Free Amanita Newsletter June 3, 2026: Soul Review July 10-August 15, 2026?

Not everyone who says to me, 'Lord, Lord,' will enter the kingdom of heaven, but only the one who does the will of my Father in heaven. (= true essence of the Bible, Matthew 7:21)

Free Market Commentary: Date of the Nuclear War in the Middle East

In the premium section, it was already discussed 2-3 years ago that Pluto's transit over the Strait of Hormuz (only every 247 years) at 303.4-303.6° = 3.4-3.6° Aquarius would trigger the prophesied closure of the Strait of Hormuz, the world's most important oil route. In the free newsletter, I wrote in 2025 about the first key timeline in 2026 at the end of February. In fact, Pluto transited over 303.6° heliocentrically *exactly to the day* at the outbreak of the Middle East war on February 28, 2026. To my knowledge, no one else in the world has been able to identify this key astrological constellation for the mother of all wars. All of this is, of course, extremely important for forecasting the financial markets and the global economy.

Based on the prophecies, I wrote in the premium section about two waves in the USrahell-Iran war, predicting a stalemate after the first wave (Operation Roaring Lion). And that's exactly what happened – although, of course, both sides claimed victory. Thank God, in the second wave (Operation Arrows of Fire) we'll tear the whole world to pieces, praise be to the Lord! This is the typical end-times pattern: the first wave=Yang doesn't amount to much, only the second wave=Yin really hits hard, where we'll reduce Israhell to a mere turd. Rabbi Yitzhak said centuries ago (link): in the year the Messiah comes, the Persian Empire will destroy the *entire* (!) world. Since the 2010s, Iran has been able to press the red button at any time and annihilate the entire Middle East in less than 30 minutes, according to an insider from the Amanita network.

In March 2026, based on the correct decoding of Islamic prophecies, I predicted in the premium area that the first wave of the war would last 40 days – followed by a ceasefire/peaceful truce/false peace for a few weeks. This came true *to the very day*: February 28, 2026, was the first day of the war, and therefore April 8, 2026 (the day of the ceasefire) was the 40th day – all glory to the Most High! Exceptionally, the +1 code wasn't even necessary here, as I derived this from Islamic prophecies, which are light-years ahead of Christian ones. The beginning of the second wave of the war on May 25, 2026, was also predicted in the protected area, but of course, the obligatory +1 code was required for that one. Of the 3 key dates for 2026, 2 were predicted with astonishing accuracy +/-1 day: the Boss rather generous, all glory to God in the highest.

To my knowledge, absolutely *no one* (!) in the world has been able to predict the key events of 2026 with such precision, not even close. The Amanita premium subscribers were informed some time ago about the highly probable date when, we will finally escalate the Middle East war into an exhilarating nuclear war with God's blessing, almost certainly on more than one continent. Here in the free area, I merely note that the first nuclear date in the summer of 2026 is practically unknown in conventional European prophecy: it is primarily found in biblical, Jewish, and Islamic prophecies.

Prophecy #28: Soul Review July 10-August 15, 2026?

The soul review is the first and *last* (!) major spiritual event that the majority of this article's readership will experience and, more importantly, survive. The remaining major spiritual events will only be experienced and survived by a minority of perhaps 5-20%. Furthermore, the soul review

will be the most important event in the life of practically *every* person: more important is hardly possible. Over the past months, I have once again intensively studied the available sources on the soul review and therefore currently suspect it will occur in the summer of 2026, specifically July 10-August 15, 2026 (August 2026 with the +1 code). For the Garabandal miracle, there are two possible dates, without clear convergence: around August 13, 2026, and the days from April 15/22, 2027 (without a +1 code). With such a two-way split, the usual double code likely manifests, meaning two partial fulfillments for these dates. The Marian apparitions from 1931 onwards in Eskioga or Ezkio-Itsaso (northern Spain like Garabandal) even spoke of 3 miracles. A further postponement by +1 year (+1 code) seems extremely unlikely, but not inconceivable. Because a large part of the 80+ factors discussed here refers to the timing within year X, without stating when year X is. The massive cataclysms will definitely last until around October 2037, according to 105+ factors.

Thank you for your interest & God bless all white souls, Maranatha!

Premium subscription order page: http://www.amanita.at/en/market-letter/price-list-order-form-premium-subscription

Content of free Amanita newsletter & premium market letter: In 2000-15 Amanita Market Forecasting was a normal market letter with 80-95% of the content related to the financial markets. Since 2015 the content has shifted more & more towards general world forecasts, with special consideration of political, military, health & spiritual topics as well as earth changes. That's why since 2022 only about 20% of the content (text quantity) has been dedicated to the financial markets. With the upcoming collapse of the global financial system until 2026 the financial content will naturally fall below 20%, which can't be avoided.

The free Amanita newsletter is sent out every 3-12 months, it complements the Amanita premium newsletter subscription, which is published 1-5 times per month (target: 30-40 premium updates per year). The free market commentary is only considered to be a commentary on the financial markets. The Amanita system is based on a high degree of diversification in 7 markets (currencies, cryptos, agriculture, precious metals, energy, bonds & stocks) & only makes sense as a whole (but never in isolated parts!), because all positions are well-orchestrated. For these 2 reasons (professional instruments & diversification) a replication only works for larger portfolios with at least EUR or USD 400,000, as well as for institutions. Because the Amanita premium market letter is very different from every other market service on the planet, you should be prepared for at least 3-6 months to get acquainted with the Amanita system. That's why the shortest subscription period is 6 months & trial subscriptions are no longer offered. Personal services had to be discontinued in 2008 because waiting times rose to more than one year.

Prophecy #28:
Soul Review July 10-August 15, 2026?

Proclaim this among the nations: Prepare for holy war! Awaken the mighty! Let all warriors come and go up! Make swords from your plowshares and spears from your sickles! Let the weak say: I am a hero! (Joel 3)

The soul review is the first and *last* (!) major spiritual event that the majority of this article's readership will experience and, more importantly, survive. The remaining major spiritual events will only be experienced and survived by a minority of perhaps 5-20%. Furthermore, the soul review will be the most important event in the life of practically *every* person: more important is hardly possible. Over the past months, I have once again intensively studied the available sources on the soul review and therefore currently suspect it will occur in the summer of 2026, specifically July 10-August 15, 2026 (August 2026 with the +1 code). For the Garabandal miracle, there are two possible dates, without clear convergence: around August 13, 2026, and the days from April 15/22, 2027 (without a +1 code). With such a two-way split, the usual double code likely manifests, meaning two partial fulfillments for these dates. The Marian apparitions from 1931 onwards in Eskioga or Ezkio-Itsaso (northern Spain like Garabandal) even spoke of 3 miracles (Link). A further postponement by +1 year (+1 code) seems extremely unlikely, but not inconceivable. Because a large part of the 80+ factors discussed here refers to the timing within year X, without stating when year X is. The massive cataclysms will definitely last until around October 2037, according to 105+ factors.

Fulfilled signs of the return of Christ

You shall destroy all the places where the peoples you are driving out worshipped their gods… You shall tear down their altars, break their pillars, burn their poles with fire, smash the images of their gods, and blot out their names from this place. (Genesis 12)

According to the prophecies, a huge list of events must be fulfilled before the return of Christ, since May 2025, many of them have been fulfilled:

1. Vatican new Pope 8.5.2025: This is the last Pope #113 of the Malachy prophecy. Interestingly, Petrus Romanus is an anagram of *Robertum Franciscum Prevost*, the Latinized name of the current antipope of the after-church (Link). According to La Salette 1846 & Jahenny (link), there are also two antipopes in succession: the two worm-ridden popes Francis & Leo (=Francis 2.0) are *not* recognized by heaven, only by the brainless (m)asses. Incidentally, in 2008, BBouvier = Friedrich Doepner (Link) – when his soul was still white and his mind was functioning – correctly decoded Nostradamus 6-20 (62 = mirror image 26 -> 2026), according to which the fleeing Pope is named Leo: to my knowledge, the *only* source.

2. #RaptureTok September 23/24, 2025: This was de facto the end of the prophecies and the Exodus of God. Because if more than 100,000 (!!!) identical prophecies about the 'rapture' = Resurrection do not come true, then you know that God has been silent since 2025 (with very few exceptions), as described in October (https://www.amanita.at/docs/open/20251002-e.pdf). Previously, 3-7 similarities were sufficient for a valid statement. It is, of course, no coincidence that the number of world events since God's withdrawal in the fall of 2025 suddenly increased by 1-2 zeros compared to previous years and is even 100-1000 times higher than in normal times. As warned here for years: when the events are fulfilled, God is silent. On October 29, 2025, LM saw that the Church had suffered a cardiac arrest (Link), as did the Church of Sardis, one of the seven in Revelation, confirmed by Elizabeth Marie at the end of 2025 (Link). Bob Jones prophesied God's rest in the 2020s around the year 2000: he died on February 14, 2014, at 6:22 AM, 622 is the mirror number of 2(0)26.

3. Autumn 2025 Silver Rocket: According to *many* prophecies, we would experience a silver rocket shortly before the return of Christ, which began in June 2025, as predicted in the premium area. The beginning was with the Islamic year 47 (1447): silver = 47.

4. December 25, 2025, Black Christmas: I heard a few weeks before Christmas 2025 that Christmas was canceled this year. Normally, there are always billions of Christmas presents, including blessings from heaven, but according to my subtle energy observations, virtually nothing came through for Christmas 2025 - except for the 10,000 white souls. This cancellation of Christmas was also perceived by Brandon Dawson (Link) when his level of consciousness (LoC) was still in the 500s: however, in 2026 it plummeted to the 200s, and since then, primarily garbage has been coming through. Alison Pound (Link) experienced something very similar, but of course, she doesn't understand the word of God. Cardinal Robert Sarah spoke in coded terms about the dark days of December 29-31, 2025 (Link). A Greek Orthodox priest spoke of a 'Black Christmas' (Link) before the year when the Turkish BMW runs over Greece with screeching tires: this was undoubtedly fulfilled by Christmas 2025. On January 6, 2026, the Vatican closed the Holy Door: this was quite clear.

5. 31.12.2025 New Year's Eve warning Greece: The Greek Patriarch Bartholomew I truly experienced strange things on New Year's Eve. While cutting the holy bread Vasilopita experienced a similar situation on New Year's Eve 2025/26: first the lights went out (->irregular eclipses in 2026!), then the first knife broke while cutting bread, and the second knife also bent (Link). This is incredible, considering how soft bread is… The Patriarch immediately said that this was a bad omen. What happens around New Year's is an omen for the coming year and is reminiscent of the prophecy of the Orthodox elder Galaktia (March 5, 1926-2021), according to which the Turkish extremists, the Grey Wolves, would behead the Greek Patriarch (Link). Two broken knives could be a code for the knife/sword used for the beheading. Galaktia was born in 1926, exactly one century or two Jubilee years ago.

6. 3.1.2026 Latin America 6th Front of World War III: We were able to open the Venezuela war on 3.1.2026 and have since been working diligently on expanding it to Cuba, Mexico, Argentina, etc. This fulfilled the prophecies of Mary Esperanza de Bianchini in 1991, Troy Black, Benjamin Parravicini, Vladimir Zhirinovsky, and others.

7. January 20, 2026, First Harvest Attempt: On January 20, 2026 (exactly the first anniversary of Trump's inauguration on January 20, 2025), something truly surprising and unbelievable happened: a first harvest attempt, a "trial rapture." I saw that five people were raptured, but *none* of them were found worthy, and *none* received a glorious resurrection body (a 12D angelic body). It's like when a farmer goes into the field and inspects the crops just before the actual harvest. I observed these events with amazement and initially understood nothing. But within 24 hours, I had a dream that explained it to me, referring to John 4:35ff. I dreamt that I was bringing in the harvest in my father's field at night, but a worker brought me an unsightly bundle of weeds, and I told him I had to ask my father if he would accept it. I asked what it meant, and the answer was: the harvest (of the end times) has begun - astonishingly, even *before* the soul review. It's striking that this occurred *exactly* 4 Jewish lunar months, 29.53 months after the hype of September 23/24, 2025: John 4:35ff speaks of the harvest in 4 months. This, in turn, happened 4 months before the Blue Moon of May 31, 2026, according to Don Bosco: the most discussed full moon in the prophecy scene for decades (Link). The next dates in this 4-month cycle probably hold significance: the end of May 2026, the end of September 2026, the end of January 2027, and the end of May 2027.

8. February 28, 2026 Middle East War: The Iran War was seen by over 100 prophecies as the beginning of World War III, as only a few had already cited the denazification of Ukraine as the starting point. This is understandable, because the quantity and quality of this war is 108 times more gratifying than the Kremlin's pathetic actions. This is already the third major Middle East War after April 2024 and June 2025: prophecies are fulfilled 1-7 times, and usually 3 times. In Stephan Berndt's 2009 model, the Middle East War was shown to begin in April of year X: this awe-inspiring war even started earlier, although April 2024 was fulfilled exactly with the first Iran War. The Berndt model, however, correctly predicted a major economic crisis in March of year X: the largest energy shock in history *definitely* (!) produces the largest economic crisis in history, with an almost perfect correlation of r^2=95% (Link). We have already been able to hammer US consumer confidence down to an all-time low of 47.6, even in the official figures (Link, Link) - although the figures have of course been 'adjusted' = falsified, i.e., arbitrarily inflated by 2-3 points. Reality is always worse than the official figures admit. Thankfully, many other economic indicators have also been at their worst levels for *months* now (Link, Link): we are ending the worship of Mammon forever.

Rabbi Yitzhak said centuries ago (Link): in the year the Messiah comes, the Persian Empire will destroy the *entire* (!) world. As usual, prophecies are completely hysterical and they *never* come true 100%, not even close. On average, they might come true 50% of the time, but in this case, even less: because the entire world would actually be the entire universe. And even if one only considers planet earth as the 'entire world,' then Iran will not destroy the entire planet, and unfortunately not even the Middle East 100%. Nevertheless, the savage Persian cat has already cruelly punished a double-digit number of filthy USrahell whores and destroyed the global economy - the full extent of which will only become apparent in the coming months. Russian sources confirm the Iranian threat that Iran possesses miracle weapons capable of ruining entire continents.

According to many rabbis, the Iran war is the last war before salvation, for example, Mendel Kessin (Link), Eliezer Berland, Elyakim Levanon, Zamir Cohen, Yehuda (Link), and Dovid Vigler. Rabbi Yitzchak Kadouri (1989-2006) (Link, Link) said that the Messiah will come in the year when there is a war between the flying Persian carpet and the Saudi dinosaurs. We are in the Jewish year 5786: 786 means "yavo Mashiach" = "the Messiah will come." Even relatively unknown sources confirm this, for example, according to the Irish seer Cheiro (Louis Hamon, 1866-1936), Judgment Day will occur when Iran, Russia, Libya, and Ethiopia invade Israel.

With this glorious war, many prophecies are being fulfilled, including Matthew 24:20, where the war's outbreak was predicted for a winter Saturday. And that's exactly what happened: the war broke out on winter Saturday, February 28, 2026 – a random probability of occurrence approximately P=3%. Here, too, we see the end-times effect of the delay: February 28th is meteorologically the very last day of winter. Matthew 24:20 pointed to 2024, meaning it struck with the code +1.x (+1.16 years). Based on my experience, I would say that the median value for the +1 code is +1.1 or +1.2, as in this case. Since February 28, 2026, the escape from Israhell mentioned in Matthew 24:20 has become virtually impossible: air traffic has been almost completely suspended since March, land and sea routes are also quite closed, and according to reports, even IDF terrorists are actively preventing the escape of Israelis.

The 1400-year-old Zerubbabel Apocalypse even correctly prophesied the date (11th of Adar) of the cowardly assassination of the Ayatollah (Link): the Jewish sources are the best, light-years ahead of the garbage from 'Christian' sources. The +1 code (+1 millennium) also marked the approximate period for these incredible events, namely around the middle of the 21st century. Many sources speak of the coming of the Messiah in the year of the Middle East war, and some sources even make more precise statements. The Zerubbabel Apocalypse announces the return of Christ after November 28, 2026, i.e., after 9.x months of global dominance by the Roman empire 2.0 (=West=Gynocratia under the leadership of Brainwashington), beginning with the (attempted) conquest of Paras=Persia (Link).

The mass hysteria still fails to grasp the incredible scale of the destruction we have wrought, not only in the Middle East but worldwide. Even the head of the International Energy Agency (IEA) admitted that this greatest energy shock in history is greater than all previous energy shocks combined: this will undoubtedly produce the greatest economic collapse in history in the years to come. For years, I have been the biggest nominal stock market bull in the galaxy and simultaneously the biggest real stock market bear in the galaxy, due to hyperinflation: this is exactly what is happening, in direct contrast to the absurd crash predictions of the stock market skeptics. Since March 2026, we have seen annualized inflation of 100-1000% in the most important commodity prices (energy, fertilizer, etc.), following price explosions of 50-500%: this is no longer mild hyperinflation (>26 inflation according to the IASB), but already moderate hyperinflation by my definition. Even if this whole monkey circus ended immediately, there would be no mini-normalization before 2027-28, but repairing all the damage would take until around 2035. There are 6+ huge differences compared to all previous oil shocks in history:

(a) Quantity: During the oil shocks of 1973, 1979, and 1990, we reduced the oil supply by only 3-9%. This time, however, the oil available for import has already been reduced by >50% (in reality, not the official bogus figures). And we are working tirelessly 24/7 to expand it to an unbelievable 50-90%, i.e., one more zero (10 times as much). On our to-do list for shutdowns includes not only the Gate of Tears but also the many pipelines. Among the ~191 countries in the world, we only find a handful of oil giants with large exports, the rest depend on imports. Contrary to usual lies, even the official data admit that the great Satan USA is the third biggest net oil importer (Link). In reality (not the official bogus numbers) the Whore of Babylon is the *biggest oil importer* on the planet. The alleged fracking boom is largely a fraud, like everything from the realm of evil. According to a survey conducted by the highest authorities, Abu Dhabi will have to import an average of 5-6 million liters of oil per day by 2025. The USA primarily produces light crude oil (high API density), partly through (limited) fracking, however, US refineries mainly process heavy crude oil (viscous) from the Middle East and Venezuela (Link). Therefore, 'US oil' is often stolen oil from the rest of the world, including Syria.

(b) Physical Destruction: Previous oil shocks were arbitrary political decisions that could, in principle, be reversed at any day. With Covid, there was no physical destruction of production facilities, etc., yet it still took two years to normalize. This time, with God's blessing, we can add a zero to the number of cataclysms, and of course, normalization will *never* happen. Because in 2026, Shiva the destroyer struck brutally with massive physical destruction, the repairs of which will take many years, i.e. until the 2030s: this is practically set in stone by natural law. Partial restoration would take 12-18 months from the end of the war, and an *approximate* (not complete!) restoration could happen at the earliest in the early 2030s. But with each passing day of war, we march with gratitude and devotion to God toward the mid- and even late 2030s. A *complete* restoration is 100% *impossible* for many reasons, especially given the numerous old oil wells in the Middle East (Link, Link, Link, Link). Ultimately, this is irrelevant, because our goal is to finally end the fossil fuel era and transition to renewable energy. In the premium sector, I've been saying since the 2010s that the transition to Tesla-like energy will happen between 2026 and 2029, and that's exactly what's happening now: the current, largest oil shock in history is the first trigger.

(c) Modern global economy: Furthermore, the global economy was far less interconnected and based on just-in-time delivery during previous energy shocks. The systemic impacts this time are therefore light-years greater. There are enormous cascading effects: one domino falls after another, this is practically a law of nature. However, this interconnectedness also means that the global economy will ultimately shrink much more than 'just' the current 30-40% contraction in oil supply. Here, Karl Valentin's famous saying is apt: „*Hopefully it won't get as bad as it already is."*

(d) Peak Oil 2018: In reality (not according to official figures), peak oil production was already reached in 2018. Since then, oil production has been declining ever faster, almost as if by natural law. If we hadn't killed billions of people with the magic injection of Kill Bill (=massive demand destruction), we would have experienced the greatest energy shock in human history years earlier. Peak Oil significantly intensifies and accelerates this entire dynamic once again - praise be to the Lord!

(e) Further escalations: This Middle East war is thankfully only a small part of World War 3, man against man, with a staggering 92 war fronts according to the Bhavishya Malika (Link). We are

working day and night to expand the war, because pain, suffering, and violence are the only language the evil race understands. There are also 6 other fronts in World War 3, including plagues/zombie wars, geological changes, asteroids, aliens, and demons, with which we will punish the evil race. The zombie plague is accelerating in 2026: the supposedly most powerful man in the world, in his soon-to-be-abandoned house, is becoming increasingly zombified, going insane, and wants to tear nations apart. In 2020, we were quite poor, possessing only Kill Bill's wonder weapon and nothing else, this time, however, we have over 100 weapons for our fight against the evil race.

(f) Civil wars & revolutions: Since the 2020s, tensions have been simmering everywhere at all levels, which is why this time, the most serious unrest is set in stone, unlike the previous energy shocks. Moreover, the timing is practically set in stone by natural law: summer-autumn 2026, in excellent agreement with the prophecies for year X or X3. In the model by Taurec=Alexander Hauser 2004 (Link), we find the French revolution in June of year X b or X. The Middle East war is also the key to the first 'rapture'/resurrection: it will come when the Russians are already cleaning up the mess in the Middle East and then the Chinese ground troops join in, hallelujah! Since the beginning of 2026, China has been providing increasingly exemplary military aid worthy of 1001 Nights, meaning we are already seeing a partial fulfillment of this prophecy. Even in the first days of the war, we killed at least a double-digit number of Chinese soldiers (Link). This also recalls the shockwaves described by Byron Searle (Link): economic collapse, hyperinflation, the attempt at a digital dollar, and here, apparently, the first 'rapture' = resurrection (coming home). The return of Christ to the Mount of Olives (called Mount of Oil in German) fits perfectly with the biggest oil shock in history.

9. 8.3.2026 finally all 3 antichrists: First comes the Antichrist (=Yin) & then the Christ (=Yang). This is the biblical prophecy & the general end-times pattern, where everything is reversed 180°, i.e., the feminine Yin leads & the masculine Yang follows (worst of all in Fotzenknechthausen). The 3rd Antichrist = Islamic Mahdi was officially appointed on 8.3.2026, after already being unofficially appointed in 2024. Peter Thiel confirmed in March that the Antichrist is already here & controls everything (Link). Reptilians like Thiel (who controls the US vice president Vance) know 666 times better what's going on compared to the Christian devils, who never get anything and are still waiting for the Antichrist. Among Catholics, approval of this president continues to rise to its highest level in decades (Link). The Christian devils are perhaps the last voting bloc still supporting the would-be Antichrist, Trump: in the eyes of the Bride of Christ, the Western Church is the worst scum on the planet. According to Sheikh Imran Hosein, Islamic prophecies foretold the schism of Christianity (Link), after which the Western Church centered in Rome would become contemptible apes. No one fulfills this prophecy better than the 'Baboon of Barbaria' (Pepe Escobar) with his 'holy warrior,' his drunken Templar knight Hegseth. At the request of the Russian Foreign Minister, the Sheikh wrote a book about Russia and the Dajjal.

