). On March 31, 2025, I dreamt of a honeymoon trip to China in the summer of 2026. Jeremiah Johnson had a dream that there were many weddings among Spanish speakers in the summer (Link): Spanish could be a reference to Garabandal (soul divination) in Spain. Daniel Masika saw God's visit in the summer (revival) and God's benevolently cruel whip in the following winter (Link). Heather Michelle saw the rapture (resurrection) in a summer (Link) when her soul was still white. Matthew 24-32 explicitly speaks of (approaching) summer (early summer), and Matthew 24-41 mentions that during the rapture (resurrection), women are grinding wheat: the wheat harvest in Israel is in May-June, so grinding is primarily in the summer. Karin Nagel saw an eclipse in August. Brandon Biggs (Link) saw the revival in a summer primarily in the central USA, because then the coasts are already devastated

by natural disasters, etc. The last (alleged) US revival was in Asbury from February 8, 2023: 42 months/1260 days later is summer 2026. A Mormon dreamed in 1884 that the great plague would be almost over by midsummer (=July) (Link): the plague correlates highly with the civil wars.

In 2024, I dreamt of Christ's return on September 29, 2026 (without the +1 code): the one or two raptures will occur beforehand, namely 3 days to 4 months later. Incidentally, September 29th is the feast day of Archangel Michael: I didn't know that before. I've since had five dreams about blackouts at the end of September/ beginning of October: these could mean power outages or irregular eclipses; I'm not really sure.

According to my decoding of I Pet Goat 2 (2012), the alien rapture is around August 2026 & the white lotus disappears around September 2026: the white lotus obviously represents the pure bride of Christ, who 'disappears'. Here we find the tattoo Juanita, which means gift of God: gift of God of the rapture? Juanita has several name days from August 21st to 26th: this could be a clue to the exact timing. This decoding reveals a second ‘rapture’=resurrection at the turn of the year 2029/30, approximately 40 months later: perfect confirmation. According to the Islamic Surah al-Zumar 68 (mirror number 86 -> Jewish year 86 until September 2026) and Al-Bukhari 4651, there are 40 months between the two trumpet blasts (Link, Link), and according to the Bible, at least one rapture occurs during the last trump (et).

Direct timing: November to mid-December 3DD?

He will emerge condemned from the judgment; even his prayer will become a sin. Few are the days of his life; another will take his office. (Prayer for War, Psalm 109)

Pastor Philipp Barnett has been anticipating the ‘rapture’=resurrection in 2026 since 1999 (Link) (based on a lecture by a rabbi), specifically in the months leading up to the US nuclear date of November 11, 2026. He himself only received the nuclear date of November 11th of an unknown year from his superior: 11 is the Jewish number of revenge. In this context, this is the oldest unambiguous source and therefore the most important. Isaiah 11-11 is interesting because, to my knowledge, it is the only direct biblical reference to two 'raptures' = resurrections: the left behind feel God’s revenge. Alonda Stallings saw the glorious divine punishment for the black souls of the locust-scorpions from May to October (Link): this is confirmation of the 3DD around November, which marks the end of the revival.

On November 12, 2025, I had the following dream: I was in Paris, and someone asked me for help with an exam. I declined, explaining that I had my own exam the next day at 11:00 AM and still needed to study. The number 11 was meant to be a code, either for the 11th month of November or 11 months later, October 2026. In 2024, I dreamt of the wedding with the Lamb on October 19, 2025: as always, a +1 code was to be expected here, primarily pointing to October 19, 2026. Nevertheless, there was an important partial fulfillment, because exactly on October 19, 2025, I (and presumably the other white souls as well) received new anointings or transmissions to clear death from the system. This is therefore a major step towards eternal life = the final overcoming of death. That's how it always goes: if a date is correct, it's never a complete fulfillment, but always only a partial one. On November 4, 2025, I dreamed the following: Three times you'll think everything is about to break, but only on the fourth time will that actually happen… Therefore, you should pay attention to the fourth wave, although I can't say exactly what it will look like: often you only understand these things when they happen. On October 20, 2025, I had a strange dream, which I interpret as meaning that there are 4 groups in the 3DD - also inspired by the 4 waves of the 'rapture'=resurrection according to Terri Taplin 13.6.16 (Link, Link):

(1) Death: 67-75% of humanity, according to other prophecies

(2) Normal survival: 25-30%?

(3) Survival with miraculous powers: These are presumably those who only whitened their souls *after* the soul-reading; they must therefore prove themselves for another 40+ months under incredibly challenging & painful times for the next wave of the 'rapture'=wave.

(4) Resurrection: These had a white soul *before* the soul review.

This dream is likely connected to a dream from October 1, 2025: I'm driving a tractor (-> Harvest of God) on a four-lane farm track (compare the four groups of the 3DD). I'm driving in the second-

lowest lane: this probably represents normal survival during the 3DD. The tractor in the top lane indicates that I should move to a higher lane because of the danger posed by a white scorpion. This likely points to the Scorpion season (October 23 - November 21) & white = Bride of Christ?