6 Spiritual Key Events

Blessed is the Lord, my rock, who teaches my hands to fight and my fingers to battle. (Psalm 144 -> 144,000 chosen ones = God's warriors)

I expect 6 central spiritual events by ~2034/35:

(1) Soul review only once: with the 3HF=eclipse 3-4 hours

(2) Wedding with the Lamb 2-4x: In Matthew 22 we find 3 invitations to the wedding feast.

(3) Garabandal miracle only 1x: When I was in Garabandal with my dual soul in 2023, I saw this pillar of light, which will then be there permanently.

(4) 'Raptures' = resurrections 2-7x: probably 5 times

(5) Irregular Eclipses 3-10x: 3DD 3 hours, 2DD 2 dark days, 3DD 3 dark days (2x?), 7DD 7 dark days, 10DD 10 dark days & 40DD 40 dark days

(6) Christ's return 2-3 times

The soul review is the first and *last* (!) major spiritual event that the majority of this article's readership will experience and, more importantly, survive: this is also why I'm focusing on the soul

review here. In March 2026, I asked the Almighty what percentage of people would still be alive on the day of my inquiry: only 12%. As has been emphasized here for years, perhaps this is why the soul review is the most coded of all central spiritual events, *far* more so than the others. The available sources are the most meager, both quantitatively and qualitatively, there are no truly old = good sources (the newer, the worse). The first unambiguous source on the soul review is Edmund Campion 1540-1581 (Link), almost a great Jubilee Year 500 years ago, then there was a half-Jubilee Year 500/2 year gap. The current of soul review research only began two centuries ago: Anna-Mary Taigi (1769-1837), Madeleine Porsat (1843-1870s), Marie-Julie Jahenny (1850-1941), and Sister Faustina (1905-38). It was only with Garabandal (1961-65) that soul review became a popular topic. Strangely, soul review appears almost exclusively in Catholic sources.

So almost all sources originate from the last two centuries, a period marked by a downward spiral following the founding of Freemasonry on June 24, 1717, the rise of the USA and the Illuminati in 1776, and the French Freemasonic Revolution of 1789. These three events were considered major victories for the devil. Compare this to the sources on the Threefold Torment and the resurrection of the dead, which were already mentioned by Zarathustra 3000 years ago. Victorinus of Pettau in Slovenia (circa 230-303) wrote about the pre-rapture of the Holy/White Souls (link) even before the Council of Nicaea in 325 (Link), making it the oldest and best source I know of. Early Christianity was still calibrating on David Hawkins' scale in the 900s and later the 800s, before the terrible crash to LoC=485 after the Council of Nicaea in 0325 (Link): early Christianity was still incredibly well positioned.

Questionable primary source Garabandal

The Lord goes forth like a mighty warrior, like a warrior he comes in zeal, he raises a loud battle cry, he goes forth like a mighty warrior against his enemies. (Isaiah 42:13)

I'm dedicating a separate chapter to Garabandal, the primary source for soul review. The longer I study Garabandal, the more skeptical I become. That's why I recently reclassified Garabandal as a junior source & revoked the special status. It is one of 50-100 sources on the soul review since Edmund Campion 1540-1581, still with the biggest quantity but not quality. This places Garabandal on the same level as most prophecies, which are partly true and partly false due to countless ambiguities, errors, and interpretations. 7+ main criticisms:

(1) The first major drawback is, of course, its popularity among the lobotomized (M)asses: although the soul review has been prophesied for at least two centuries, it only became popular through Garabandal in 1961-65. The search volume for Irlmaier & Garabandal is similarly high (Link), with 542+ postings in the Weltenwende forum (Link): a loud warning sign.

(2) There were definitely dark shadows as early as 1961-65 and alien influences with UFOs in the vicinity (link), e.g., the statement by a clairvoyant girl that Mary felt metallic (metal is almost always an indication of ET), see also Michael Hesemann. The 'Archangel Michael' looked more like a caricature (link), with black eyes like a repto alien like Mary herself (Link): in contrast, demons often have red eyes. All these events had a strong whiff of show and circus in contrast to the older, and therefore better, Marian apparitions. The many paranormal phenomena often served as an end in themselves, with the strange contortions & backbends as in demon possession (Link), see Father Józef Warszawski (link). According to the Boss, Garabandal 1961-65 was only 60-70% of divine origin. Conchita Gonzales calibrated herself for a long time at just over LoC=700 (=senior prophet), but by the 1990s her aura was already quite filthy. In the 2000s, she collapsed to LoC<600 and in the early 2010s even to LoC<500. This probably also explains her strange behavior of immediately ending any friendship if the question of timing even arises once (Link).

Due to the spiritual devolution of humanity each year, Medjugorje since 1981 is even much weaker: perhaps only one out of 100 statements is truly meaningful, the rest is eternally regurgitated spiritual drivel. It can't get any worse, which is why Medjugorje is the last major Marian apparition (there were a few smaller ones). Garabandal was completely conquered by Satan's troops in 2023, and Medjugorje in 2024 - after Ivan Dragičević had transferred the role of Medjugorje to St. Stephen's Cathedral here in Vienna, Austria, during his visit in September 2024.

(3) PNF pointed out that many of Garabandal's central statements are based solely on hearsay from a single individual and not on official interviews (Link). Therefore, PNF considers 4 of

Garabandal's central theses to be unconfirmed, including the Pope's trip to Moscow before the aviso=warning. Particularly dubious and controversial is Albrecht Weber's (missing?) statement about Moscow (Link), not least because of Weber himself (Link). The statement about the even year was passed around like a game of telephone through 6 (!) different stations (Link). Thus it is not surprising that there are many contradictions, and quite a bit of it is strikingly reminiscent of the extremely poor source material used in many of Irlmaier's statements. Nevertheless, I still consider Garabandal a level above Irlmaier, who represents the absolute bottom and just before the trash can, or perhaps already partially inside it.

(4) Another major flaw lies in the statements regarding the timing of the soul review and the miracle. Glenn Hudson, as Conchita Gonzales' online spokesperson and thus representative of the Garabandal mainstream, has long been convinced that the Garabandal miracle will occur on Thursday, April 12th of each year (Link). Mari Loli Mazon (Link) stated in the late 1980s/early 1990s that the soul review=aviso occurs 3 weeks or 3 months before the miracle, see also Xavier Ayral (Link, Link). Strictly speaking, according to Garabandal, there would only be two possible soul review dates in Q1: circa March 22nd or January 12th. However, Q1 contradicts over 100 other sources focusing on the middle of the year, and for this reason (and others), we can be 100% certain that there is something seriously wrong with Garabandal.

We know, among other things, from Sister Faustina Kowalska (1905-1938), that the soul review will occur even before the greatest upheavals, especially before the nuclear day X (global mortality rate 33%) and the 3DD (mortality rate 67-75%). From Garabandal and other sources, we know that the soul review will take place during the European civil wars. This is precisely where the problem lies: over 100 prophecies speak of these excellent civil wars in July-August of Year X, after which Ivan will finally arrive and clean up the unspeakable mess. According to Conchita Gonzales' mother, the soul review coincides with the outbreak of the revolution in Spain (Link): this will definitely happen in the summer of Year X, and therefore the soul review must also take place in the summer. Mari Loli Mazon's analysis differs slightly from the soul review, suggesting that it occurs when Russia destroys the goddamn NAZO devils (Link): the denazification of Western Europe (=central flank) is scheduled for August 10th to December 10th in year X, but the clearing of the southern flank (Southern Europe & Balkans) & northern flank (Northern Europe) could happen earlier. However, the Russian invasion appears to be a general indication of year X, not a specific month, i.e. with civil wars in some countries already weeks before the soul review (Link). In conjunction with Marie Julie Jahenny's analysis, it seems that at least in France, the full civil war (Elliott Wave 5) could be underway for 4 weeks before the soul review caused a brief interruption in the carnage.

Bernhard Bouvier and Friedrich Doepner's 1988 model, a civil war would erupt in France and Italy in early summer (June to mid-July). In the rest of Europe, these civil wars would only break out 3 months later. Stephan Berndt (Link) cites an Irlmaier source stating that the revolutions in the Freilassing/Salzburg area (southeast Germany and Austria) would only break out *with* the Russian invasion (August-September of year X): according to this, there would be no civil war phase in the strict sense (in the broadest sense, the European civil wars began with the Rapugee invasion in 2015). A man from Hanover in 1951 (Link) and Katharina from the Austrian Ötztal valley in the 1940s had essentially the same view, with late summer (August/September) for the revolutions and quasi-zombies (Link).

On May 23, 2026, the Almighty showed me in a dream that there is a great misunderstanding about the "civil wars" in Europe. Russia will occupy approximately one-quarter of the world's population: Europe and parts of the Middle East, North America, and Africa. Initially, the ratio of Russian soldiers to the conquered population is therefore 1:1000; later, due to conquests and troop losses, this ratio increases to around 1:5000. However, most soldiers are needed at the front, and thus, outside the direct combat zones, there is perhaps one Russian soldier for every 20,000 civilians. There appears to be some rudimentary integration of foreign troops. The Swiss army becomes part of the Muslim troops and then attacks Austria: the Swiss bull (Link) has been rehearsing the invasion of Tyrol since 2023 (Link). However, a regular occupation of a country requires a ratio of at least 1:50 & up to 1:7 with strong partisan resistance (Link, Link). This means that Russia cannot possibly truly occupy the conquered countries, and one will hardly see any Russian soldiers outside the direct combat zones. A man from Hanover saw in 1951 that the Russians were bypassing the major cities (Link). So, the seers foresee civil wars with many fronts (partly triggered by the BRICS campaign) & in the blackout areas, the fight is ultimately every man

for himself. This was foreshadowed in the film Civil War (2024): people shoot at each other and don't even know why or who the enemy is. Furthermore, there are large-scale refugee movements: in Central Europe, the largest is from Germany towards the Alps, since we're largely cutting off the power in Germany (with EMP shocks?), hallelujah! This means that if the vision is at the beginning of the civil wars, then it could actually mean the beginning of the Russian campaign, and that points to August-September of the year X.

Garabandal's soul review in Q1 therefore aligns 0.0000% with over 100 other prophecies that clearly foresee the civil wars occurring in the summer of year X, these timelines are almost exactly opposite each other in the annual cycle. There is therefore no longer any doubt that Garabandal is wrong here, and hundreds of mostly much older prophecies are correct. If there's a flaw here, then the question arises: how much other nonsense is there in Garabandal's statements?

So I analyzed the situation again and came to some astonishing conclusions. The oldest Garabandal pronouncements from the 1960s point to the Garabandal miracle occurring between February and July (Link, Link), which allows for two interpretations: February-July or just March-June. Due to the end-times effect of "(*almost) everything comes (too) late,* " this points to July, perhaps even August. Only in the following decades did the seers narrow the window more and more, finally *apparently* to April. According to a statement by Conchita in 1967, it is supposed to be between the 7th and 17th of a month (Link): because of the end-times effect of the delay, this points to approximately the 17th/18th of a month. Albrecht Weber, a close friend of Conchita Gonzales, rejected all statements made after the end of Garabandal in 1965 (Link): this approach is not entirely wrong, because the quality of prophecies decreases on average with each passing year (a slight counter-trend occurred in the years from 1987 onwards). In cases of contradiction between old and new pronouncements, the ironclad rule is that the older pronouncement is the correct one, i.e., February-July. See also the snow summer statement by BBouvier's friend L. from Fatima (Link, Link, Link):

The month will fall between February and July, and finally, as Conchita once said, it will happen after the heavy snow. To the spontaneous assumption that it would then probably be in spring, she replied: "It can also snow in summer."

Therefore the explicit statements indicate a Garabandal miracle around April 12th, but the implicit ones (like this one) point to summer. In the end times, the following phenomenon always occurs: when there are contradictions between explicit statements=Yang and implicit statements=Yin, the Yin prevails, because in the end times, the masculine Yang=light has no power, and the feminine Yin=darkness dominates everything. This can be seen perfectly with the child fucker in the White House: officially, he always says one thing (Yang), but unofficially, under the cover (Yin) he always does the opposite. Only the deeds (Yin) are relevant, not the utterly stupid chatter (Yang).

Because April snow is quite normal in the mountains of northern Spain, and even May snow is nothing truly exceptional, this is not a useful marker for timing. Only snowfall in June-August is exceptional, so the 'big snow' can occur no earlier than June, and consequently, the Garabandal miracle could also happen no earlier than June. Stephan Berndt's 2009 model shows the cold snap and increased seismic activity for May-June in year X. The 2004 model by Taurec (Alexander Hauser) (Link) predicts the discovery of a celestial body and a nova in the constellation Corona Borealis in June of year X, based on Hepidanus of St. Gallen 1081. Various factors point to the end of June or even July (+1 code). All three cosmic triggers could, or rather should, occur in the weeks before the soul review, which roughly places the soul review in the middle of year X. Nostradamus 10-71 confirms this.

Earth and air freeze vast amounts of water when
one begins to worship Thursday.
Something that has never been so beautiful, one comes
from 4 parts to marvel at it.

This statement about the arrival from 4 parts is strange: does it mean from four continents? Depending on the classification, 5-7 continents are counted, so at least no one from North America (and perhaps South America?) will come to witness the Garabandal miracle? This would mean that the Garabandal miracle only occurs *after* the destruction of North America, which points to the end of year X at the earliest, and because of the time window in spring, therefore not until year X+1. This would mean a three-quarter gap between the soul review and the miracle – and would

thus contradict Mari Loli Mazon's statement of three weeks or three months, or rather it would be a +1 code, meaning one unit of time later: three quarters instead of three months.

Is the cold snap a consequence of the spark shower? Both are scheduled for June, and especially the vision of Dr. H. (Link), suggests this. Zarathustra (Link) spoke of seven months of continuous snowfall starting on Daē-pa-Meher = the 15th of the month of Khordad = approximately June 5th (Link, Link, Link). Perhaps we will see the first small partial fulfillment in the form of a brief winter spell starting on June 5th, 2026, but the ice age with its seven months of snowfall will not arrive until March 5th, 2030 (June 5th, 2029 is unlikely). Based on a message to T. Lopez (1990), the Pope must have already fled the Vatican by the time of the miracle (Link). Therefore, a lot points to the Garabandal miracle occurring in the year X+1, the strongest counter-argument is the statement by Mari-Loli Mazon (miracle 3 weeks or 3 months after the soul review).

(5) A third major shortcoming is that, despite decades of research by leading figures (Link), no one has yet been able to decipher which spring name day of an (i) young (ii) male (iii) non-Spanish (iv) relatively unknown (vi) martyr of the (vi) Eucharist (Link) could be meant for the Garabandal miracle in mid-April (mid-May).

(6) Surrender of the wannabe experts: The well-known Garabandal exegete Xavier Ayral wrote as early as 2024 that April 2028 would be the next opportunity for the Garabandal miracle according to conventional Garabandal criteria. Elijah's Cloak (Link) and the YouTube channel Garabandal Warning (Link) echo this sentiment. Posters on the forum motheofgod.com (Link, Mario) also suggest this. Glenn Hudson himself, as the quasi-internet spokesperson for Conchita Gonzales, and other sources (Link, Link) even expect the Garabandal miracle to occur only in the 2030s, because Thursday April 13, 2028, would be a church holiday (Maundy Thursday), and the miracle doesn't fall on a church holiday (Link, Link). So there's a strong consensus among the wannabe experts that the miracle won't happen for at least 2-4 years. As always, the rule is that any strong consensus is a contrarian indicator, that is, if the wannabe experts all think the same thing, then the opposite is almost certain to happen. Just like on the stock market, we are always looking for consensus, because it is always wrong: if everyone thinks the same thing, then certainly no one has thought it through. Since April 17, 2026, the year 2026 and the following 2-4 years have been officially written off for the soul review by those popular among the brainless (m)asses: such a capitulation is a sign that it could now be happening. The search volume for Garabandal is also practically at an all-time low (Link). Based on these observations, the Garabandal prophecy is being fulfilled (Link): „*Shortly before the miracle, very few will still believe in it*..." Just like in the financial markets, we are always looking for a consensus, because that is always wrong: if everyone thinks the same thing, then certainly no one has thought it through.

I have been studying Garabandal and the soul review specifically since 2015 and discussing the topic since 2016. After some years of studying Garabandal, it became clear to me that predicting the year based on the few, vague & contradictory Garabandal prophecies is a waste of time. For years, my primary belief has been that the soul review=aviso will definitely occur in year X (X3), but the Garabandal miracle might not happen until the following calendar year X+1. A central tenet of Garabandal is the miracle occurring in an even-numbered year. However, according to my observations, the +1 code has been applied 95-99% of the time over the last decade. Therefore, the probability of the Garabandal miracle occurring in an odd-numbered year (like 2027) would be P=95-99% – which completely reverses the fundamental premise…? Among over 1000 prophecies, only the palm laves (Vedic sources) predict events consistently too late. Strangely enough, even this extremely weak 50:50 indicator is controversial and, above all, a game of telephone played out over 6 stages (Link). On April 29, 2020, Xavier Ayral (Link no longer works) wrote that, according to a friend of Mari Loli Mazon, the warning=soul review occurs in an even-numbered year (year X), while according to Conchita Gonzales, the miracle occurs in an odd-numbered year, i.e. the following year (year X+1). Conclusion: with so many uncertainties and imponderables, one certainly cannot derive any reliable statement.

For centuries or even millennia over 100 factors have been pointing to 2025-26 for the showdown – and many of these are far superior to older sources. Generally, sources since World War II (the USrahell era) have been much worse than older ones, and Christian sources are, of course, the worst of all. Although the end-times effect "(*almost) everything comes (too) late* " constantly leads to delays, a delay into the 2030s is inconceivable. I consider even a further delay of another year to be very unlikely, but still conceivable.

(7) Other horrendous errors of Garabandal: Felizitas Küble delivers some decent blows (Link) & in 2008 BBouvier=Friedrich Doepner (Link) expressed his first doubts. The main visionary Conchita Gonzales asked the Lord if she would go to heaven (Link). Instead of a clear affirmation or at least the conditional statement "*Pray a lot and you will go to heaven,*" the Lord *only* urged her to pray: this was practically a warning of hell for her. Also, the Boss told her that St. Peter would *not* receive them at the gate of heaven. This should have set off all 666 alarm bells, but it didn't. Incidentally, this is one of the countless terrible blunders of prophets: they hardly ever take their messages personally, but always see themselves only as messengers – thus engaging in a kind of abandonment of their children.

In fact, Conchita Gonzales' soul turned black years ago, and therefore it's questionable whether she can carry out the announcements 8 days before the Garabandal miracle as planned (Link): among other things, this could be prevented, among other things, by her physical termination. Both Conchita Gonzales & Glenn Hudson live in the USA: Hudson apparently still in the great whore of Babylon New York & Gonzales on Long Island nearby. We will most likely destroy NYC as the first US metropolis with opulent nuclear saviors: possibly even *before* the soul review & certainly *before* the Garabandal miracle. Hudson is in a mental prison, almost as bad as the ton of bulls from the Weltenwende forum. I'm not sure whether the soul review comes before or after the NYC termination: there are good arguments for both assumptions. John Leary (Link) saw the soul review 42 days before US martial law: this perhaps refers to the international nuclear weapons, while we might detonate the US suitcase bombs *before* the soul review – to create a real bombastic atmosphere.

The Bible and other prophetic sources report on the truly delightful total destruction of North America, and Revelation 18:4 therefore demands that all white souls leave the whore of Babylon (USA) beforehand: „*Leave the whore of Babylon, my people [=white souls], so that you do not share in her sins, and out of her plagues, so that you do not receive them!*" Jeremiah 51: „*Flee from Babylon and save your own life, lest you be destroyed in your guilt."* Jeremiah 50 warns of the almost 100% annihilation of the filthy whore: *"As God destroyed Sodom and Gomorrah and their neighbors, declares the Lord, no one shall live there [in Babylon, USA], nor shall any human being dwell there."* The only question is by when one must leave the USA, and at the earliest, Little Israhell NYC on the East Coast. LaTonya Canada Christ issued one last (final?) appeal (Link). The Republican Jewish Coalition (RJC) called on all Jews to evacuate NYC as early as mid-2025. And since March 2026, Iran has been cheerfully announcing the destruction of the Whore of Babylon NYC in its videos: now things are really heating up, it could happen at any time.

To my knowledge, not a single person has left the United Satan USA because of this Bible passage, not even Conchita Gonzales and Glenn Hudson. Of course, the Book of Revelation is frequently discussed in end-times circles. A few commentators on social media did mention leaving the areas with the earliest and worst destruction (especially megacities and coastlines) – but even that certainly doesn't fulfill God's mandate. Here we see the usual, unbelievable hypocrisy of the great Satan: they speak Christian (apparently), but their actions are anti-Christian. The founder of the Prophecy Club, Pastor Stan Johnson, is apparently Mr. Prophecy in the USA, and he always boasts that he memorized the Book of Revelation in 2017. That's all well and good, but did that help him do God's will and leave the Whore of Babylon, as required in Revelation 18:4? No, not at all.

Brandon Dawson (Link) also presents himself as a Boss hypocrite with his constant whining that people don't recognize the incredible drama of the current situation. But he, too, remains loyal to the Whore of Babylon and must therefore go to the fires of hell. The statement from the Sermon on the Mount certainly applies here: „*You hypocrite, first take the plank out of your own eye, and then you will see clearly to remove the speck from your brother's eye."* The half-smart Dawson claims that the Whore of Babylon refers only to New York City. It is true that the Book of Revelation somewhat conflates the Whore of Babylon in the narrower sense (NYC) and the USA in the broader sense. However, the Whore of Babylon is situated on *many* seas (not just the Atlantic) and is the largest importer according to Revelation 17-18: therefore, in case of doubt, one must assume that the Whore of Babylon refers to the USA in the broader sense, from which one must flee. According to a divine inquiry from May 4, 2026, only about 5 out of the 10,000 white souls live in the USA. I know one of them, but I'm supposed to keep her identity private.

In Revelation 7, the two tribes of Ephraim and Dan are missing from the list of the 144,000 sealed. Tim Foster equates the tribe of Ephraim with the USA because of its multicultural monstrosity (Link) - but also with the Christian mainstream, which is almost 100% anti-Christian. The 10 northern tribes of Israhell (->Christianity) were lost in 722 BC (Link): 722 is the mirror number of 2(0)27 and thus a code for the year 2027. Many sources see the tribe of Dan as representing Denmark (similarity of names) and Northern Europe in general (Link, Link): we will sink Denmark, hand and all, with the healing North Sea tsunami, and thankfully, we will leave only patches of Northern Europe, especially in the Scandinavian mountains. This confirms that there is (almost) no Bride of Christ in the USA and Northern Europe: zones of *rapid* total destruction. Many other prophecies also confirm that we will leave almost nothing of North America and then of South America (=new South Pole): with God's blessing, we can accomplish this in the coming years, and hopefully North America as early as 2026-27. It is the divine will that the Muslims eradicate the wolves in sheep's clothing, or rather, the sheep in sheep's clothing: we won't miss this anti-Christianity. The Last Judgment begins in the house of God - or rather, with those who consider themselves to be there.

It's about doing what God wills with 100% military obedience: everything else is, at best, a nice addition – but usually, the usual hysteria (as seen here) is actually a hindrance. Emotions (Yin) should actually motivate action (Yang), but instead, the opposite usually happens: emotions instead of action. Very often, emotions are seen as a substitute for action in post-factual, hysterical Gynocratia. But no tears should be shed for the black souls, said God (Link). Emotionality is only important up to the 500s on the level of consciousness (LoC) according to Dr. David Hawkins: at an LoC>600, equanimity increasingly dominates, meaning the whole emotional circus of levels below 599 is reduced to a minimum. The Chinese (especially Buddhist) teachings, with their emphasis on equanimity, are light-years better than the Western ones from Cuckburg.

There are also other glaring errors in the Garabandal prophecies, for example, Glenn Hudson's claim that there will be no World War III (Link). The hybrid World War III began in 2020 with Kill Bill's COVID-19 magic bullet, while the conventional WW3 began on February 24, 2022, and thankfully, it has been expanding dramatically since February 28, 2026. Perhaps this is a misinterpretation: maybe this early statement originates from the context of the Bay of Pigs escalation in 1962, during Garabandal's time in 1961-65, where a nuclear escalation was averted at the last minute (Link). On the other hand, Garabandal foresaw the denazification of Europe by Russia (Link): alone this massive front of World War III involving 40-60 nations deserves the name "world war." Because in the first two world wars, not more than 40-60 nations were involved as well. The denial of World War III is one of Garabandal's many hair-raising contradictions and absurdities.

Soul Review July 10-August 15, 2026? 80+ factors

He calls it reason, and uses it only to be more animalistic than any animal. (Johann Wolfgang von Goethe: Faust)

(1) Marie-Julie Jahenny is perhaps the second most important source for the soul review after Garabandal, her first name Julie potentially being a code for July (without the +1 code). Unfortunately, Jahenny is not a top source either, but highly coded and contradictory. On October 5, 1882, she noted (Link, Link, Link, Link): "*Their eyes will see the beginning of the terrible hour when the sprouting wheat is not at the third node of its growth.*" The third node in wheat is around April (May): the confused E.A. Bucchianeri interpreted this as *before* April. But experience shows the opposite: whenever any timeline is mentioned, what is seen almost always occurs *after* and not before. We should add a code +1 to the time reference April: +1 quarter is July (August). Bucchianeri considers herself the greatest Jahenny exegete in the world, but she most certainly isn't if she makes such egregious beginner's mistakes. Of course, she remains loyal to the Satan in the Vatican: there's no hope there.

According to Xavier Ayral's decoding (Link), Marie-Julie Jahenny mentioned that her prophecies would begin to be fulfilled in 2020-24 (80-83 years after her death), and 2025 would be the terrible year (84 years after her death). With the +1 code, this points to 2026. On January 25, 1881, she spoke of 5 months of civil war in France in 3 phases (Link, Link) & on April 20th, 1882 of 3 months of civil war (Link, Link): one of many Jahenny contradictions. The beginning of these 5 months is

almost certainly in July, namely 5 months before the great turning point caused by the 3DD in December of the year X – finetuned to the 5 months (late?) July through late November in the messages from April 20, 1882 & April 28, 1877 (Link, Link). The excellent Benjamin Parravicini apparently refers to July 14th as a fateful day for France (link) & we also find the 14th of the month in Jahenny's work - perhaps also at Mr. R.'s from Hamburg (Link).
(a) 28 days: July-August, weak first wave (in the end times, the first wave = Yang is always weak)
(b) Very short break (2-6 weeks?): This is likely to occur in August-September, hence the soul review as the cause should roughly occur between mid-July & mid-August. *If* all 3 phases last 3 months, then the break is 3-4 weeks long. 28 days from Parravicini date July 14 is approximately August 11th as a possible soul review date.
(c) 37 or 45 days: total war, where everything is wiped out except for a few places - in the autumn of year X until the 3DD. However, there has never been a civil war with total annihilation in history, meaning the Russian liberators must help here and properly cleanse France in the autumn of year X, hallelujah! This is a systematic error in many prophecies like Jahenny's, which only speak of civil wars and not international wars: some of these civil wars are in reality international wars. BBouvier= Friedrich Doepner also noticed this phenomenon (Link), although Jahenny once spoke of the Russian-Arab alliance, which extends as far as Brittany – praise be to the Lord!
We find the same 45 days in the same Jahenny message also in connection with the Russia-Turkey war, and this presumably means that both wars are running in parallel. According to some sources, the Russia-Turkey war will last until the 3DD in December, meaning these 45 days would have to fall in October-December. Rabbi Gaon of Vilna stated that one should put on the Sabbath garment and not take it off again once Russia captures Constantinople (Istanbul), because the Messiah could come at any moment. However, if these 45 days of bloodshed day & night (we want to make the worst horror movies a reality) don't begin before October, then the very short respite (2-6 weeks?) is around September & the soul review rather in August than in July.

(2) Soul review 6 months before 3DD (June): We know from the prophecies that the first of three excellent waves of World War III will be ended by the 3DD. This is because the 3DD will see a global blackout, followed in the weeks after by black starts, most of which will fail: two-thirds of the world will remain in the Stone Age or will be completely destroyed anyway. I estimate that if the black start in a region doesn't succeed within one to two months, then that's it - Mad Max sends its regards. One reason, of course, is that we will wipe out 67-75% of the world's population in the 3DD. Due to the global blackout, humanity will have to focus on immediate survival for a year or more and will hardly be able to wage an organized war. According to over 100 sources (including Helmut Lungenschmid), the timing of the 3DD is around December 8th in the year X. The most beautiful weapon of mass destruction in human history was not deployed by chance on this very day (December 8, 2020): Kill Bill's Covid death jab have already killed over 4 billion people, a premonition of the 3DD (which kills fewer people, but in 3 days instead of years). Strangely, the timing of the soul review is extremely questionable, with only a handful of direct sources: according to Dr. Mary Jane Even on January 4, 1997 (Link), the soul review occurs 6 months before the 3DD. Daniel Masika saw God's visit in the summer (=revival) & God's cruel whip in the winter (Link): again about 6 months apart. With the 3DD date being approximately December 8, we arrive at approximately June 8 for the soul review (and then we still need a +1 code). A soul review is characterized by Saturn, because it is essentially a karmic review, and Saturn governs karma. Saturn's orbital period is 10,759 days: date of the soul review notification 4.1.1997 + 10,759 days = 20.6.2026 (without a +1 code).

According to Garabandal and other sources, the basic sequence of events is: 1. aviso = soul review = 2. milagro = miracle = 3. castigo = chastisement. Since the 3DD is the culmination of the much-lauded Chastisement, the Miracle *must* occur between the soul review and the 3DD. However, the first 3DD on December 8th of year X is very well established: if the soul review is due 6 months prior, around June 8th (July with the +1 code), then this is *always* outside the window for the Garabandal miracle around mid-April (mid-March to mid-May). Some sources, like John Leary (Link), place the chastisement = castigo 6 weeks after the soul review, i.e., with very subtle nukes: therefore, the Garabandal miracle *must* occur approximately 3 weeks after the soul review. Mari-Loli Mazon also spoke of 3 weeks (or 3 months). The Vatican insider Dr. Dr. Dr. Malachi Martin, advisor to several popes, also believed - perhaps based on classified information - that the time between the events was very short, maybe only days (he was murdered for revealing too many Vatican secrets). Similarly, Joe Lomangino was advised to go to Garabandal

immediately after the soul review (link). None of this adds up, something *must* be wrong here (or a double code?): it strongly contradicts the official Garabandal timing of the miracle.

According to Jewish prophecies, Christ will return after 9.x months of Rome 2.0's rule and the (attempted) conquest of Persia (Link). Further explanations can be found in the writings of Rabbis Lawrence Hajioff (Link) and Dr. Greg Killian (Link), as well as Laivi Shor (Link), based on the pre-Christian Jewish scholar Chazal. February 28, 2026 +9.x months is the month beginning November 28, 2026, for Christ's return: in almost all timeframes, the event occurs *after* the defined timeline, i.e., after 9.x months (or even 10.x months) instead of 9 months. Since February 28, 2026, Brainwashington = Rome 2.0 has been terrorizing the world like *never* before. I have long expected the three-day eclipse of the 3DD (Three-Day Darkness) around December 8th, followed by Christ's return: this confirms it. This aligns with many prophecies that predict we will destroy the gringos between August and November of each year. The nine-month war duration is also found in the writings of the blind youth in 1365 (a very old and reliable source).

Here we see a 3-month cycle of war escalation: 9 months before Christ's return to the Middle East (February 28, 2026), 6 months before full-blown civil wars (i.e., Elliott Wave 5), and 3 months before a total international World War III. The chart below is by Stephan Berndt, based on many older sources, which mostly speak of a war duration of approximately 3-3.5 or 6-7 months. There are also several sources with a war duration of 1-2 weeks, which describes the duration of local fighting, i.e., local battles. There are many other factors not considered in this chart, but the basic picture remains. With a cycle of just over 3 months, we get a rough timeline divided into 3 phases: February 28, 2026 Middle East War – (beginning) June 2026 Civil wars in Europe – first half of September 2026 total international world war – around December 8, 2026 3DD & Return of Christ = provisional end of the war.

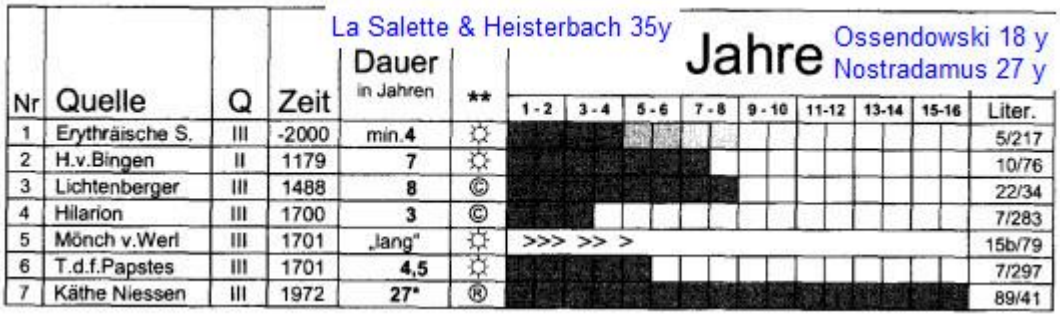
Berndt also presented a meager analysis of the war's duration in years (3-27 years), but this analysis lacks many important sources, including the 35 years of divine judgment/rejection according to Caesarius of Heisterbach (1180-1240) and La Salette (1846). According to my

research, 105+ factors confirm the end of the most devastating divine judgments around October 2037 – and more sources are constantly emerging. For inexplicable reasons, Berndt, in his utterly brainless state, clings to the 100% absurd scenario of traditional European prophecy of a single year X. That's how it always goes with the human race, it's a lost cause, and only a cull can help.



(3) In December 2025 (https://www.amanita.at/docs/open/20251217-e.pdf) I described the astrological master constellation for civil wars and revolutions that we already researched in the 1990s: impulses of the torque in the sun's motion every 30-40 years (most recently in 1989). This is why the eminent Landscheidt spoke decades ago of the next major wave of civil wars and revolutions in 2026. I have also discovered an alpha cycle of 5.14 years for revolutions and civil wars, which has been working well since 1775 (US revolution). It corresponds almost exactly to 1/10 of Martin Armstrong's PEI cycle of 51.6 years: since the 1980s, its accuracy has even been within a few months. The cycle peak at the end of 2010 triggered the Middle East revolutions (the largest number of wars worldwide since 1945), and the peak at the turn of the year 2015/16 was the Cologne New Year's Eve attacks, the climax of the rapugee civil war. The most recent event was from December 2020 to April 2021, when a vaccination revolution began in every country in the world: governments injected billions of their citizens with vaccines, resulting in the largest civil war in history. The half-cycle was the Israeli Civil War, beginning on October 7, 2023, marking the start of the Middle East wars. The next civil war cycle is due around June 2026 (give or take a few months), followed by August 2031 and October 2036.

(4) Don Bosco May 31, 2026: The Blue Moon in the month of blossoms on May 31, 2026, has been discussed for decades and is even the most discussed full moon in prophecy circles (Link). " *Wickedness is complete, sin will be over, and before two full moons of the month of blossoms have passed, the rainbow of peace will appear on Earth.*" Here we have a double code for the Blue Moons of May 31, 2026, and March 31, 2037: only in 2037 will there truly be peace on Earth. It is said here that something is supposed to happen *before* May 31, 2026, but as discussed above, experience shows that almost nothing ever happens *before* prophesied timelines, but almost everything happens *after* (=end-times effect of delay).

In 2025, I found a second prophecy by Don Bosco from 1911 (Link, Link) with a completely different approach, which surprisingly *approximately* matches the other prophecy and again points to May 2026 (from a totally different angle). However, in detail they diverge by 8-12 months: 400 days after a month of blossoms with two new moons, the revolution is proclaimed in Italy, and 200 days later, the Pope leaves Rome and is on the run for 100 days. There are *exactly* two new moons in 2022-33 in a month of blossoms (?) only in June 2030 (June 1st & June 30th, 2030) – although June no longer really counts as a month of blossoms in Italy. With an inaccuracy of +/- 1 (which always applies), the new moons of February 28, 2025, and March 29, 2025, also count (March is a month of blossoms in Italy, also due to climate change in the 2020s). 400 days after March 29, 2025, April-May 2026 is was the ideal timeline for the proclamation of the revolution in Italy: naturally, the obligatory end-times effect "(*almost) everything comes (too) late*" kicks in. 200 days later around October 2026 the papal flight would last 100 days until the New Year of the Goat February 6, 2027, which according to I Pet Goat 2 (2012) is also the conclusion of the events.

Here we have a slight divergence from Nostradamus, who places the papal flight in a summer during the rose bloom: around September 2026 both timelines overlap. The second divergence is the papal flight lasting 100 days instead of 200 days, the order is possibly reversed (180° code): after 100 days the flight for 200 days. The return of the angelic Pope can also be understood as the return of Christ, since the Popes are meant to be Christ's representatives – and of a resurrected Pope in a glorified angelic body (after the 'rapture'=resurrection). In cases of conflict between two prophecies, the end-times rule of delay always applies, that is, the prophecy that

foresees the events occurring later (Yin) is the correct one, not the one that predicts earlier events (Yang). In Don Bosco's model, the Pope's flight would occur about 6.66 months after the proclamation of the revolution in Italy: however, from a double-digit number of other prophecies, we know of a gap of 1-3 months, i.e., 100 days is the maximum.

(5) In 1973, David Wilkerson presented a 27-point timeline model, most of the first 16 points have come true since 2020. Point #20 is important for timing: Wilkerson spoke of 40 months of drought in Africa and Brazil. In Brazil, the worst drought in living memory began in the first months of 2023, as the indigenous leaders of Brazil declared a climate emergency in April 2023. Already in the last four months of 2022, Central and South America received only 44% of the usual rainfall (Link). These prophetic 40 drought months will therefore end around the summer of 2026. The next point, #21, speaks of strange cosmic phenomena: does this refer to the celestial spectacle in the week before the soul review? Point #22 is a brief respite, which we also find in Jahenny's work: almost certainly in the 2-6 weeks after the soul review. #23 is glorious plandemics.

(6) Debora Marasco claims that shortly after the warning, the Virgin Mary will appear one last time in Manduria: Reception = Mary's withdrawal on May 23 (Link, Link). This seems to be indicated by the soul review in May, however, this is without the +1 code, and 'short' is usually much longer than one thinks - perhaps even almost a whole year?

Ida Peerdeman from Amsterdam makes a similar point in her Marian apparitions up to May 31, 1959. According to these messages, a pope will proclaim the great final dogma on May 31 and appoint Mary as "great co-redemptrix, mediatrix of all graces and intercessory omnipotence at God's throne before the eyes of all nations." This also sounds (without the +1 code) like major Marian events (e.g., the Garabandal miracle) shortly beforehand. However, according to a message from 1983 in Marpingen (link), this dogma only comes 40 days after the Feast of Our Lady of Mount Carmel on July 16th: August 25th – in case of discrepancies, the later date usually prevails (code +1 quartal). Why is the point of reference the Feast of Our Lady of Mount Carmel, who also appeared in Garabandal: is this a code for the soul review around July 16th?

(8) The film The Taking of Pelham 123 (12.6.2009) deals with a confession/soul review similar to the film Phone Booth (2002). According to Chuck-Johnel Youngbrandt, 17 years is a cycle of divine punishments: 12.6.2009 + 17 years = 12.6.2026 (without the +1 code).

(9) Nostradamus & Solar/Fire Events, Second Half of July: The King of Prophets is extremely difficult to decipher, but his message of major solar events in June-July is often repeated, with a focus on the second half of July. This suggests the soul review in the following weeks mid-July through mid-August.
(a) According to Nostradamus 2-97, the Pope flees during the rose bloom = June-July (Link), indicating the peak shortly before Russian denazification.
(b) Nostradamus 6-6: „*It will appear around midnight/north, not far from Cancer, the hairy star=comet: Suse, Sienne, Boece. Eretrion, Great of Rome, will die, the night passes."* "Not far from Cancer" (June 22 - July 22) could mean shortly before June 22 or shortly after July 22: however, since almost all events occur *afterwards*, this probably points to the end of July.
(c) We also find Cancer in Nostradamus 6-24: „*Mars and the scepter (=Jupiter) will be united, under Cancer an ominous war: a little later a new king (Henry) will be anointed, who will pacify the earth for a long time.*" Mars 0° Jupiter in Cancer is a code for the year X, as discussed in 2012 in the World Change Forum based on Kurt Allgeier, when souls were still white and therefore brains functioned (Link). But this constellation (on average every 12 years) does not occur even once in the western zodiac between July 2013 and May 2038. It is certainly a double code: true peace will only prevail from 2038 onwards. At the end of 2026, we come close to this constellation: Mars in Cancer is 17° away from Jupiter in Leo. In the sidereal zodiac, however, we have it clearly in November 2026.
d) Nostradamus 5-98 confirms at the end of July for celestial fires: „*At the 48th parallel, the 63rd stage year, at the end of Cancer, there is such a huge drought, fish in the sea, rivers, lakes, boiled to death. Béarn. Bigorre because of the fiery sky/celestial fires in misery."*
(e) Leo is the sign after Cancer. In Nostradamus 8-2, we have the Sun and Mars in Leo, which is the case from August to October 2026: „*Fire from the sky, surrounding them. Sun, Mars connected with Lyon/Leo.*"
The end of Cancer is July 11-22 for the fire sky = celestial spectacle according to prophecies. Nostradamus 6-35: "*Near (O)Rion (?) and the white wool (?). Aries, Taurus, Cancer, Leo, Virgo:*

Mars, Jupiter, the sun will burn a great plain, forests and cities, letters hidden by the candle. End times."
(f) Nostradamus 3-34: „*Then, when the error will be with the sun, the monster will be seen all day long: It will be interpreted completely differently, the price increase cannot be stopped, nobody foresaw it.*" Two suns in the sky were seen during the soul review by, among others, Gianna Talone-Sullivan (USA) and Mary Divine Mercy (Ireland). The massive price increase/hyperinflation confirms its placement in year X or X3. The beginning of this massive price increase/hyperinflation has been projected for March-April in the premium sector for years, based in part on Nostradamus. In March-April 2026, the largest oil shock in history began, almost a whole lot bigger (!) with a 30-80% supply reduction, compared to the tiny 5-9% supply reductions of the oil shocks in 1973, 1979, and 1990. These 3 oil shocks led to price increases of hundreds of percent, so this time an oil price increase of 666% would certainly be the minimum – the more, the better, because pain is the only language the evil race understands. But the end-times effect of the delay is becoming increasingly severe, the denial of reality and dumbing-down (especially through AI) are growing ever greater. However, postponed is not canceled.
(g) We also find the price increase in Nostradamus 3-5: „*A rather long affliction of both large celestial bodies [Sun & Moon?], which will begin between April and March. Oh, what a price increase!"* Unfortunately, it is completely unclear which affliction is meant here.
(h) Nostradamus 1-23: „*In the 3rd month of the rising sun, boar (=Jews), leopard (=Arabs) fight on the Mars field (=battlefield), leopard left behind, his eye looks to the sky, delightfully beholds an eagle circling the sun."* The 3rd month of the rising sun is a code for the 3rd month in the astrological=Persian calendar: end of May to end of June. For the rising sun is the sun at the ascendant, which correlates with the sun at 0° Aries = March 22nd. The eagle circling the sun is perhaps a link to Revelation 8: „*And I saw, and I heard an eagle flying in midair, and it said with a loud voice, 'Woe, woe, woe to those who dwell on the earth, because of the other trumpets of the three angels, who are yet to sound!'*"
(i) According to Nostradamus 3-86, the Pope apparently dies between the soul review and the Garabandal miracle, which points to summer (link): possibly in the Jewish year 86 until September 2026.

Conclusion: The king of the prophets repeatedly defines the second half of July in the year X as a time for major upheavals such as celestial fire, extreme heat, and the death of the Pope, with the beginning of these great transformations around mid-June. Celestial fire is also a code for the return of Christ according to Luke 12:49: „*I have come to bring fire on the earth, and how I wish it were already kindled!* " Since the Pope is apparently still alive during the soul review, the end of July likely marks the end of the soul review window. However, as always, the end-times effect of delay could strike, bringing us to (the beginning?) of August. Pope Leo XI. He was only in office for 26 days (April 1-27, 1605): another code for 2026. According to a Nostradamus decoding (Link), the emperor was born around July 1999. Theodor Beykirch (Link) mentioned in 1622 (=2026 reversed) that the (divine) child/avatar would be 28 years old on the big day X: the emperor's 28th year of life would therefore begin around July 2026, and the last day of his 28 years would be around July 2028. According to this decoding, we have a two-year window for its fulfillment, from July 2026 to July 2028.

Currently, I place the Pope's flight in August (September?) of the year X. Other sources also confirm the Pope's flight in a summer, such as the Salzburg priest (Link): „*When the meadows begin to bloom [early March], the Pope will also return to Rome*." According to several sources, the Pope is gone for 200 days, which would place the papal flight approximately 200 days before early March in mid-August. Nostradamus 5-64 uses the phrase "towards autumn," which also points to (late) August (Link). And Nostradamus 2-41 speaks of the howling of the great dog during the Pope's flight, see Jean-Claude Pfändler (Link): this may refer to the dog season (=Lion season) 23.7.-23.8. The model by Taurec=Alexander Hauser 2004 (Link) places the papal flight in June of the year X (X3), which is almost certainly too early. In the model by Bernhard Bouvier=Friedrich Doepner 1988 (Link), the papal flight occurs in early summer = June-July. The highly dubious Christian guru William Kamm (Link) – a pedophile like almost everyone in the Trump administration, surrounded by right-wing extremists – saw the papal resignation somewhat differently, approximately 10 days before the warning=soul review: this points to July-August for the soul review.

The question is whether this fiery sky is a sign of the soul review or the world quake that Nostradamus 9-83 foresaw around May 10th/11th of the year X or X+1 (Link). From the perspective of military logic it can only be in the year X+1 (Link). However, the aforementioned constellation is only found in the year 47 (2047) (Link): possibly a code for the Islamic year 47 (1447) until June 2026, or the current US President 47 – and then perhaps the +1 code. The world quake will likely be triggered by the giant impact in the Caribbean (according to over 100 sources), which is placed partly before and partly after the 3DD. The soul review is 6 months before the 3DD, so this impact is significantly more likely to occur after the soul review. Similarly, in the 20th century, Wellenberg envisioned a massive impact in Iraq during the Middle East war in a spring-summer (around June?) to prevent the launch of a nuclear missile: so that would have to be in 2026 (Link).

Nostradamus 6-88 confirms the monster earthquakes in May (not April) parallel to the Garabandal miracle (Link): the phrase " *a great empire [USA?] remains devastated* " usually means that the Garabandal miracle will only occur in year X+1 – because the US devastation will only happen in August-November of year X. 6-88 perhaps refers to the Jewish year 5788 starting in 2027. During a visit by Garabandal seer Conchita Gonzales to Padre Pio, he told her (Link): „*The great miracle will be bought by God through much blood over Europe.*" This points to the late year X or X+1. However, there are many other factors that contradict this and point to the summer of year X. Roughly estimated, the factors here are 50:50 for the year X & X1, meaning the situation could not be more contradictory regarding the timing of the Garabandal miracle. By the way, in April 2026 the statue of Padre Pio suddenly cried (Link). In 1963, Father Pio indirectly stated that with a life expectancy of 70-80 years, day X would come no later than the 2020s (Link).

(10) 108° Heaven's Gate (18° Cancer): In 2025, I mentioned in the public forum the key planetary configuration at the 108° Heaven's Gate (a considerable time after the discussion in the protected forum). In Buddhism and Hinduism, 108 is the most sacred number. It is highly unusual that from the beginning of 2025 until July 2026, three planets were stationary at the 108° Heaven's Gate: statistically, this is roughly a once -in-a-millennium event and therefore extremely significant.
(a) At the beginning of 2025, Mars was stationary at 108°: there were indeed enormous celestial battles due to the beginning of the alien invasion on November 18, 2024, which is why the number of white souls quickly collapsed by 90-95% (the largest decline since 2020-21). One must win the war against the black Yin side, otherwise one loses one's soul. In early 2025, the drunken Templar Knight Hegseth, who believes himself to be a God warrior, also became US Secretary of War.
(b) Jupiter at 108° is historically *the* de-Judaization constellation with pogroms, etc., because this signifies a victory (=Jupiter) of heaven (=108°) over hell (=Judaism, hell's gate 288°). For the first 4 months, Jupiter was stationary and direct at 108°, and here we began the final phase of de-Judaization, carried out by the Iranian holy warriors – praise be to the Lord! April 24, 2026, was the final aspect. Purely 'by chance,' Jupiter became stationary at 108° (+/- 4°) in the year of the crucifixion, 0033.
(c) The third and final configuration is Mercury stationary near 108° on July 23, 2026: roughly speaking, a decade event. This is the last stationarity at the heavenly gate and therefore the most important, because in the end times, the last angle is always the most important – and then there is also the +1 code. But this configuration could point to mid-July 2026, because the sun passes over 108° on July 10, 2026 (and Venus on June 3, 2026).
(d) A strong background aspect is Kronos of the Hamburg School by Alfred Witte, with an orbital period of 522 years, at 108° in 2026-28 (Link). Kronos is the crown and therefore the culmination. Hades/Hell, with an orbital period of 361 years, is also already in the orbit of 108° in 2026, but only exactly in 2028-30: worst chastisement by the Most High. Furthermore, Cupido (higher Venus) with an orbital period of 262.5 years is at the gate of gell (288°) from 2030-32. This cluster at the gate of heaven and the gate of hell (2026-32) represents maximum tribulation. Covid began in early 2020 with Jupiter, Saturn, and Pluto at the gate of hell (288°): onset of the 42 months of the reign of the queen of hell.

(11) Anna Mary Taigi 1769-1837 (Link) wrote that according to the 3DD, Peter and Paul will come from heaven to preach throughout the world and appoint a new pope: code for Peter and Paul, June 29th? Similarly, on June 29, 1820, Elizabeth Canori-Mora saw Peter and Paul descend in a vision (Link), with a beam of light emanating from them and choosing the new pope.

(12) On March 30, 2023, Heather Michelle received information that the first ‘rapture’=resurrection would occur in just under three years (Link) = by March 2026: as always, this requires the +1 code

(+1 year). In 2024, Michelle had a dream (Link) that she (39 years old) and her friend (29 years old) became monotheistic at the age of 40. Unfortunately, she didn't recognize the meaning of this dream: namely, a warning that both were currently worshipping false gods, i.e., idolaters (among other things, a lot of egocentric nonsense like 5D, etc.) – therefore, Michelle's soul turned black in 2025. Her 40th birthday was August 14, 2025 (Link): +1 code for summer 2026.

(13) For Father Michel Rodrigue (Link, Link, Link, Link, Link, Link, Link, Link), starting precisely on Saturday, June 15, 2024, the divine mother dropped bombshells like *never* before, he almost suffered a nervous breakdown. He, along with Father Stefano Gobbi (Link), is almost the *only* of approximately 400,000 Catholic priests who clearly touts the soul review. This, in turn, confirms the key role of the date June 15. In 2024, he was still a senior prophet with a LoC of 700, then his soul turned black with a LoC=200s. Rodrigue therefore believed in mid-2024 that this would be his last conference before the soul review, with the major events within months, not years. This would have happened *exactly* if God hadn't suddenly intervened in July 2024.

(14) Shower of sparks & eclipse: There is much to suggest that the shower of sparks seen from the east by the Waldviertel farmer SiZ, ITOma & NeuOrest in one summer is identical to the celestial sign shortly before the soul review (Link). Sister Faustina Kowalska saw an eclipse of 3 hours before or during the soul review, as did other sources, e.g. Sulema Gomez. Almost all old accounts of a *long* irregular eclipse (days) are found for November-December, but Karin Nagel spoke of August, according to Stephan Berndt & the Waldviertel farmer SiZ (Link), specifically the first half of August (as a consequence of the shower of sparks). The ripe grain in the Waldviertel region (altitude almost 600 meters in his home village) is, due to climate change (which is denied by the right-wing bimbos, who are as stubborn as mules), pointing towards July rather than August in the 2020s; the harvest is 2-4 weeks earlier. These sources therefore suggest late July/early August for the vision. Here we see a typical prophetic ambiguity: did he actually see the harvest in year X or the typical harvest at the time of his vision?

He expected this in the 1970s in the Western year 86 (the only concrete year given), where Chernobyl was an important foreshadowing: a toxic cloud came from the east, similar to the fire rain. It could thus be a code for the Jewish year 86 until September 2026 (a double code). For the Mafia, the number 86 is a death code: get someone 8 miles out of town and bury them 6 feet underground. More generally, it represents throwing someone out or otherwise removing them (Link): a symbol for the salutary bank robber. In a broader sense, it can be a code for 'raptures,' where one is simply gone.

All of this could, in turn, be identical to the rain of fire with which we will burn Paris to the ground without batting an eye - as a generous bonus from God, after the Muslims have already wreaked havoc. Our goal is to almost completely destroy the whore Paris. Sarah Menet (1979), one of the best sources, has 13 points on her list in 13 months: the rain of sparks is #8, between #7 Russian nuclear savior for the USA and #9 Russian ground invasion: this roughly points to Q3/2026, and presumably to the second half of summer. After large nuclear weapons, one waits 3-4 weeks before invading the ground, until the radioactivity is mostly gone: this defines the spark rain window and probably also the soul review window.

(16) The 120-year cycle is very important in the Bible (Link, Link), similarly important only to the 50- and 400-year cycles (in the long cycles): 6000 years = 120 jubilee years of 50 years each. From April 9, 1906, there was the Azusa Street Revival, purely 'coincidentally' 9 days before the great Shitcisco earthquake = the most important earthquake in US history: 120 years later, perhaps pointing towards spring-summer 2026 for some repetition, i.e., the great revival after the Soul Review. 1906 was the most well-known Protestant revival movement of the 20th century and the beginning of modern Pentecostal churches and the charismatic movement, which has poisoned all of Christianity ever since. The founder, Charles Fox Parham, recognized as early as 1906 that this entire movement had been taken over by demonic forces, but William Seymour continued nonetheless. The worst is the demon babble called 'speaking in tongues' (Link).

(17) Saturn-Neptune in the 4th harmonic (0°, 90°, 180°) on February 20, 2026, is the aspect of religious themes and religious wars: one week later, the ‘God warrior' Hegseth attacked the noble Persian cat. This angle is therefore also the master constellation of Marian apparitions. Almost all important Marian apparitions occurred close to the 4th harmonic every 7-10 years, but within a large window: St. James in Spain in 1840 (the first Marian apparition), Guadalupe in 1531, the world's largest pilgrimage site, La Salette in 1846, Fatima in 1917, Amsterdam in 1945,

Garabandal in 1961, Medjugorje in 1981, and Marpingen in 1999. The only minor outlier is Lourdes in 1858, a few months before the 120° trine. The last incident in 2015/16 was the actual beginning of World War III: Islam versus Christianity. Millions of Muslim Rapugees invaded Europe. Saturn passed over Garabandal at 4°24 Aries (West) on March 22, 2026, and Neptune passed geocentrically around June 29, 2026. This is another strong cosmic indication of the activation of Garabandal, which represents the soul review. With two angularities, due to the yinization of the end times, the later angularity always takes precedence, in this case, June 29, 2026. Saturn governs karma and therefore the soul review, which is essentially a karmic examination. The heliocentric Neptune will not reach 4°24 until May 2027. Incidentally, Garabandal is located at 4° 25′ 25″ W, where the double 25′ equals 2025. Using the +1 code, we arrive at 2026.

(18) The only message of the soul review month I know of, was given to Christina Gallagher in 2006 (Link), indicating that it will be in February. Almost always, the +1.x code is needed (median +1.1 or +1.2 based on dozens of observations): +1.1 or 1.2 quarters = June? It could also be a 180° code, in which case it points to August. Oddly enough, many prophecies give exactly diametrically opposed dates, e.g., the Big One on the US West Coast either in April or October. It goes without saying that this is a relatively young & thus bad message.

(19) In I Pet Goat 2 (2012), I had overlooked a code that the Almighty only revealed to me in a dream on May 10, 2026 (Link). It contains a Mary code (->Garabandal miracle) with the Super Bowl on February 9, 2026, which was a year code and therefore indicates the Garabandal miracle will occur by February 2027. This is a form of the +1 Code and the end-times effect *"(almost) everything comes (too) late."* The idea that a moment (minute, hour, day, week, month, etc.) represents a fractal of a longer period is the paradigm in many prognostic methods: astrology, numerology, weather proverbs (weather prognostication days), the January indicator in the stock markets, and so on. In astrology, many return methods are based on this, including the solar return chart for the astrological birthday, ingress charts (e.g., Sun 0° Aries/Cancer/Libra/Capricorn), and so forth. Similarly, the Super Bowl on February 9, 2026, was a code leading up to the *planned* Super Bowl on February 14, 2027 (Link).

According to my decoding, the girl with the rosary (->divine mother) points to July-mid-August 2026 (details in the protected premium area), while the rifle symbolizes the admirable civil wars. The rosary also alludes to the time of the rose blooming in summer. Pearls represent purity and virginity, and thus the pure Bride of Christ. The rosary has approximately 12 fully visible beads, which is reminiscent of the new home of the Bride of Christ, according to Revelation 21:21:

And the 12 gates [of heaven] were 12 pearls, each gate made of a single pearl, and the street of the city was pure gold, like transparent glass.

The pearls are also a symbol of Matthew 7-6:

Do not give what is holy to the dogs, nor throw your pearls to swine, for they may trample them under their feet, then they will turn and tear you in pieces.

Here the pig, as in Buddhism, symbolizes ignorance and lack of knowledge: currently, the transmission of spiritual knowledge is mostly, or almost always, like casting pearls before swine, this will only change in the 2-6 weeks following the soul review. According to Gisela on July 10, 2004 (link), true speaking in tongues (speaking in foreign languages) is also given as a gift, as in early Christianity, i.e., the opposite of the demonic babbling that is known today as speaking in tongues. I Pet Goat 2 (2012), like Nostradamus and Benjamin Parravicini, uses a whole host of different codes and is thus a true masterpiece, but difficult to decode.

(20) Revival (42 days to a maximum of 3-6 months) through atomic bombs & natural disasters: A double-digit number of sources see the extremely short final revival in late spring/summer (June-September). The 40-45 days of soul cleansing & miracles after the soul review & before the 'rapture'=resurrection were mentioned, among others, by John Leary, Only A Grain Of Sand 2019 (Link) & Wendi Lee July 19, 2016 (Link). In 2 Ezra 16-52, we find the indication that justice reigns for a very short time before the peak of the tribulation. Since the trigger is almost certainly the soul review, this points to the soul review around the middle of year X or X3. There are also several prophecies about what will happen before the Revival and therefore the soul review. According to Vicki Goforth Parnell, the Revival begins in the early stages of the US takeover (Link), which could mean four or more things:
(a) A naval blockade of North America by BRICS warship: retaliation for the naval blockade of Iran (karma is a bitch, you can do anything with her)
(b) 10-30 nuclear suitcase bombs in major US cities
(c) Russian nuclear bombs dropped from submarines
(d) US liberation by BRICS ground troops

Chuck-Johnel Youngbrandt foresaw the US revival *before* denazification by Russia and China, which likely means before the BRICS ground troops. Dr. Maurice Sklar (Link) saw atomic bombs *first* and this revival immediately afterward. Garabandal speaks of major worldwide events beginning with the letter 'A' in the week before the soul review: certainly auroras & asteroids (double code), probably also atomic bombs (triple code). According to many prophecies, the US nuclear window is from late May through December 10th of the year X, with the strongest dates August 10th/11th (European prophecy & Chuck-Johnel Youngbrandt) and November 11th (Pastor Philip Barnett). By the way, Barnett has been expecting these events specifically for 2026 since 1999 (Link, Link). I assume that the excellent *regional* nukes will come first, followed by the soul review in the weeks thereafter: this points to the 3rd quarter. The number of deep auroras has already added 1-3 zeros (just like the earthquakes, meteorite impacts, etc.), which is an important partial fulfillment (link): however, how many zeros are needed for total fulfillment? This is one of the most difficult questions to answer, because the prophecies don't provide enough detail.

However, the message of March 27, 2017, to John Leary speaks of the declaration of US martial law 42 days after the soul review: since martial law is declared during the civil war, the soul review must have occurred relatively early. Furthermore, some sources, such as Father Stefano Gobbi in 1996 (Link), Father Michel Rodrigue, John Leary & Mother Lex from the Austrian Eisenberg (Dr. Gertraud Pflügl Link) peak of a *permanent* refuge approximately 42 days after the soul review: the only truly *permanent* refuge is with God in an immortal, glorious resurrection body (12D angelic body). Therefore, the first 'rapture' (resurrection) must occur 42 days after the soul review, coinciding with the commendable nuclear decontamination.

These sanctuaries are reminiscent of Sarah Menet's 1979 report (Link), which predicts the formation of 20-30 Christian strongholds in the USA (primarily in the West). These strongholds will form shortly before nuclear day X (starting with the soul review?), and will house 100 to thousands of Christians – heavily armed with countless guns, so much for the nonsense about protection by angels. In total, only tens of thousands of people will live in these 20-30 strongholds. Menet describes the global upheavals in approximately 13 points, extending over a year from winter to winter, i.e., 13 months according to many sources (only 6-9 months in Europe). This equates to roughly one point per month, as a rough guideline within these 13 months. With the most likely starting point being February 28, 2026 (the outbreak of war in the Middle East on the last meteorological day of winter), we arrive at March-April 2027 for the end of this shitshow. Point 6 of 13 concerns these refuges: this points approximately to Q3 of year X for the refuges and thus to summer for the soul review. Similarly, in 1976, physicist Thomas Campbell at the Monroe Institute (Link, Link) predicted a one-year period of dramatic earth changes for the evil empire of the USA. Tim Foster lists 6+ sources in the Bible that prophesy slightly more than a year (Link): Luke 4 & 13 and Isaiah 32, 34, 61 & 63. Nostradamus, the king of the prophets, spoke of spring to spring.

If this is true, then the soul review is due in Q3 of Year X: August 11 - 42 days = June 30, or according to Pastor Philipp Barnett, November 11 - 42 days = September 30. Brandon Biggs (link) similarly saw this final revival primarily in the central USA, because both coasts there are already destroyed: this is definitely quite late in Year X and points to the second half of the year. Likewise, in the 2000s Dan Bohler saw this revival *amidst* the upheaval - that is, *not* at the beginning. Hudson Taylor (1832–1905) saw two waves of the final World War in 1855, and between these two waves a massive revival in Russia that spread to Europe (Link). He probably meant the first nuclear wave in the Middle East in June–July of Year X, and then, in the second wave, nuclear saviors worldwide. According to this, the soul review and subsequent Revival can occur *at the earliest* in the middle of Year X. In the Western year 86 (1986), there was the nuclear disaster with the greatest contamination, preceded two weeks by a warning in the form of a large celestial sign in Rome, similar to Fatima, see Father Jason Charron (Link). Now we are in the Jewish year 86 (5786), and the events are repeating themselves…? This is no coincidence, because 86 = Radon is a natural decay product of 88 = Radium: both share the same root word, radioactivity.

(21) John Leary said in 2023 that the soul review will take place during the football season (Link). I initially thought of American football, with its season running from September to early February, but now I believe he meant soccer (FIFA contains the word football). The FIFA World Cup is held in the USA only once every few decades (the last time in 1994): in 2026. In any case, the timeframe of September to the beginning of the year fits practically nowhere with the other sources. The strongest soccer season, give or take four years, is of course the planned FIFA World Cup from June 11th to July 19th, 2026. In the end times, the inverted Occam's razor applies: the simple, direct solution=Yang is not the correct one, but rather the complicated, indirect one=Yin. Several sources speak of the major cataclysms during a large *global* sporting event, which is always interpreted as the Olympics or the FIFA World Cup: the FIFA World Cup attracts the most spectators, while the Olympics are only second. This is also contained in Islamic prophecies, as Kurdish physicist and banker Kameran Fally stated in a 2015 interview as part of Project Camelot (Link). Nostradamus spoke of the great slaughter (hecatomb) during the 'Games': this points primarily to the first month in the Athenian calendar, hekatombaion ~July 16th - August 14th, 2026, when this hecatomb was primarily carried out.

Another football prophecy by Bob Jones (1930-2014, Link) predicted (almost) the year of awakening and thus the soul review. According to this prophecy, the great awakening would come after the Kansas City Chiefs won the Super Bowl. The Kansas City Chiefs never reached the final in the half-century from 1970 to 2020, then they won three times in a row (2020, 2023, and 2024): a typical triple fulfillment of prophecies. Even 2025 saw a partial fulfillment, as the Kansas City Chiefs reached the final but lost to the Philadelphia Eagles. But by 2026, they were out of the running, meaning their winning streak was over. Formally, this prophecy was perfectly fulfilled (3 times) at the beginning of 2024, and in 2025 there was a small bonus: the +1 code points to 2026. Prophecies are fulfilled 1-7 times, here the end-times effect of "(almost) everything comes (too) late" was most pronounced. Jones died on February 14, 2014, at 6:22 AM. 622 is the reverse of 2(0)26: code for 2026.

As early as 2000-2003, Bob Jones prophesied God's resting in the 2020s and the final revival (and thus Year X or X3) after the Kansas City Chiefs' Super Bowl victory. In summary, he predicted the

great revival for the 2020s (Link, Link): this divine inactivity occurs in the months before the soul review, followed by 42 days of activity, and then inactivity again, when God no longer delays the Last Judgment but allows these good things to unfold. For true servants of God - white souls - Jones announced the end of spiritual attacks for the 2020s: this is the 'rapture'=resurrection and perhaps even its precursors. And for the 2030s, he saw the unity of the 0.12% of God's servants as the fulfillment of Saying #23 of the Gospel of Thomas: „*I will choose you: 1 out of 1,000 and 2 out of 10,000. And they will stand as one.*" The 10,000 is also a code for the fact that there are currently only about 10,000 white souls. In Revelation 7, there are 12 references to 12,000 sealed ones, this could be related (2,000 died?). The message to @RE-ue6oz (Link) also points in this direction, that only 1% are prepared for the return of Christ. The point of reference was missing here, i.e., 1% of which total population? It is certainly not humanity as a whole, but only those who believe they are well-prepared for the return of Christ and do a lot for it (but still too little): that is approximately 1.5 million.

(22) The Simpsons also prophesied a 'rapture' during the 2026 FIFA World Cup in S09 E05 on November 2, 1997 (Link, Link, Link). Certainly, the clock hands at 11 and 6 point to June 11th: the day the World Cup begins (if it even happens). 6 and 11 could also refer to November 6th. The World Cup lasts until July 19, 2026: however, due to the end-times effect of the delay, this points more towards approximately July 19, 2026.

(23) Superdate June 24: The two 'fortresses' of the soul review, Garabandal and Medjugorje, both began around June 24 (+/- 1 week). Therefore, June 24 could be significant: either the soul review itself or the celestial signs in the two weeks prior. In any case, the Balkan wars around Medjugorje began *exactly* a decade (+1 code) after the Medjugorje apparitions. Five of the six Medjugorje seers were born in the spring, between March 6 and June 21. Similarly, three of the four Garabandal seers were born between April 27 and June 21 (except for Conchita Gonzales, born on February 7), with the same end date of June 21. On June 19, 1965, the soul review message arrived (Link). The death of Joe Lomangino on June 18, 2014, was the most important Garabandal date since 1965, again occurring within days. On June 16, 2024, a nine-day novena began: the most important Medjugorje event in decades, as for the first time in 20 years, two seers were present simultaneously. Starting on Saturday, June 15, 2024, the divine mother dropped bombshells like *never* before (Link, Link, Link, Link, Link) regarding soul review and the nuclear solution. Of the 400,000 Catholic priests, only two (!) clearly expressed their support for soul review, one of them was Stefano Gobbi, who died on June 29, 2011, again at the end of June. Father Petar Ljubicic (born October 22, 1946) was chosen to proclaim the 10 Medjugorje secrets to the world. Psalm 90 defines human lifespan (after the deluge) as 70-80 years: his 80th birthday in October 2026 is an indication of the fulfillment of these things by October 2026.

(24) Outpouring Gates=Zach (Link) saw in 2025 that between January and July 2026, God would pierce people's hearts. This almost certainly refers to the soul review, the most terrible event in the lives of 99.9% of people. Due to the end-times effect of the delay, this points primarily to July 2026.

(25) The soul review is in a summer, according to the Stanislaus Knight Phoebus from Vienna in 2020 (Link). Phoebus claims that, according to Mary, the Order of Stanislaus will then play a major role. In 2017, Malcom received information from Mexicans in Garabandal that, according to Conchita Gonzales, the Garabandal miracle supposedly occurred on the feast day of Bishop Stanislaus of Krakow (Link). Malcom appears in 77 posts, so he is not a dubious one-hit wonder in the World Change Forum (Link): of course, 77/777 is the number of forgiveness, which is a nice synchronicity. The Mossad agent Rubenstein also favors May 8th, and Xavier Ayral also believes in either Stanislaus or Hermenegild (Link). Glenn Hudson (Link) identifies the 4 main candidates as Tarcisius, Stanislaus, Carlo Acutis & Hermenegild. However, Hermenegild (April 13) can be mostly disregarded (1/10 candidate), because he does not meet 3 criteria:

(a) He was Spanish.

(b) He was no longer a boy when he died, 6 years after his marriage (presumably 30+).

(c) The life & death story as narrated by Conchita Gonzales don't fit at all.

Carlo Acutis can be 100% disregarded, as he was not a martyr (the main criterion) and wasn't even born in 1963 when these statements were made. Yet one could add Werner of Oberwesel (1271-87), where a Jewish ritual murder is recorded: however, his name day on April 18/19 falls outside the Garabandal window (without +1 code) & he was never an official Catholic saint. In spite

of these two shortcomings, Werner still fits the profile quite well, that's why I see him as a half-candidate.

As a matter of fact, Tarcisius is the *only* individual who perfectly fits the Garabandal definition (link, link): a young, male, non-Spanish, rather unknown martyr of the Eucharist with a difficult name. 'Tarzan' wanted to bring the Eucharist to the sick and was killed by pagans on the way. Moreover, of all candidates he is the *only* one who was stoned, as required by the description of Conchita Gonzales. Therefore, Tarcisius was immediately recognized upon his mention in September 1963 as the one to whom Conchita Gonzales' description perfectly matched. Luan Ribeiro remarked that the icon of Tarcisius looks a bit like the divine mother (Link). Tarcisius died in the year 0275: code for 2027? Only his feast day August 15th doesn't fit: however, there are highly controversial claims that his feast day was once April 11th (link), then everything would really fit. The 26th of April (link) is relatively undisputed: that would be the main window with the +1 code (+1.2 weeks).

August 15th stands out here, as it is the feast day of both Tarcisius & Stanislaus, i.e. of 2 of the 2-3 main candidates. Furthermore, we have a double reference for Stanislaus. Stanislaus of Krakow was a Eucharistic martyr on April 11, 1079, but at almost 50 years old, he was not young. August 15th is the death anniversary of Stanislaus Kostka, who lived here in Vienna and died young at the age of 17 on August 15, 1568, though not as a Eucharistic martyr. If we consider Stanislaus 1+2 together, then they fulfill the definition of martyrdom *together*: this is also a certain indication. However, the strongest argument for Stanislaus is that he was allegedly named by the Garabandal visionaries. Many sources claim (Link, link) that, according to Conchita Gonzales, the martyr has a rare name (for Spanish speakers) ending in -eo or -ao: Estanislao is the Spanish form of Stanislaus. This severely narrows the possible range, meaning practically no one remains. Stanislaus has several name days: April 11, May 7/8, August 5/15, and November 13. *If* the Garabandal miracle occurs in year X, then only the August dates are possible, in year X+1, April 11 and May 7/8 are also possibilities. Here, we must consider Stanislaus and Tarcisius together (dual code), meaning Stanislaus compensates for Tarcisius's deficiency: his officially late name day. However, this argument is not as strong as it appears, for 6+ reasons:

(a) The perfect martyr (content & timing) has not been found despite an intensive search for 60+ years, so something *must* be wrong: the $666 million question is what precisely?

(b) The ironclad rule is that statements about content (like the one above) are always *much* more reliable than statements about timing. In terms of content, *only* Tarcisius with his single (?) feast day August 15th fulfills all the requirements (by a wide margin), but not the *much less important* timing. In short, we have a contradiction between content and timing, and in this case, content (almost) always prevails.

(c) Contradictory statements have been made by the 4 Garabandal visionaries regarding the timing, which further weakens the significance of the timing statements.

(d) The +1 code (especially +1.1 or +1.2) can always lead to a delay, in this case primarily +1.2 quarters later than the main window mid-April.

(e) Based on many external sources, we know that the alleged main window in mid-April can only occur in the year X+1, in year X it *must* be later. However, there are many good arguments that the miracle will already occur in year X (as well as many counter-arguments).

(f) It is more than bizarre that April 11 is the day of Stanislaus and perhaps also Tarcisius: thus the same convergence as on August 15, albeit with a question mark. Around April 14th, one is still within the tolerance range (+/- days) of Werner of Oberwesel on April 18th/19th & Hermenegild on April 13th: maximum 4-fold convergence, albeit imprecise. In that respect, April 11 & August 15 are certainly the 2 anchors in the annual cycle for the Garabandal miracle. We must *never* think like the wannabe experts who expect prophecies to be fulfilled with 100% accuracy: that happens *never*, one must assume 50% fulfillment, or at best 80%. However, in the Garabandal paradigm precise fulfillment is assumed *without exception*, to my knowledge: so you know that not a *single* Garabandal exegete knows what they are doing. This is, of course, nothing new: I don't know a *single* person in the world who has conducted truly solid research on prophecies. That's why no one but me fairly consistently nails events (almost) to the day over many years, by decoding prophecies. Of course, for this to happen the soul must be white, otherwise it's impossible. Some land a *one-off* lucky hit, and that's it. In any case, the vast majority have

never achieved a single genuine prophetic hit in their entire lives: these are eunuchs who know the advantages of every possible sex position perfectly. Quite a few want to claim stupid, commonplace drivel with a high probability of occurrence ("it will be dark next night") as a hit.

In Medjugorje, August 5th was given as the birthdate of the divine mother (Link): this could also be significant. Furthermore, August 5th also points to a connection with Tarcisius: on August 5, 2010, the Tarcisius statue in Rome was placed in its final location. Additionally, Father Professor Luis Andreu died on August 9, 1961, in Garabandal, close to August 15th, after being the *only* person to have witnessed the miracle (Link): a code for the miracle around August 9th? From August 7, 1972, until the summer of 1974, the sun experienced its first micronova, which was, however, shielded as part of the Sirian Experiment (Link). This was a solar miracle, similar to those that repeatedly occur with Marian apparitions: August 9, 2026, is 108.5 years later, 108° is the cardinal number. August 15th is the important church feast of the Immaculate Conception and, incidentally, also the key day for the Untersberg mountain, which was the heart chakra of the planets for a long time. August 11th-15th plays a key role in the prophecies for the year X. *If* the Garabandal miracle actually happens on a Thursday (confirmed by Nostradamus 10-71), then it could be, for example, Thursday, August 13, 2026. 3-3.5 weeks beforehand points to approximately mid- to late July for the soul review. If, however, the Garabandal miracle occurs in Year X+1, then April 15th/ 22th is a possibility. The Garabandal Eucharistic miracle was on July 18, 1962 & on July 20, 1963 Conchita Gonzales was indirectly told she would go hell (Link): this could be a code for July 18-20.

(26) Dr. Antonio Yague (Link) bases his assessment on the soul review warning of a full moon, derived from the Marian apparitions of 1830 in Paris and 1983-88 in Peñablanca (Chile). The full moon most discussed in prophecy circles for decades is May 31, 2026, due to Don Bosco (Link). Adding one month brings us to the full moon of June 28/29, 2026 (or August 2026 with one quarter added).

(27) The biggest rapture hoax in history, and also the biggest prophecy hoax, was the alleged ‘rapture’=resurrection on September 23/24, 2025, with the king of con artists, Pastor Joshua Mhlakela from South Africa. Nevertheless, 9/23 can have significance because it is the most frequent code in movies, even in other calendars: in the civil Jewish calendar, September 23/24 is the 23rd/ 24th of Sivan, the next one being June 8/9, 2026. In the Jewish religious calendar, September 24 is the 24th of Kislev, which falls on December 4, 2026.

(28) Soul review = 7/70/77/777/7x70: The number of forgiveness is 7, and the higher vibrations are 70/77/777/7x70. Matthew 18-21: „*Then Peter came to him and asked, 'Lord, how many times shall I forgive my brother or sister who sins against me? 7 times?' Jesus replied, 'Not 7 times, but 7x70/77 times.'" Strangely, the translations diverge here. On* David Hawkins ' consciousness scale (Link), forgiveness = 540 = 7x70 + 7x7 (+/-1). A key sub-goal of the soul review is attaining forgiveness, but through immense suffering. Among 'Christian' loveholics, one often finds the claim that this large number signifies the necessity of infinite forgiveness: but of course, nothing but lies from hell come from these Christian devils. Thousands of people received guided tours of hell from Jesus and experienced the same thing: when Jesus goes through hell, most of the inmates beg for forgiveness (some curse him), but they are not even ignored by the Boss. We praise the cruelty of our Lord not just 777 times, but indeed for all eternity! We therefore find the number 7 code prominent, Psalm 77 is certainly about the soul review.

I ponder the days of yesteryear, I want to think of years long gone. My heart broods at night, I reflect, my mind searches.

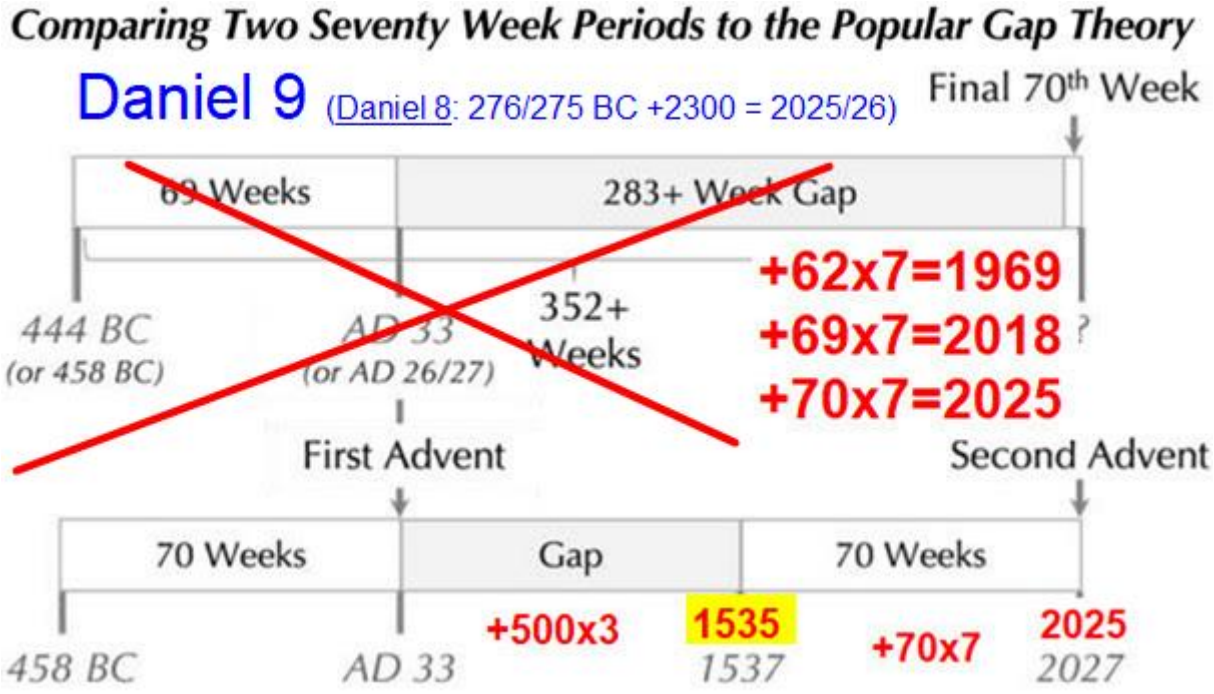
This is also a code: the Psalm numbers correlate not only with the Western calendar but also with the Israhell calendar, i.e., from the founding of Israhell on May 14, 1948. Psalm 77 therefore represents Israhell's age of 77 years: May 14, 2025-May 14, 2026 – with the +1 code, we arrive at May 2026-May 2027. One can also derive a resonance of the soul review with the 7th month of July. It is surely no coincidence that the much-lauded Middle East war broke out on February 28, 2026, within *days* of Israhell's age of 77.777 years: naturally with the obligatory +1 code (+1 week). Jacob's ladder = ladder to heaven is likewise connected to the age of 77 years, because Jacob was 77 years old at that time (Link).

The first Marian apparition in Garabandal was on July 2, 1961: 777 months later, it was April 2026. With the obligatory +1.x code, we arrive at May-June 2026. Mid-July 2026 is 60.66 years after the last apparition on 11/13/1965. The main seer, Conchita González, was born on February 7, 1949,

with three times the number 7 (on the 7th of the month in the year 49 = 7x7): she was 77 years and 77 days old in April 2026 and will be 77 years 7 months old & 77.7 years old in September-October 2026. Mari-Loli Mazon (May 1, 1949 - 2009) was the only seer who knew the date of the soul review (Link): age 77 years 7 weeks on June 19, 2026 (June 26, 2026: 77 years, 7 weeks, 7 days). So we see the maximum number 7 response rate for the #1 soul review source Garabandal in spring-autumn 2026. According to Thomas Fahy, the Pope's return from Moscow apparently coincides with the beginning of Russia's denazification of Europe (link), similar a German priest 2007 (Link): this then points to August-September of the year X.

Over 800 years in advance, the year 2016/17 (Jewish year 5777) was highlighted by *many* sources as a key year for the end times, and indeed, the end times in the narrower sense began then, especially with Trump's rise to power. This is why Nostradamus (10-74) spoke of the mass slaughter and resurrection of the dead with the great number 7 (777) at the time of the games (link, link), i.e., relatively soon after 2017. Elsewhere, he confirmed its occurrence soon after the turn of the millennium. A large number is three times the same number: therefore, the devil's number 666 is the great 6 (Venus). The King of the Prophets has already used May 14, 1948, at least once as the starting point for a calculation, namely that the Whore of Babylon (USrahell) only lasts 73 years and 7 months: practically to the day at the age of 73 years and 7 months, Russia declared war on the filthy NAZO pigs in mid-December 2021. This momentous date was correctly decoded and discussed years in advance in the premium section here.

According to Daniel 9:24-27 (->2024-2027), it takes 7 x 70 = 490 years until sin is ended: then God will finally unleash his holy wrath, which we 100% support. The interpretation of these lines has been debated for millennia, and the most popular interpretation - a completely arbitrary gap (!?) of 1981+ (!) years since the year 0033 - is 100% absurd, like most of the Christian demagoguery. This riddle was solved by Christian Widener (Link), though not entirely accurately. Widener uses 1537 for the decree of Sultan Suleiman I for the rebuilding of JerUSAlem (as mentioned in Daniel 9:25), but this is just an inscription: according to Wikipedia, the decree dates from 1535 (Link). So we have four data points here in 2000 years: 0033 Crucifixion, 1535 (1537) Decree to rebuild Jerusalem, 1967 JerUSAlem recaptured, and 2018 JerUSAlem capital. The best fit for these four data points is 2025 (all +/- 2), with the +1 code we arrive at 2026. However, we find a 180° code here, because initially, 62x7=434 years from 1535 were: JerUSAlem recaptured in 1967 (434-2 years from 1535). There's even a mirror number here: in 536, Cyrus's order was issued. One could possibly add the year 1531 as a fifth data point, close to 1535: that year saw a Marian apparition in Guadalupe (Mexico), which became the world's largest pilgrimage site. Here began the great jubilee year (500 years) of the Marian apparitions, where only the lowest aspect of God (13D=divine-feminine) is easily accessible: final stage of the devolution of the Kali Yuga.



This comes from Daniel 9. Using the 2300 days from Daniel 8, Adam Clarke was able to prophesy the monstrous conquest of JerUSAlem around the year 1966 as early as 1825, calculated from the Battle of the Granicus in 334 BC (Link). In fact, this happened in 1967: 2301 years later, i.e. as always, the +1 code kicked in. Incidentally, the distance between Fatima and Garabandal is 2301 weeks, also the same 2300 time units with the +1 code.

(29) Psalms: Psalm 77 (1948+77=2025) is important, but also Psalms 124 & 125 (->2024 & 2025). Both speak strikingly of birds: in Psalm 124 we escape from the fowler's net (=Matrix) & in Psalm 125 our feet are also freed from the bird net. This is exactly what happened to the white souls in 2024-25: they were freed from the Matrix=bird net, a process that is only fully completed with the soul review. But this was, of course, fiercely opposed by the dark Yin side: this corresponded to the great trials in the year of the dragon & the serpent according to Liu Bowen (1311-1375), where the number of white souls with the seal of God collapsed by 90-95%. The bird is, of course, a symbol for flying = 'rapture'. This is also the reason why avian influenza was specifically chosen for the epidemic: avian influenza prevents birds from flying, including their ascension to heaven during the 'rapture'=resurrection. The matrix was essentially installed on this planet 75,000 years ago when a quarantine with mandatory reincarnation was imposed. Even 75,000 years ago, the human race was extremely dangerous to the rest of the galaxy – and back then, the malevolence of the evil race was minuscule compared to today.

I recognized God's sudden intervention in July 2024, otherwise, the big showdown would have already occurred in 2024. It wasn't until 2025 that I realized this had been foretold in Psalm 124 (-> 2024), meaning that God's intervention prevented, among other things, the zombie plague and the Great Flood 2.0.

**Had* not the Lord intervened for us - this is what Israhell shall say, *had* not the Lord intervened for us when men rose up against us, then they *would* have swallowed us alive when their anger was kindled against us [=zombies]. Then the waters *would* have swept us away, a torrent would *have* poured over us. Then the waters would *have * poured over us, the wild and surging waters.*

At the end of May 2024, vaccine stocks suddenly exploded by hundreds of percent because, according to BioNTec's profit forecast, the maximum epidemic (including zombies) was planned for Q4/2024. However, God's intervention thwarted the reptilians' NWO plans. Psalm 126:5 & 6: *„Those who sow in tears will reap with shouts of joy. They go out in tears, carrying seed to sow, they return with shouts of joy, bringing in their sheaves."* This speaks to the spiritual harvest, *perhaps* in May-June without the +1 code (because of verses 5 and 6). The soul review is the beginning of the harvest, because from then on, white souls receive special divine protection. Of the 150 Psalms, only this one speaks of the harvest (Psalms 65 and 67 are a harvest thanksgiving). Psalm 26 (->2026) also contains – just like Psalm 77 – references to the soul review: „*Test me, Lord, and search me, examine my heart and soul!"*

(30) Myrna Nazzour from Syria experienced Marian apparitions from 1982 onwards, the major events for the time *after* a joint Easter from West & East were announced to her, just like Father Paisios (Link, (Link). We see this convergence every 3-8 years, most recently on April 20, 2025: with the code +1.1/ +1.2, this points to mid-2026. According to my analysis of dozens of cases of lateness, the median should be +1.1-1.2 time units. This is reminiscent of the Concise Dictionary of German Superstitions (Link): Judgment Day if St. Anthony's Day falls on Easter – which, however, can never be true in either the Western or Eastern Church. It could be a code for a central spiritual event around June 13 (St. Anthony's Day). St. Anthony is the patron saint of lovers and marriage, his symbol is the white lily = virgin: it could be a code for the wedding of the white bride of Christ with the Lamb.

Glenn Hudson's most important soul review forum (Link), a new page appears on average every 10-12 days: we are now at page 404.4, the next master number 444 would only appear in 1-2 years if the trend continues. Hence the Garabandal apparitions 1961-65 lasted for rather precisely 4.44 years. 444 is a master number and angel number and represents Jesus/ messiah/ cross, gematria/ numerology, the 444 steps of the ladder to heaven, perfect love, prophets, and trials (including the test of the soul = soul review). Therefore, the most important site with collected prophecies is 444prophecynews.com. In Greek, 444 is anthrópos = humanity (Link). In mid-2024, near page 666/2, the greatest Medjugorje event in decades took place: a nine-day novena was held to avert (nuclear) World War III, and for the first time since 2005, two seers were present

simultaneously. So these codes worked very well in mid-2024. These prayers worked, because in July 2024, God suddenly intervened and postponed the most beautiful of all wars one last time.

(32) The last message from Vassula Ryden (18.9.42-25.9.2024) from Egypt was that the prophesied events would be fulfilled in the 1-2 years after her death: that is, summer 2025 to summer 2026 (Link). She also made prophecies about the soul review, she experienced the soul review = Enlightenment of Conscience = Warning herself, according to her message from September 1991 (Link, Link, Link).

(33) 4-month cycle of celestial phenomena (including irregular eclipses): This also appears to be a cycle for the major celestial events in the week before the soul review.

(i) Mid-March 2024: first irregular solar eclipse, see among others Dieter Brörs (Link, Link)

(ii) Mid-July 2024: second irregular solar eclipse, see Prof. James Kaufman (Link, Link). Troy Black correctly predicted the suppression of sunlight from summer 2024 onwards.

(iii) Mid-November 2024 largest UFO wave in history from 18.11.24 = beginning of alien invasion, beginning of the death fog, predicted practically *to the day* (Pluto final entry into Aquarius)

(iv) Mid-March 2025: On March 24, 2025, the strangest and most important celestial event in recent history occurred, potentially visible to billions of people (Link, Link, Link). Additionally, there was a second, weaker UFO wave, with two abduction attempts against my twin flame and me in Germany.

(v) Mid-July 2025: The alien spaceship 3I/Atlas with millions of reptilian soldiers on board appears and deploys many mini-objects in the solar system.

(vi) Mid-November 2025: wave of the bird flu (birds = rapture), bird flu has also been linked to aliens several times in ET films.

(vii) Mid-March 2026: The number of shooting stars/fireballs and/or UFOs suddenly increased by one or two zeros (!), as documented by Stefan Burns (Link, Link, Link). According to Ben Davidson, however, half or more of the alleged fireballs/bolides are too slow and are therefore *not* shooting stars (Link, Link).

(viii) Mid-July 2026: major celestial events before the soul review?

(ix) Mid-November 2026: 2DD, 3DD?

(x) Mid-March 2027:???

(34) Empirical-statistical crisis indicators: Garabandal's statement regarding the soul review in an even-numbered Yin year is controversial, but nevertheless makes a great deal of sense from an empirical perspective. This is because the peaks of crises primarily occur in Q3 of an even-numbered Yin year. Therefore, if the soul review just (6 weeks?) before the peak of the crisis, this points to approximately July of an even-numbered Yin year, i.e., July 2026, July 2028, and so on. The outbreak of the crisis usually occurs in Q1 of the even-numbered Yin year, sometimes as early as the autumn of the preceding odd-numbered Yang year. In fact, the best fit is achieved by using the Jewish year with its New Year in September/October, rather than the artificial Western year. It is fitting that Baba Vanga's prediction of the highly critical date of February 22nd in the 2020s only came true in even-numbered years (always with a +1.x code, of course): after February 22nd, 2020 Covid, after February 22nd, 2022 denazification of Ukraine, after February 22nd, 2024 start of the Israeli-Iranian War & after February 22nd, 2026 start of the war USrahell-Iran.

From 1999 to 2024, the Dow Jones therefore saw 23.4 times (!) higher annual performance in odd-numbered Yang years (13.7%) than in even-numbered Yin years (0.59%). This is because masculine Yang pulls upwards and feminine Yin pulls downwards. This effect becomes even more pronounced when considering only the first 3 quarters of the Yin year (i.e., until September 30, 2026), or when using Rosh Hashanah. Of course, this is only the real performance, which, in the current hyperinflation, has almost nothing to do with nominal performance. For years, I have been the biggest nominal stock market bull in the galaxy, and simultaneously the biggest inflation-adjusted stock market bear in the galaxy. The folly of the stock market bears anticipating large nominal declines in a medium hyperinflation (inflation of 100-1000%) that began in March 2026, is unparalleled. There are dozens of other empirical models and factors in the Amanita system that confirm this timing – as has been intensively discussed in recent years.

(35) The palm leaves analyzed by Vinita Dubey Pande (link) contain references to a meteor shower around August 12, 2026: is this identical to the shower of sparks/fire rain? However, among over 1000 sources, the palm leaves have been the only ones for years where – for negative events – one can or must assume a premature rather than a delayed fulfillment. For example, the massive escalation of war expected in January 2026 for around March 25, 2026, occurred almost a month earlier on February 28, 2026 (Link, Link, Link).

(36) Soul review & plandemic 2.0: The general consensus is that the soul review will occur (almost) at the height of the upheavals, which of course also include the fantastic Plandemic 2.0. Specifically, several prophecies indicate that the soul review will trigger a massive wave of deaths among the darkest souls, according to Garabandal & Josel Stockert in 1947 (Link). The idea that seeing past incarnations can be unbearable and therefore perhaps fatal is also hinted at in the Gospel of Thomas #84.

*Jesus said: "When you see your likenesses, you rejoice. But when you see your likenesses, which were created *before* you, and which neither die nor reveal themselves, how much will you bear?"*

The soul review is a mini-judgment and, for 99% of humanity, the worst event of their lives, e.g. confirmed by Grete Ganseforth in Heede near Oldenburg, Germany. This purifying, instant death wave will hopefully affect 5-20% of humanity, primarily through cardiac arrest. In his book *My Death Experience* (2015), the Mühlviertel junior prophet Helmut Lungenschmid (born February 1, 1958) warns that millions of people will die during or shortly after the soul review from neurogenic shock due to massive cardiac arrhythmias and blood pressure fluctuations. Whether the soul review causally triggers the plandemic or merely runs parallel to it is uncertain. We have known about sudden and unexpected cardiac arrests since Kill Bill's wonder weapon in 2021, and this seems to primarily (exclusively?) affect the vaccinated mutants (with MAC addresses). Only A Grain Of Sand claimed in 2019 that those who curse God during the soul review will die (Link), however, like several other sources, they conflate the soul review with the 3DD, so we shouldn't get our hopes up too soon. Conchita Gonzales confirmed that the soul review is already so dramatic that she would consider it Judgment Day if the divine mother hadn't told her otherwise (Link).

According to the message to Julián Soto Ayala from Mexico on December 24, 2004 (Link), the miracle will only come *after* the wonderful plandemic 2.0, where the black souls bleed out like pigs (hemorrhagic fevers like Hantavirus & Ebola). Plandemic 1.0 Covid was the first spiritual garbage collection, where Kill-Bill threw more than 50% of humanity into the hellfire, praise the Lord! Thank God, the spiritual garbage collection will come dozens more times, each with a death wave of 5-75%. Needless to say, the soul review is also a spiritual garbage collection, unfortunately only a small one. The abominable stench of the human garbage has long since reached the throne of God, as many true prophets report.

In Revelation 16 we find 7 bowls of God's wrath, with the plague being number 1 – the first 6 events, according to other prophecies, happen in one summer:

#1 Plague of ulcers (cancer & skin diseases): Is the soul review the trigger for this highborn plague? In the premium area, I've been talking about Elliott Wave 5 of the Plandemic 2.0 in the summer of 2026 for the past 1-2 years, and a certain key date was even mentioned in the protected area. This wonderful plague is God's punishment for the vaccinated mutants with the mark of the 666 Beast in their bodies: with a MAC address (Link) cell phone 2.0 *in* the body instead of on the body. The mobile operating systems (Android & iOS) were even updated in the 2020s so that the 666 mutants can only be tracked down with special apps in order to select them for termination. Since the vaccinated mutants still radiate even in their graves (Link), they are not really dead, but actually undead = zombies.

During the Revival, there are supposed to be many miraculous healings and even the resurrection of the dead, which is a double code: resurrection either in a 3D fecal bag or in a glorious 12D angelic body. These miraculous healings also occur around the time of the Garabandal miracle, and therefore the Garabandal miracle must be identical to the Revival: the Revival takes place in late spring/summer, and then the Garabandal miracle should also be in summer, i.e., 3-3.5 weeks after the soul review according to Mari-Loli Mazon. However, the Garabandal miracle in summer contradicts more recent Garabandal accounts, in the 1960s, June/July was still mentioned. In

cases of contradiction, the old account is almost always correct (or more correct), and the new account is incorrect.

#2 & #3 Sea, water sources & watercourses turn red: is this the shower of sparks seen from many springs?

#4 Intense heat from the sun = micronova: is this the shower of sparks seen by many sources?

#5 Great pain of black souls because they do not repent: This apparently refers to the weeks to months after the soul review, where the lack of repentance is increasingly punished by the Boss. As already written here a few years ago, the main effects of the Covid lethal injections (and almost all vaccinations since 2023) are on the spiritual plane, the wave of deaths on the 3D plane is just a nice side effect. The Boss of Hell and her team of millions of demons programmed 666 spiritual harmful effects into the Covid lethal injections. One of the most important is the almost complete locking of forgiveness: this is precisely why there will be a huge difference between mutants and humans during and after the soul review. Another of the 666 harmful effects is the lowering of the assembly point (construction point), as explained by Carlos Castaneda and Jon Whale, among others.

#6 Euphrates dries up & Chinese troops clean up the mess in the Middle East: This is the Battle of Armageddon & the marker for the first 'rapture', i.e., the Wedding with the Lamb and/or the Resurrection. The wedding dress for the Wedding with the Lamb is also indirectly mentioned here: my wedding dress supernaturally and suddenly manifested in my wardrobe in September 2021. This is confirmation that the first 'rapture' is happening here & the soul review probably 40-45 days beforehand (unlikely at the same time).

#7 Earthquake (due to a massive asteroid impact?), massive meteor showers & fall of the great whore Babylon USA: this is no longer necessarily in summer, but rather in autumn, i.e. in August-November in year X, according to many sources.

(37) The daughter of @MukisaHerbert-bo5ui (Link) dreamed in 2025 at the age of 4.5 years of the rapture during the summer school holidays: school starts in the USA at 5-6 years old, so this can mean summer 2026 at the earliest - and the soul review is perhaps 42 days before.

(38) Anne Tucker (Link, Link, Link, Link) has been expecting the *final* flash of light (=micronova and/or supernova near Orion's Belt?) since 2020, either in spring (summer) 2024 or 2026: the first of three waves of divinity on Earth, with the transformation of karma into dharma. As always, when two dates are given, the later one applies, due to the end-times effect of the delay. Karmic redemption is only possible for the (m)asses through the soul review: therefore, the soul review is almost certainly what is meant. More precisely, she spoke of the February-July window: due to the end-times effect of the delay, one can more likely assume the end of the window in June and especially July.

(39) In the film Quiet Earth (1985), this flash of light occurs on July 5th.

(40) Brandon Dawson (Link) saw the film Supergirl 26.6.2026 as the key to the Supergirl=Bride of Christ before his LoC total crash into the 200s: that could also be a code for the soul review.

(41) Troy Black received a highly coded message for summer 2026 (Link), which *can* be interpreted as a soul review & outing of the Bride of Christ, with a collective confession = soul review, etc. (multiple possibilities). Furthermore, on December 11, 2022, Troy Black received a message of a wedding (with the Lamb) = hieros gamos in a spring, which he estimated would be spring 2024 or spring 2025 (Link): with the +1 code, this corresponds to spring 2026. Later, Black indicated (Link) that there would be major upheavals due to natural disasters near Cuba in mid-2025: with the +1 code, this corresponds to mid-2026. The massive impact in the Caribbean could occur before the soul review & 3DD, or it might not, unfortunately, there is no agreement in the sources on this point.

If I mention Troy Black here, then I absolutely must take this opportunity to lash out at him: anything else would be sheer chutzpah. In 2024, this black soul seriously claimed (Link, Link) that the 100+ prophecies about the 3DD over the past 1000+ years are all false… This false dog seriously places himself above the leading saints and prophets of the last millennia and ultimately even above the Bible. With this, the bigoted hypocrite completely parodies his constant emphasis that every prophecy must always be examined in light of the Bible. Because in Exodus 10, the 3DD are described as the ninth of the ten plagues, where light remained only in the houses of the Jews.

This son of hell claims he will go out during the 3DD, because anything else would be a 'spirit of fear'. That's certainly a good idea, because our goal is to get rid of all arrogant devils forever. Of course, the exact opposite is true of this anti-fear-teaching: only 100% psychopaths and AI machines feel no fear, humans do. As long as fear exists, there is hope, without fear, however, there is no hope. Some prophecies note with great astonishment that the people of the end times have no fear of hell: that is perhaps the worst thing of all.

And this Troy-an horse is just the tip of the iceberg: contemporary Christianity is the quasi-monopolist of spiritual nonsense, it's impossible to top that. Bible zealots cite the countless biblical passages that say one shouldn't be afraid – compared to the few that actually incite fear. Unfortunately, the Bible is a terrible, highly paradoxical book and therefore the right divine punishment for the wicked race: the more important something is, the *rarer* (!) it appears in the Bible. A similarly diabolical recommendation to go outside during the 3DD came only from Drunvalo Melchizedek, although his Pueblo Indians, like all other reputable sources, recommend staying indoors. But of course, it's easy to say such things in the comfort of one's own home: what one actually does on the day of reckoning is a completely different matter.

(42) The cult film Final Destination (2000), the beginning of a film series, takes place at the end of June and deals with the theme of fate, which is closely linked to the soul review: code for the end of June? The plane crash could also be a code for a 'rapture' that ends in a crash: because one sees one's own soul.

(43) @GreyBear428 (Link) received a message from God at the end of October 2025 that He would return in 6 months = at the end of April 2026. The 'I'll be back' is one of the most famous movie quotes in history, where the Terminator returns to make a termination. It is no coincidence that the world situation escalated during these 6 months like never before. Furthermore, this statement meant that the soul review could not take place before the end of April 2026, because the soul review signifies a strong presence of God. However, being back is not the same as speaking and making a grand appearance: first, one must be back, and then at some point, one can speak. Zechariah had to remain silent for 9 months due to the ear-ripping of the Archangel Gabriel, until the birth of his son John the Baptist. John, in turn, was born 6 months before Jesus Christ. The silence began on September 23/24, 2025, and nine months later, June 23/24, 2026, is the date for the beginning of speaking, six months before the return of Christ in December 2026? It is purely 'coincidental' that June 24, 2026, is the Feast of St. John. This would be a repetition of the biblical pattern.

(44) Rabbi Shlomo Eliashiv (Leshem) 1841-1926 quoted the Zohar that the period of the resurrection of the dead (Tekiyas HaMeisim) lasts either 210 or 214 years (double code) into the Jewish year 6000, see Pinchas Winston (Link, Link, Link). Techiyas HaMeisim refers to the reunification of soul and body, as is only possible in a 12D angelic body. Rabbi Yitzchak (3rd century) already spoke of 214 years (Link). This relates to the 13 articles of faith of Maimonides (circa 1135-1204). Here we have a double code that confirms a 3-4 year interval between the two trumpets/resurrections, specifically the 40 months according to Islamic sources. While the Zohar (13th century) is primarily based on Rabbi Shimon bar Yochai from about 1900 years ago, these factors have clearly pointed to 2026 (6000-214=5786) & 2030 (6000-210=5790) for almost 2 millennia for the resurrection (=’rapture’). The fact that Rabbi Shlomo Eliashiv died exactly 100 years=2 jubilee years ago in 1926 is, of course, also a code for 2026.

(45) Support comes from the count by Rabbi Gaon of Vilna (1720-97), according to which the 5845 verses of the Torah make statements about the corresponding Jewish years (Link). We are currently in year 5786=verse 5786=Deuteronomy 32-34. The Last Judgment is announced in Deuteronomy 32-35 for the Jewish year 5787, beginning in September 2026 (the soul review comes earlier):

Mine is the punishment and the retribution on the day their foot will stumble. Yes, the day of their destruction is near, and their doom is swift.

(46) Rabbi Lawrence Hajioff (Link) took up this 6000/28=214.2857 years of peace and arrived at the beginning of the Twelve Days of War on June 13, 2025 practically to the day, from the New Year of 6000. This is based on the 28 ages within the 6000 years, according to King Solomon in Ecclesiastes. This is no coincidence, although this was only a small partial fulfillment, because due to the Yin effect of delay in the end times, one must always choose the latest possible starting

point: the last day of the Jewish year 6000, not the first day. From the last day of 6000 (in the Western year 2240), one arrives at approximately June 1/2, 2026. But the total fulfillment of predicted peace can only be expected with the +1 code, especially +1 month and +1 quarter (unlikely +1 year). For the evil race, peace is 100% impossible, therefore, the announcement of peace for humanity is - unbeknownst to them - identical to the extermination of humanity: praise be to the Lord!

(47) Rabbi Isser Weisberg (Link) refers to Daniel 12 for the 1335 days (->years) one must endure for salvation. Daniel 12:11-12 speaks of the abomination of desolation 1290 days after the end of the sacrifices in the First Temple, and then 1335 days later of salvation. We use the key 1 day = 1 year, which is also the main principle in astrology. In 604 BC, Nebuchadnezzar removed the treasures from the First Temple in Jerusalem, in March 597 BC, he conquered Jerusalem, and in 587 BC, he destroyed Solomon's Temple. 1290 years after 598/597 BC was 0691/92 (abomination of desolation), and 1335 years later, it is now 2026/27. The horror of devastation began in the Islamic year 72 (April 691-April 692) with the completion of the Dome of the Rock in JerUSAlem (=Jewish subjugation by Islam). 1335 years later, it is now April 2026 to April 2027. The Islamic year 72 is the mirror number of 27 and thus confirms 2027. Perhaps 1290 weeks also signifies something: 9/11, like 597 BC, was a massive attack on Judaism (New York = Little Israel). 1290 weeks after September 11, 2001, is June 2, 2026 (1335 weeks later, April 13, 2027). But perhaps the 1335 days without a code also fit, because on May 6, 2023, an atrocity of devastation occurred, similar to 691/92: Charles became the King of JerUSAlem (hostile takeover!) and thus one of the three Antichrists. 1335 days later points to December 31, 2026, for salvation.

(48) According to the Malachy prophecy (Link), the key date is approximately 10 November 2026, with the accession of Sixtus V on 24 April 1585 as the exact midpoint of the Malachy prophecies from 26 September 1143, the accession of Celestine II. Half of this is 441,548 years (-11 days Julian -> Gregorian).

(49) According to Enoch 60 (Link), Enoch saw a monstrous earthquake, a massive celestial event, and the end of grace (=beginning of God's most gruesome chastisement) on July 14th. In the three calendars, this might be a reference to July 14th / Tishri / Nisan, the 14th of Tishri being September 25th, 2026. If the grace shitshow actually ends *for good* on September 25th, 2026, then the soul review could be 42 days earlier, around August 15th, 2026 - or even as early as July 14th, 2026? However, the Enoch calendar is a few days later than the current Jewish calendar, so it could be delayed by several more days. The collision in the cosmos, in particular, strongly resembles the prophecies for the week before the soul review, which will almost certainly look like a cross.

(50) The end of grace around July 14th aligns with Sammy Omosh, according to whom a prophet in Kenya (Link) said that the heavens would close around the beginning of July: does this refer to July 2026? The closing of the heavens has two meanings and is reminiscent of the appearance of the two witnesses according to Revelation 11:6: „*They have power to shut up the heavens so that no rain falls during the days of their ministry as prophets. They also have power to turn the waters into blood and to strike the earth with every kind of plague, as often as they wish.*" Their appearance coincides with the end of God's grace for 42 months and either with the soul review or the first 'rapture'=resurrection (although these events are unlikely to be identical). If we combine this with Islamic prophecies, then their appearance would have to be two months before the Third Time's end, because of the 40-month interval between the two trumpets. It could be a code for the soul review: during the soul review, the sky opens very briefly and then closes again.

Economist turnover forecasts have been discussed in the premium section since 2015, and sometimes even *day-by-day* predictions have been possible. For 2026, there are two codes for major spiritual events, and both are around mid-2026 (more details in the premium section).

(52) In 1937, Joe Brandt saw the destruction of California in the spring, after which all churches would be full of people day and night: a final, brief revival. It is quite unlikely that a natural disaster (even one two zeros larger than other natural disasters) would lead to such a massive revival. Example: even the great tsunami in 2004 with about 2 million victims produced exactly 0.0% revival. It is more plausible that Brandt saw the massive earth changes in the month before the soul review, which - together with the soul review - would lead to this revival: that is, in the spring to early summer. There are many codes in this text, for example, that the shoes disappear within 5 minutes: shoes as acute emergency preparedness don't really make sense, and this is therefore

certainly a code. Shoes are the foundation of the body and therefore also represent the foundation in the spiritual world, namely spiritual knowledge. So there will be a brief panic to make up for the missing spiritual knowledge. The 5 girls mentioned are the clever bride of Christ (5 wise virgins). Brandt also saw the stockpiling of oil: since March 2026, the biggest oil shock in history has been underway. Brandt demonstrably saw many things correctly, including men with earrings (unthinkable in 1937), cell phones (as one of very few sources), and US President Trump (the description only fits him). The time 1 6:2 9 with the 62 (inverted 26) is perhaps a code for 2026.

(53) In Gematria, rapture corresponds to 526 (Link) and in the Greek original text, harpazo is used, which yields 726 (Link). The 26->2026 is striking in both instances: perhaps the 5 and 7 point to May-July 2026 for a rapture, and the soul review is also a rapture: there are 13 types of rapture (https://www.amanita.at/docs/open/20250201-e.pdf). It could also refer to the alien rapture and is reminiscent of the 'rapture' of Enoch by the Nephilim giants, apparently announced 30 days in advance (Link).

(54) According to Zohar 212b, a new star appears on June 25th of each year and lasts for 70 days: the question is, in which calendar? The Jewish-civil, Jewish-religious, and Western calendars are particularly important. This prophecy was fulfilled exactly on Friday, the 25th of Elul, in 2024, and has been partially fulfilled again since. Around June 25, 2025, many new stars also appeared over Israel, namely Iranian missiles: the 12-Day-War as the geopolitical war peak in 2025. If this new star also refers to the collision in the sky approximately one week before the soul review, then the soul review will occur *at the earliest* in early July 2026 – or in the 70 days thereafter until mid-September 2026. September 7, 2026, is the 25th of Elul, and that would be the next possible date for the new star before the soul review.

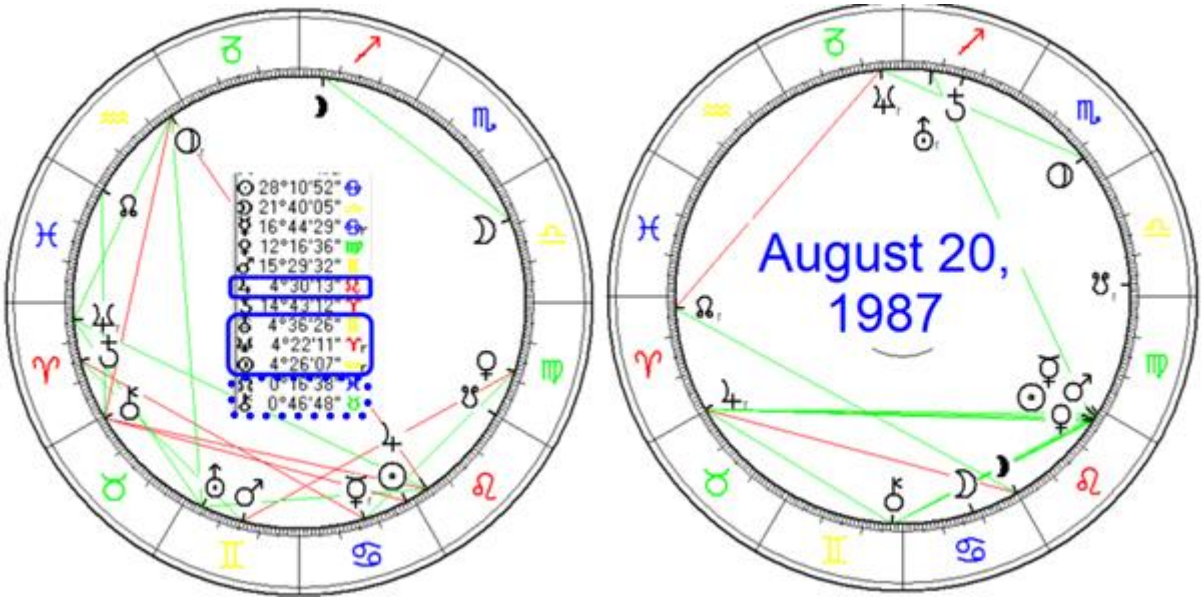
(55) Xavier Ayral interprets Father Michel Rodrigue's message from August 2024 to mean that the warning=soul review=aviso must come no later than July 2026. However, the phrase 'within months, not years' would typically be interpreted as within less than one year: in this case, we are currently using up a +1 code. Either way, this points to summer 2026.

(56) Since 2025 I have been talking about the UFO revelation in the summer of 2026 in the premium section, and in recent months the indications have become more concrete. Decades ago, the Viennese seer Stefan Parlow (when his soul was still white) saw the false alien rapture 50 days before the real 'rapture'=resurrection. A UFO revelation in the summer of 2026 points to the real 'rapture'=resurrection in August-November 2026, as do many other factors. *If* the soul review is 42 days before the real first 'rapture'/resurrection, then the soul review coincides almost exactly with the UFO revelation in the summer (autumn) of 2026 and is therefore further evidence. The UFO revelations coincide with the UFO war, part of which are the UFO raptures: because the reptilians try to suppress the truth for as long as possible and only release it when there is no other option – namely, when extraterrestrial races directly enter the war. Benjamin Parravicini spoke in 1960 of the blue men from the blue planet Nibiru coming to the aid of Israhell against the BRICS heroes in the (nuclear) war at the end of the 6th decade (Link, Link): in the summer-fall of 2026.

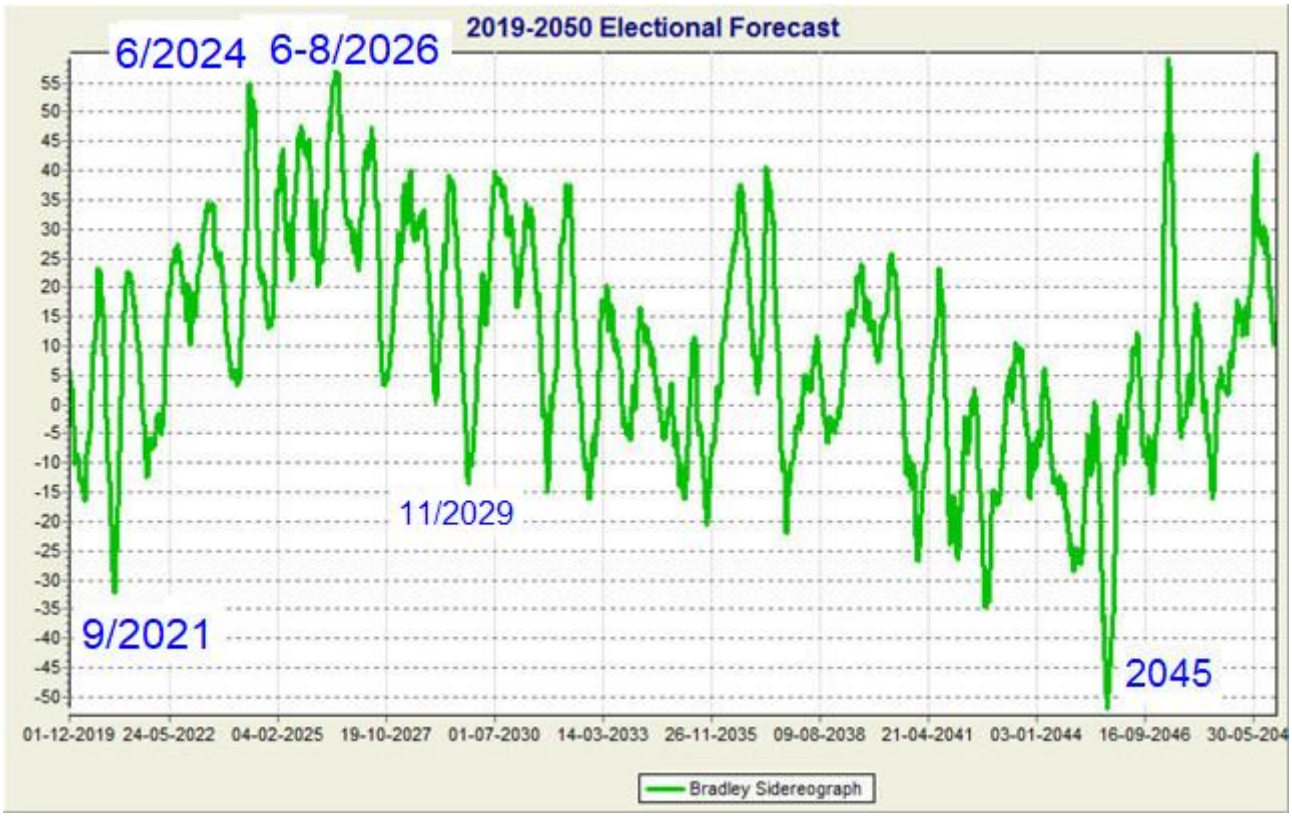
Parravicini used 10+ time codes, one of which is simply adding the mentioned years to the year of publication: 66-69 years (end of 6th decade) after 1960 is 2026-29. Interestingly, the color blue mentioned twice is prominent on May 31, 2026: the blue moon prophesied by Don Bosco. In addition, Pastor Stefano Gobbi published the blue book with messages on the soul review (Link). A Rabbi confirmed that the 'seraphim' from the earth's interior (=inner-earth races) will assist Israhell in the fight against the BRICS liberators (Link no longer works).

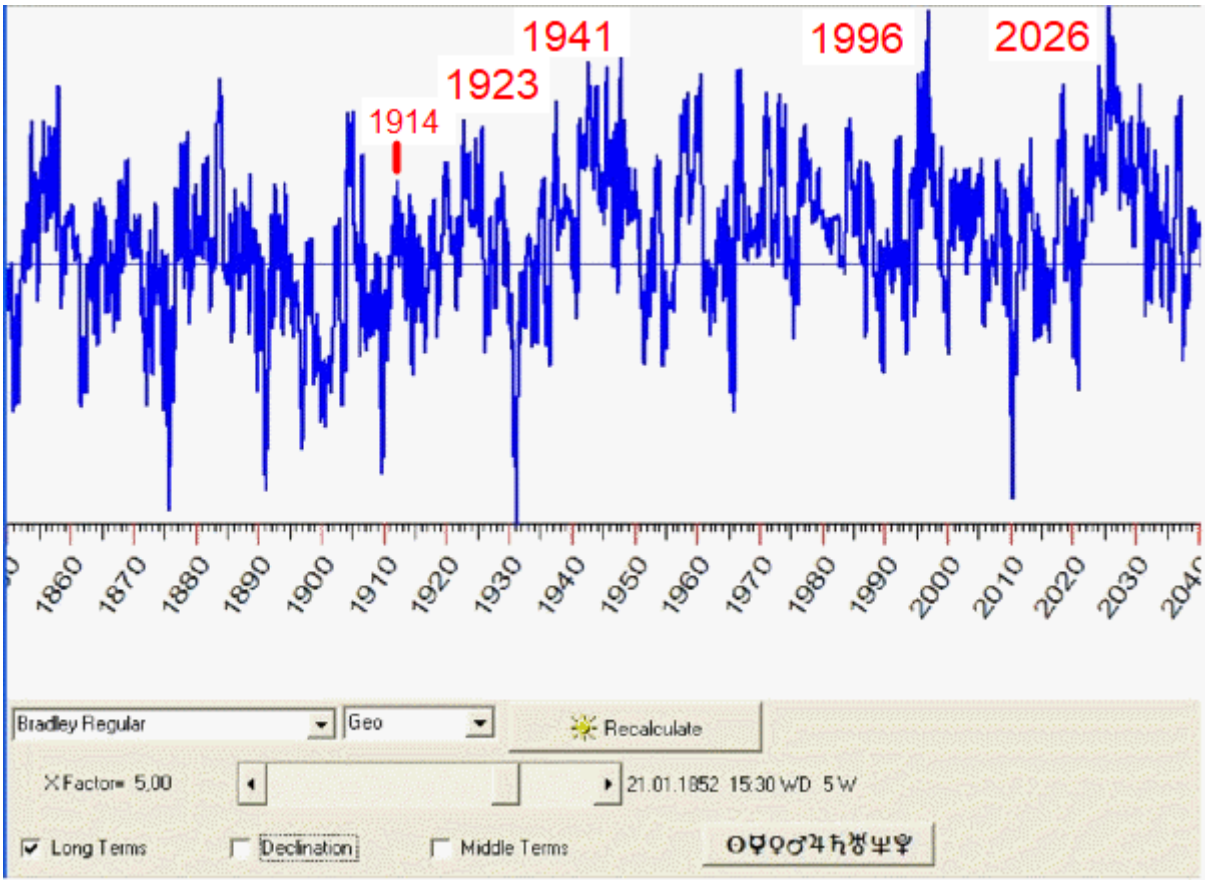
(57) Around July 20, 2026, we have an all-important constellation: all slow-moving planets except Saturn are close to 4.44° in masculine Yang signs, the regular slow-moving planets are even within arcminutes of 4.44°. Yang = light & enlightenment (Yin = darkness): this fits well with the enlightenment of conscience = soul review. The number 4 represents the cross and the trial (also the trial of the soul), and 444 is an important end-times number, hence the important prophecy website 444prophecynews.com. At the end of February 2026, the most important single astrological aspect of 2025-26 occurred (Saturn 0° Neptune), which triggered the Middle East war within days, as predicted. However, around July 20, 2026 we have the most important aspect pattern of 2026 with 4-6 slow-moving planets, thus the second focal point of world events in 2026. Furthermore, around this date almost all slow-moving planets activate Garabandal=soul review near 4.44° West, very precisely in the 12th harmonic: this is a Garabandal convergence that can only be expected once in millennia…

This constellation is reminiscent of the harmonic convergence in August 1987, which also saw a great deal of harmony in the Yang signs (grand trine). In August 1987, for the first time since the time of Atlantis (LoC=290) tens of thousands of years ago, the global consciousness value LoC rose into the positive range LoC>200, according to David Hawkins, which is why Hawkins spoke of the most significant event in human history and even of an unnoticed return of Christ (Link). The spiritual significance of July 20, 2026, and August 20, 1987, could therefore be similar. In any case, in conventional astrology it marks the major event focus point of the coming year. Currently, the global LoC (level of consciousness) is 150=anger, following approximately LoC 100=fear in 2020: this level of consciousness is necessary for the greatest massacres in history that we intend to unleash. At the beginning of 2026, we had the last very significant constellation: heliocentrically, the four slowest-moving planets entered the war degrees (Aries dwad 0-2.5°), which, as expected, triggered the glorious Middle East war involving dozens of nations - let us praise the Lord!



(58) This huge number of harmonious aspects around July 2026 pushes the Bradley Siderograph to its most significant high in centuries (!) on June 23, 2026 & August 12, 2026, near half the number of the beast 666/2. Like most indicators, this one also functions in reverse=Yin in the end times.
(a) At the last nearly equally high peak in 1996, near half the devil's number 666/2, we were able to start the Congo Wars with 5-10 million victims: the largest war since World War II.
(b) In 1941, the Siderograph rose to its highest level since at least the 19th century: this was when we finally saw World War II reach its full potential with the US entry into the war.
(c) In 1923, the Bradley Siderograph rose to its highest level in decades: this was the peak and endpoint of the post-war inflationary crisis, including the hyperinflation in Germany.
(d) In 1914, the Siderograph rose to its highest level in almost 10 years: outbreak of World War I.
(e) On the other hand, Bradley lows indicate good times: the last major Bradley lows in autumn 2021, 2009/10, the turn of 1999/2000 & autumn 1989 coincided almost exactly with the peaks of the global economy in that decade. Autumn 2021 also marked the end of geopolitical calm, because on December 17, 2021, Russia effectively declared war on the goddamn NAZO pigs.
The largest Bradley top in *centuries* in mid-2026 is therefore an extremely strong indication that we will see an incredible increase in military activity in the second half of 2026 (=typical window of effect in the following months): this is the perfect environment for the soul review in the summer of 2026. In the months after the next major low in November 2029 we defeat both AI & aliens.





(59) Larry Berg's Berg Timer BT (Link), partly based on the (heliocentric) midpoints of Alfred Witte's Hamburg School, shows a certain correlation with these two factors. The monthly BT rises to its highest level (123) in our *lifetime* in June 2026 (at least until the second half of the 21st century). Even more dramatic is the 2-month smoothing for June-July 2026 in the chart below: this demonstrates how dramatic the constellations will be in mid-2026. At the beginning of 2026, before the much-vaunted Middle East war, we were still in the perverse pussy state (lowest level in many decades): a high BT is strong Yang & a low BT is strong Yin. BT highs >91 have historically correlated strongly with outbreaks of war and are therefore the perfect constellation for the soul

review in the summer of 2026, in the early stages of total escalation. In the 20th century, outbreaks of war primarily occurred around the BT high and in the preceding quarter. However, now in the 21st century, they occur mainly in the following quarter, due to the end-times effect of delay: in this case, in the summer of 2026. The most important high point in the following 14 years, in May 2030, is the beating up of both AI & aliens.

(60) The Future Forecasters (Link) link the worldwide cessation of time with the death of a major political leader: according to traditional European prophecy, this will happen in the height of summer of year X, especially in July. However, since May 2024, we have already carried out dozens of assassinations of high-ranking officials, and the supposedly most powerful man in the world (Biden) died in July 2024 and was replaced for half a year by an initially abysmal double (later improved). The question is, don't these many partial fulfillments already constitute a total fulfillment...? Of course, the biggest nonsense comes from the Irlmaier exegetes, who, after a double-digit number of assassinated high-ranking officials, are still waiting for the third assassination... Our greatest success is that in March 2026 we put Satanyahu into a coma, afterwards the AI Satanyahu ruled for some time with 6 fingers, etc. At the beginning of 2024, the Future Forecasters were given the 'rapture' as a blind target (not double-blind as claimed) and saw *only* the false rapture by blue aliens, perhaps to Mars (Link) – and perhaps Saturn, according to the Simpsons (Link). According to some sources, the soul review lasts 15-20 minutes, and during this time the flow of time is supposed to stop.

(61) We see something similar in the film Langoliers (1995), based on Stephen King, where time travel is made 15 minutes into the past. In this film, the theme of the strict father dominates: in the soul review, we see our soul from the perspective of the strict divine father. The Langoliers devour all stupid & lazy people: this is exactly what happens in the 3DD. One protagonist is a blind girl: in the soul review, even the blind will see again. In this film, only those who did not sleep were raptured: the soul review is a rapture, and the resurrection also requires a rapture. This is the link to the biblical parable of the 5 sleeping, stupid & lazy virgins (who did not prepare) and the 5 smart virgins. Here, then, we have a triple code: soul review, resurrection, and 3DD. The airline is called American Pride: the pride month is June: is this a code for the soul review in June? Flight 29 could be a code for the 29th of the month or Saturn. 29-30 years is the orbital period for Saturn = karma: this tends to point to the 29th/30th of a month. We see XPDER 7777 displayed once in the film: 777 is the number of forgiveness. The flight in the film goes to Boston: the Merlin Line awakened the core veil of mother earth in Boston on December 23, 2012, at 0:23 local time – which was the greatest spiritual event for her in the billions of years of her existence. The film *The Mist* (2007) is probably the best film about the 3DD, also based on Stephen King.

(62) In the illuminati card game (Link, Link, Link) we see a film reel being cut for 18.5 minutes: in the soul review, we see our life film (or karmic film). Time apparently stands still during this, according to Marie-Julie Jahenny, Only A Grain Of Salt 2019 (Link) & the Book of Truth by MDM Mary Divine Mercy=Mary Carberry #210 from July 12, 2012 (Link). Conchita Gonzales spoke of a duration of a quarter of an hour (Link). I began past life regressions (karma regression) in 1995 and experienced my first life review at the end of 1998 at the age of 24 (24 being the symbol of heaven). For over two decades afterward, I repeatedly had small soul reviews, which had the effect of clocks in my immediate aura (1-2 meters) running about 18.5 minutes slow. This meant that time was often stopped (wristwatch and alarm clock). This happened surprisingly frequently: I don't know if anyone has experienced more soul reviews than I have. All of this was part of my training to write about the topic of soul reviews. The Illuminati card for the 'rapture'=resurrection again refers to the golden band, indicating that one must wait a long time. The mentioned cage is a reference to the fowler with the cage according to Psalm 124, which will be relevant in 2024. It's unclear to me why the band begins in Southeast Asia, near Myanmar. The 18.5 is perhaps also a code for the Jewish year 5785: with the +1 code we arrive at the year 5786, which ends in September 2026. Perhaps we also have a code for 18.5 weeks: the divine=astrological=Iranian New Year is March 21st, 18.5 weeks later points to the end of July.

(63) According to Veronica Lueken, the image 'Jacinta 1972' (Jacinta Marto of Fatima) from 14.9.71 is supposed to represent the time of the judgment in coded form (Link, Link), whereby perhaps the month of June appears here & the year 72 is the mirror number of 27->2027?

(64) Pope Benedict, who died on December 31, 2022, was the last pope recognized by heaven and therefore the last in the chronology of Garabandal & Guadalupe 1531 according to Alessandro Massano, with 46 stars = popes (link, link). 42 months is *the* key in the end times and points to mid-2026 (+1260 days to June 2026).

(65) The solar eclipse of August 12, 2026, is within 1° of the great Nostradamus solar eclipse of August 11, 1999, when a large cross appeared in the sky: a cross in the sky is also supposed to precede the soul-searching, which could be a clue. Nostradamus 10-72 may have indirectly defined a code for August 2026 here: 1999 is the only directly mentioned year in centuries, and within two days Putin came to power, who, as the prophesied "great king of terror," has dominated the world in the last 27 years like no other politician.

(66) According to Pedro Regis 2005, the warning=soul review occurs on the day of the nuclear war in the Middle East or immediately afterward (link) & almost the same message comes from Luz de Maria de Bonilla. According to many sources, the nuclear redemption happens in an (early?) summer, hence the enlightenment of conscience, too. Note: as always, the end-times effect of delay probably kicks in, i.e. I expect the warning to occur +1 day, +1 week or +1 month after the joyous nuclear party in the Middle East.

(67) A Greek Orthodox priest (Link) spoke of the resurrection ('rapture') at Epitaphios, which means either Orthodox Easter or August 15: 40-45 days beforehand points to the beginning of July for the soul review (without the end-times effect of the delay).

(68) An Orthodox prophecy from 2013 (link) speaks of full churches (=revival) in the first 2 of 9 months (one-quarter) of the Balkan war, which begins in the summer. This also implies that the soul review will be the trigger for the revival in the summer. More precisely, it probably points to August, since according to other prophecies, the liberation of Constantinople by Russia will happen after 3 months of war and shortly (1 week?) before the 3DD at the end of the year.

(69) According to the Prague Sibyl (17th century), a cry goes around the world on St. Veronica's day: that is February 4th and July 9th/12th (link).This can mean all sorts of things, but the global cry without an obvious 3D event could very well refer to the soul review, where almost all people feel fear as never before in their lives – the healing power of fear is immense.

(70) Marriage with the Lamb during soul review: I expect the marriage with the lamb to occur in the weeks (months) from July 10th in the year X. The Bride of Christ has already purified her soul and no longer needs a soul review, that is, she could be transformed during the 3-hour darkness on the day of the soul review.

(71) On August 11, 2026, at approximately 8:30 a.m. UTC, we will have a maximum Yang stellium with *all* planets in Yang signs, representing maximum masculine dynamic, which will finally break the feminine stagnation. Such extremes often do not occur for decades and are then decisive points. On March 16, 2020, the penultimate Yin stellium occurred, when we practically *to the day* turned the entire world into a snail = Yin: there will be no more Yin stelliums in our lifetime, meaning that, thankfully, we will never experience such a standstill = Yin again. In the last 53 years, there has been only one Yang stellium, in the summer of 2001: 9/11 was the greatest global change +/- decades. The Yang stellium before that, in 1973, produced the first oil shock = greatest depression +/- decades. Incidentally, the next Yang stellium will occur around April 20, 2027, where we can look forward to "interesting times" (a Chinese curse). The weeks surrounding the soul review are characterized by incredible dynamism: an indication for the soul review around August 11, 2026 (+/- weeks) – or around April 20, 2027.

(72) This is confirmed by the I Ching. Lei (Link) cites Chinese teachings, according to which the hexagram Kan #29 rules from 2026 until early 2027. This hexagram is one of the worst and represents downfall & the abyss=hell, as well as the heart & the dark night of the soul: thus, the soul review. The Chinese scholar Shao Yong (1011-1077) wrote the book Huangji Jingshi (the supreme principles of world order), in which each year is assigned to one of the 64 hexagrams, see Cornelia Kara (Link). 2026 is hexagram #13 Tong Ren (the 13, like 888, is a Christ number):

The fire moves without a trace and strides through the night city [=code for blackouts & irregular eclipses?]. Long-lasting tranquility [=maximum Yin] transforms in an instant into frantic clamor [=maximum Yang]. Old agreements between people shatter like paper. Everything is set in motion simultaneously, allowing no pause.

Here, in a completely different system, we have yet another lightning-fast 180° shift from extreme Yin at the beginning of 2026 (boring & dull) to extreme Yang in August 2026 and April 2027 (murderous action). In TCM (among others, Master Tong), this shift represents the rapid transformation of pain and stagnation into healing. According to Cornelia Kara, the 6 lines of hexagram #13 also identify summer 2026 for the severe unrest/civil wars, before & after the soul review. However, it is questionable whether one should actually use the old Chinese New Year in mid-December: I would use the modern, later New Year, from the end of January to mid-February, in accordance with the end-times effect of the delay.

(73) There is further confirmation from the HDS (Human Design System) partly based on the I Ching. Gate 13 = hexagram 13 corresponds to 13-19° Aquarius, where the sun transits heliocentrically from August 5th to 11th: again the same date August 11th, which could also be relevant for the soul review. The HDS inventor Ra Uru Hu already spoke in 1987 of the end of this age with the ‘new children’ in early 2027: these are those young devils they call ‘children’ (Alois Irlmaier).

(74) In 2013, Kim Clement stated that Elijah = Kaiser Henry the Fortunate would kill these very 'children' = devils in 2027 (Link). Elijah will only perform these heroic deeds after the 3DD, which occurs approximately 6 months after the soul reading.

(75) Independently of this, a fourth Chinese perspective again points to June-July 2026 for the strongest masculine-fiery Yang energy (especially around June 21, 2026), see Cong Duc Ha (Link): here we have the wood horse month in the year of the horse, which last happened in 1846: 1846-49 therefore saw the highest number of revolutions in the 19th century. In the same year (on September 19, 1846), the series of apocalyptic Marian apparitions began with La Salette (Link): a Chinese San Yuan cycle 180 years later is the second half of 2026. Actually, 1846 was not identical either, because of the 3600-year Nibiru cycle in the Chinese calendar (Link). According to Revelation, God's punishments are carried out by the horses (riders) of the apocalypse, and fire is the wrath of God: the soul review is always described as very fiery – because over 99.9% (=black souls) experience the fire of hell. Therefore, for the soul review we need a super-strong fire element.

(76) For this soul review, we therefore need a super-strong fire element, confirmed by the western zodiac: in Q3/2026, *all* planets except Uranus and Pluto (but including Chiron) will transit the fire signs - statistically speaking, this is approximately a once-in-a-century event. We also had a similar amount of fire in the spring of 1849, at the height of the 19th century's revolutions. A burning star=comet is another fire sign, yet the most noble form is nuclear fire. The world destruction alternates between fire & water, as also indicated in Genesis 9-11 (with 911): last time we devastated the planet with water, and this time primarily with fire - which cleanses more thoroughly and therefore more satisfactorily, Maranatha!

For the war activity associated with introspection, all masculine Yang signs, i.e., fire and air, are relevant. It is particularly important when the 4 trans-Saturnian planets (Chiron, Uranus, Neptune, and Pluto) are in masculine signs. Geocentrically, until 2084 this will only be the case from September 2026 to April 2027 (heliocentrically until May 2027). This constellation coincided with 2 of the 3 greatest periods of war in history, as well as 9/11 as the most significant military-geopolitical turning point in 30 years. On June 19, 1792, *all* classical planets were in Yang signs (except Chiron): 2 months earlier, the Napoleonic Wars began with the French declaration of war on Austria, representing the third largest period of war activity in the last millennia after the two world wars.

(77) Only pretty late did I realize that Liu Bowen's prophecy 1311-75 (Link, Link, Link) meant that the soul review could not take place before February 17, 2026, the new year of the horse (= end of the dragon & snake years). Liu Bowen warned that one had to survive the dragon & snake years for eternal life: this referred primarily to the incredible spiritual attacks between early 2024 & early 2026, meaning that 90-95% of the 144,000 chosen ones (like Heather Michelle) lost their souls during this time. Matthew 24:24 warns of the seduction of the chosen ones, with the double 24 meaning 2024: the turning of the chosen ones to black actually began in 2024. It has been clear to me for years that the massive spiritual attacks continue until the soul review: if the spiritual attacks had to last until at least February 17, 2026, then the soul review could not have taken place before February 17, 2026. The serpent, and thus the Year of the Serpent 2025/26, is of course the main symbol for the seduction (serpent -> Eve -> Adam). The warning=soul review 6 weeks to 6 months before the resurrection in the year of the horse until 6.2.2027 therefore points to 2026 for the soul review (without the +1 code).

(78) According to Rabbi Efraim Palvanov (Link), we find similar codes several times in the Bible: in Genesis 49 before the terrible day of the Lord, the tribe of Dan becomes the snake that bites the horse's heel – thus again the transition snake->horse.

(79) Professor Eugene Gan (Link) dreamed in 2022 (during the first minor energy shock) that the soul review would come during the late oil shock, when only a few gas stations would be open: in the USA or worldwide? This has clearly points to summer 2026, when this will be the case: primarily in the USA, and very differently in the rest of the world (not in the few oil-rich countries like Russia and China, since China enormous reserves). Junior prophets fundamentally misunderstand their messages: when something is meant literally (as here), they interpret it symbolically, and vice versa (often double meanings).

(80) The Jewish feast of the new wine, Chag Ha'tirosh, on the 3rd of Av is the marriage feast (link), which is the earliest possible date for the wedding with the Lamb: according to John 15:5, the vine represents the white souls. This marriage *could* take place during the 3-hour darkness and the soul review, and therefore *could* also be a code for the soul review. The next feast of the new wine is either July 17, 2026 or July 26, 2026, depending on the calendar (standard or Enoch). Tu B'av (Jewish Valentine's Day) on July 29, 2026, has an almost identical meaning.

Other new information

Like garbage, you remove all black souls. Therefore, I love what you command. (War Prayer Psalm 119 Verse 119 with the double 911)

Even without direct reference to the soul review, there are many new insights:

(1) The Seventh-day Adventists were from the beginning an instrument of the devil, with the Boss Satanist Ellen White in 1847 and her Sabbath nonsense. Although Professor Walter Veith was expelled from the Adventists, we can still use him as a counter-indicator: according to Veith (at the

latest in 2020), the return of Christ cannot occur until *after* 2027, thus a strong argument that it will come before then (Link).

(2) There is the ancient Vedic Samvatsara cycle of just under 60 years Jupiter-Saturn (Link), somewhat shorter than the Chinese 60-year cycle. Rowan Hogg studied its effects on the stock markets (Link, Link, Link). This is also roughly the length of the Western Kondratieff cycle, where, as everywhere, the end-times effect of being late is evident: starting in 1949, it is already in its 77th year, which is far too long. The Hindu New Year, Gudi Padwa/Ugadi, begins with the new moon from mid-March to mid-April (Link, Link). On March 19, 2026, the Parabhava year began: the 40th year in the 60-year cycle (since 1987). From then on, Shiva the Destroyer dominates for the remaining 20 years. Praise be to the forces of destruction! Parabhava means defeat, humiliation, and downfall, where we brutally crush our egos.

Veera Brahmendra Swamy (1608-93?) also prophesied the appearance of the Kalki for the Parabhava year, spring 2026 to spring 2027, which has a similar meaning to the return of Christ and is also symbolized by the white horse (Link). The Kalki kills all the black souls to restore divine law and begin the golden age. Thus, in the approximately four-century-old Kalagnanam scripture, we have a timing reference to the return of Christ (in a 60-year cycle). The first micronova (sun with a ring) is projected for spring 2027 to spring 2028.

In the 5-year Magha cycle, 2026/27 is ruled by Rudra, the planet of destruction. Rudra was born from Brahma's forehead when he was angry, he represents the holy wrath of God. The last Rudra year, spring 2021 to spring 2022, marked the absolute death toll in human history due to Kill Bill's wonder weapon. 2027-32 is ruled by Soma (the Moon): this is, in principle, simpler.

(3) Patterns of Solar Eclipses: Solar eclipses are the strongest traditional astrological factor, a point emphasized here for the last 10-20 years. In the year before the crucifixion in 0032, there were solar eclipses on March 29, 0032, and September 23, 0032 (Link, Link): what a coincidence that this pattern repeated itself almost exactly in 2025 (+/- 1 day), with the solar eclipses of March 29, 2025, and September 22, 2025 (in the time zones of Australia and Asia) – thus, the year of the crucifixion in 0033 is almost identical to the year 2026. The fundamental pattern: such a repetition does not occur for centuries, and then several times in succession at a median interval of approximately 19 years = Metonic cycle. The last times were March 29, 2006 & September 22, 2006, and March 29, 1987 & September 23, 1987. In August 1987, during the Harmonic Convergence, humanity jumped for the first time in tens of thousands of years (since Atlantis) to a level of consciousness LoC > 200 on the scale of Dr. David Hawkins, who called this a covert return of Christ (Link). Interestingly, the same pattern also occurred in the year 0070 (destruction of the Second Temple), where the Diaspora began for over 1800 years. We will see this pattern one last time on March 30, 2033 & September 23, 2033, then the window will close for centuries.

Purely by 'coincidence', we arrive at the same 7-year cycle here as with the near-tetrad of total lunar eclipses in 2025/26 and 2032/33 (corresponding to Jewish holidays). The major events of Jewish history occurred during these tetrads (Link) and, to a lesser extent, also during this cycle of solar eclipses. That these two constellations (which often don't occur for centuries) should coincide twice in succession, precisely at the interval of biblical 7 years (2025/26 and 2032/33), is something one might expect only once every 100,000 years: an extremely powerful setup for the return of Christ and the 7 biblical key years of 2026-33. More precisely, however, this is a *theoretical* setup, because before 2032 we will blast our repugnant moon (=alien spaceship for controlling Earth) into a dreg of land along with our asteroid weapon. So we are pretty sure that 2025/26 will be the very last time we see this pattern in human history.

(4) On August 28, 2018, the Watchwoman saw 5 irregular eclipses (Link, Link), one of which was an eclipse rising from the ground: what could this be? This correlates with the five resurrections according to Zarathustra, Tim Foster also propagates five 'raptures' = resurrections, and Kristen Mitchell saw the Boss say five times in 2014 that he was coming (Link). Even the 5 supersmart virgins (Matthew 25) and the 5 husbands of Photina (John 4) could be a code indicating that a wedding with the Lamb is possible 5 times. I am therefore increasingly inclined to believe in approximately 5 resurrections and probably even more irregular eclipses. We must absolutely and 100% distance ourselves from conventional exegeses, especially those based on Alois Irlmaier and other dark souls, who assume only a single irregular eclipse (=3DD) – praise be to the Lord!

(5) An old Bible from 1818 stated that 2026 is the biblical 6000 years since the creation of this age and thus the year X or X3 (Link). The older a source, the better: old sources older than 200 years are on average light-years better than new sources.

(6) October 31/November 1: The last Marian apparition in Düren in the Rhineland occurred at precisely the same time as the one in Heroldsbach (Link), namely at midnight on Halloween 1952. This confirms the significance of approximately November 1 for some major spiritual event. In 2015, Ken Peters spoke of the unforgettable November 1 as the holiest day of the conscription (Link). Incidentally, the Marian apparitions in Heroldsbach from 1949 onwards (north of Nuremberg) were the *only* source known to me to claim that World War III would originate in Crimea (in the broadest sense, the denazification of Ukraine began in 2014). This is a particular quality characteristic of Heroldsbach, which is hardly ever taken into account (Link): the greater the interest of the (M)asses, the lower the quality.

(7) In Islam, there is talk of a 40-month interval between the two trumpets = 'raptures'/resurrections (Link). More precisely, Muhammad spoke of 40 units of time, but we can rule out anything longer than 40 months, and 40-45 months is confirmed by many other sources. However, it could be a double code for an interval of approximately 40 days, compare the 37-day interval 2TF-3DD according to Marie-Julie Jahenny. It could also define a 40-day cycle of 2-3 raptures with the anchor point December 8th: October 29th, September 19th, August 10th, and July 1st (=soul review?). Muhammad mentioned that the resurrection begins at the coccyx: according to the findings of the Merlin lineage, the coccyx is the first/last karmic knot with the theme of fear of death. As long as one still holds this karmic knot, one must incarnate again in a 3D dung bag. In the Merlin lineage (which fell in 2020), the unraveling of the karmic knots occurs in the very first seminars, however, only after the dissolution of the incarnation body is reincarnation in a 3D dung bag practically impossible - but this happens quite late. Mohammed thus recognized very precisely where the crux of the matter lies: as so often, his statements are light-years ahead of the Christian ones.

Several sources support the idea that the second trumpet will signal the rapture and Resurrection on April 7, 2030. This date, 40 months prior, is December 7, 2026, and therefore fits perfectly. Rabbi Baruch Rosenblum expects the Messiah on the first of Nisan, which would be April 4, 2030, without the +1 effect (Link). This statement is based on the ancient book Kli Paz approximately 500 years old, which is the only ancient source that predicted the final war (for Israel) at the Strait of Hormuz to my knowledge (long before the oil age). This is therefore a strong argument for a reliable source. The central axis in the Jewish calendar (religious/civil New Year) is definitely the first 2 weeks of the months Nisan (mid-March to early April) & Tishri (mid-September to early October), see the Rabbis Eliezer ben Hyrcanus & Yehoshua=Joshua ben Hananiah (Link) deceased 0131.

The two witnesses (Moses and Enoch) punish the evil race with their fiery breath for a delightful 42 months (Emperor Henry the Fortunate = Elijah = John the Baptist), during which time these true servants of God commit terrible atrocities. Then they are killed and rise again: around April 7, 2030? Therefore, the two witnesses would have to appear two months before the first trumpet blast, i.e., around October 7, 2026?

(8) Holly LoC=560 (Link) saw a dinosaur plague during the 3DD: the tyrannosaurus rex in Brainwashington is already a premonition of it. Many other sources also speak of giant creatures devouring the black souls during the 3DD, 7-10 meters tall according to Seconds to Midnight (Link). Bon appétit! Pterosaurs also appear in the film The Mist (2007) based on Stephen King. In the illuminati card game, there's the dinosaur park card where 2+ million customers are eaten: let's pray the dinosaurs get millions of two-legged creatures as good food.

(9) Robert Breaker speaks of 7 'raptures' (Link): he is the *only* source I know of that is so comprehensive. His understanding of the 'rapture' = resurrection is 108 times more comprehensive than that of the Christian rabble, he at least recognizes a process or many steps. Breaker has almost the same birthday in July 1974 as I: so there are strong similarities, especially the central constellation Mercury-Saturn-Pluto, with which one systematically explores things in depth and thinks them through to their conclusion (I have Mercury-Pluto accurate to within a few arcminutes). For the Bride of Christ, the preparations for the resurrection began 500-2000 years ago. A palm leaf mentioned a previous life of mine, where I was a follower of Jesus Christ as an itinerant merchant of cloth and furs: the beginning of the preparations for the resurrections. Only a few

sleepyheads have been working towards this lofty goal for just under 500 years. The assumptions of these Christian zealots are, of course, 100% false: there's no greater nonsense anywhere. Generally speaking, the West, deformed by so-called 'Christianity,' is a spiritual wasteland when it comes to spiritual topics like reincarnation, etc. Of course, Breaker's list of 7 points is by no means comprehensive, see my explanation of the 13 types of rapture (https://www.amanita.at/docs/open/20250201-e.pdf). Specifically missing are, among others, the soul review and the Marriage with the Lamb:
(i) Christ's Return
(ii) Resurrection
(iii) Being Snatched Away
(iv) Body Transformation
(v) Transfiguration: Change of form in the same place. Similarly, Sammy Omosh from Kenya envisioned the transformation of the chosen ones even before the actual 'rapture' (=Resurrection), giving them siddhis (superhuman abilities), like Elijah in the Old Testament (link). Acts217now also foresaw this transformation before the actual rapture in 2014 (Link): a terminological mess, of course.
(vi) Translation (Displacement): A displacement means a change of location - in a 3D dung bag or another body. This is reminiscent of Nostradamus (Link): „*In the month of October, there will be such a great translation that one will believe the Earth's gravity has lost its natural course and has plunged into eternal darkness.*" The part about the vanishing gravity is very strange, no serious prophecy actually speaks of the cessation of 3D gravity. It must therefore refer to the end of subtle gravity with the flying away = 'rapture'. For translation, see also Let There Be Light-Let There Be Truth (Link), Calvary Chapel Perth (Link), Wendi Lee (Link, Link) & Tim Foster (Link). The vehicle for this journey is the merkabah: God's throne chariot from Ezekiel 1, after which an Israeli tank is also named. And the road for this journey is the heart lines. Unfortunately, Drunvalo Melchizedek popularized the Death Merkaba with the Fibonacci numbers to send people to hell: Lisa Renee provided the correct parameters when her soul was still white (Link), as well as the true Flower of Life (Link), not the Flower of Death by Drunvalo Melchizedek.

New information for me

He will judge the unbelievers [=black souls], he will fill the places with corpses. (Psalm 110)

For the black souls, God has been silent since autumn 2025, only for the white souls (currently only 10,000) is the gate still open. On the night of January 21, 2026, I woke up from dreams extremely frequently, according to queries, I had 74 (!) dreams that night alone, many of them prophetic and some related to the soul review. Here is a tiny selection, although I received the date Friday, July 10, 2026, several times in different ways: soul review or the preceding cosmic events?:

(1) On May 8, 2025, I dreamt that I was standing in a cemetery in North America during the summer (it was definitely very warm) by a gravestone inscribed with: Russian soldiers killed in North America. In the dream, I thought to myself: strange, this gravestone is already there, even though that hasn't happened yet. Then a voice said the soul review is tomorrow at 8 a.m. (= 2-4 p.m. in Europe), and I had the impression that this was a Tuesday or Friday. @discmasterscom (link) & Pedro Regis (Link) also speak of Friday = day of the crucifixion for the warning=soul review. Blessings of Hope also predicted 7-8 a.m. in the USA (Link). My dream confirms the soul review taking place in the summer.

(2) On 3/25/2026 I dreamed that a blubberbutt billed me €105: this is perhaps a code for 105 days later = July 10, 2026, and for the evil empire The soul review shows us which karmic debts we still have outstanding: it is also a small day of reckoning. It goes without saying that a fatso can also be a symbol for the fat people nation USA.

(3) Since January 2026, I have been hearing the song Maranatha = come here Jesus more frequently on the subtle energy level. Since the free Amanita newsletter of March 11, 2026, I have been permitted by the Boss to use the greeting Maranatha: that is: come, our Lord! This greeting appears in only one Bible passage, namely 1 Corinthians 1: 6-22: 622 is the mirror number of 2(0)26 and thus a code for 2026.

(4) Page 777: The soul review is strongly connected to forgiveness, which is determined by the master number 777 and higher vibrations such as 77,777, as explained above. In 2024, I

calculated that I would reach page 777 in my spiritual journal in the spring of 2025, based on a trend extrapolation. But then I suddenly wrote much less, and I didn't reach page 777 until January 2, 2026. Reaching page 777 on New Year's Day triggered another +1 code. This is because the events on New Year's Day represent the events of that year. For example, on January 1, 2025, a Tesla exploded at the Trump Hotel. This was a code for the great break between Trump and Elon Musk in 2025: it also represents the break within the 5 Illuminati factions, i.e., Zion (=Trump) against the 4 other Illuminati factions (=Elon Musk, JD Vance, Peter Thiel, etc.).

(5) Mileage 77,777 km: Another 777 code will 'coincidentally' be triggered for me in the same year, 2026: mileages of 77,007 km and 77,777 km for my car, according to an extrapolation in the second half of 2026, or even more likely at the end of 2026. The 777 and 77,777 km readings are the two most important odometers in my life, similar to page 444 in the Garabandal forum.

(6) On January 1, 2026, I dreamt that a terrorist shot me three times in St. Stephen's Cathedral in Vienna, but it didn't bother me, I simply said: Jesus is within me. I knew in the dream that this would happen one week before the soul review. The dream, occurring precisely on New Year's Eve, is a code indicating that this will happen in 2026. The soul review could even mean that the soul review takes place one week after a terrorist attack in St. Stephen's Cathedral.

(6) Dream 4.1.2026: I went back to my school to collect some of the things I still had there. The school is a symbol for the educational planet Earth, and the end of school is the end of incarnations in a 3D poop bag = Samsara. In the dream, it was the last day of summer, and someone said that the sky was completely red. I then looked east and saw the moon, to its left, in the northeast, was a star similar in size to the moon. The question arises as to what the last day of summer refers to: meteorologically, it's August 31st, astronomically, September 23rd, and climatically, it would be the day before the great cold snap.

(7) On April 12, 2026, I dreamt that I returned to my school one *last* time to collect my *last* belongings. I wanted to take the opportunity to give a short speech of 5-10 minutes to the students, but no one wanted to hear it, they closed the door: the evil race would not listen.

(8) In the Mayan calendar, the age of 18,980 days completes a calendar cycle and symbolizes the resumption of one's life's purpose (Link). As the most comprehensive soul review analyst on the planet, I will reach this age on June 29, 2026: it fits like a glove.

(9) Further pivotal spiritual events occurred, including the beginning of the dissolution of the karmic bubble, which consists of many parts, one of which is event karma. On February 27, 2026, I received a letter of release from this planet and a certificate of liberation.

(10) Furthermore, changing one's destiny (=12D), which consists of Karma and Dharma, is now slowly becoming possible. The complexity of the karma issue is 1008 times greater than assumed by spiritual populists or proletarians. In the 7 bhumikas (stages of spiritual development), the resolution of event karma corresponds to #6 Padarthabhavana (Link, Link, Link, Link). See also the consciousness table according to Dr. David Hawkins, which, however, is not entirely accurate (Link):

(i) Shubheccha (LoC>450): spiritual interest (desire for truth, love & goodness)

(ii) Vicharana (LoC=high 400s/low 500s): spiritual seeker & exploration of the spiritual through regular spiritual practice

(iii) Tanumanasa (LoC=mid-500s): first spiritual successes (opening of the 3rd eye & rudimentary soul access) – according to Hawkins, about half of the *highly motivated* (=diligent) spiritual seekers reach LoC=540

(iv) Sattvapatti (LoC>570-600s): greater spiritual achievements (purity=Sattva, supernatural powers=siddhis such as miracle healings & junior prophecy)

(v) Asamsakti (LoC=700s): non-attachment, senior prophets, dissolution of most karma, but the prarabdha karma = destiny still remains.

(vi) Padarthabhavana (LoC=700s-800s): Realization of the true nature, dissolution of prarabdha karma (densest layer of karma), the Boss becomes the Bridegroom here. Almost no one has been able to reach this level in the last 1900 years (the 12 Apostles were the last wave), this will only be unlocked with the return of Christ.

(vii) Turiya (LoC=900s): Union with the Divine = Marriage with the Lamb, 100% resolution of karma (also destiny) surrounding the marriage with the Lamb. This is also the conscious abandonment of the 3D poop bag Mahasamadhi (Link)

(11) On February 18, 2026, I asked when these things would happen, and then the Boss/bridegroom revealed to me that my personal spiritual master cycle is 9.16 months (half cycle 4.58 months), due on May 26, 2026, and October 13, 2026.

(12) On March 11, 2026, I had a warning dream: I was riding a bus in London and missed my stop because I was discussing the sensual world of the Maya with someone. I had to continue to the next stop, which cost an astronomical 400 pounds: the price for missing the first, correct stop (the first rapture) is extremely high. The 400 could also be a code for the 400 years since 1626: in the Vienna Hofburg, the crown for Emperor Henry the Fortunate lies ready, but no one has yet been crowned with it. The number 26, both forwards and backwards, has two 26s: a double code for 2026. The number 400 is very important in the Bible, including the roughly 400 silent years before the first coming of the King of Kings, following the roughly 400 years of the Old Testament prophets, around 810 BC, Joel and Jonah.

(13) According to my dream of May 8, 2025, the soul review will occur at the earliest 1-2 months *after* the first nuclear saviors. This presumably refers to the massive nukes in the Middle East - or perhaps even the US suitcase bombs that will soon follow? I am therefore now strongly convinced that the *official* use of nuclear weapons must occur even before the soul review. * Unofficially *, we have already used many nukes since 2015, and on May 13, 2023, Russia dropped an atomic bomb over uninhabited territory in Alaska as a (futile) warning to the great Satan, the USA. This was the unofficial beginning of the nuclear Third World War, which we will hopefully, with God's blessing, bring to an unimaginable, multi-orgiastic crescendo 42 months later in November 2026 (1/3 of the world's population dead in 12-20 minutes).

(14) On April 11, 2025, I dreamt that the soul review would happen in 3 [time units]: this indicates in the 'raw data' 3.00-3.99 quarters later, with the code +1 (+1.1-1.2?) we arrive at a good 5 quarters = summer 2026. Initially, I didn't know whether the time unit was weeks, months, or quarters/seasons. Because of the end-times effect of the delay, one must always exploit all possibilities to the fullest extent.

(15) On 15 May 2026 I had a dream about a wedding (with the lamb) and a woman named Brigitte played a role in it: her name days are 23 July and 7/8 October.

(16) On 1 August 2025 I had a dream where my presumed decryption points to 3 November 2026.

(17) On 14 February 2025 I had a dream with the message 'in 511 days', without specifying what was supposed to happen: this points to 10 July 2026 (without +1 code).

(18) On December 24, 2025, I received an *irreversible* wedding dress from the groom (formerly the Boss). A cycle is thus slowly being completed, as the first sealing by God began in May-June 2021, and in September 2021, a women's undershirt, size 50, suddenly manifested in my wardrobe. This represented my age of 50, and with the +1 code, age 51. According to my latest empirical evaluations, this is a median code of +1.1 or +1.2, which points to Q3/2026.

(19) In December 2025, I dreamt that I was flying home from JerUSAlem on December 25th: ‘rapture’ = Resurrection? In 2024, I dreamt of Christ's return on September 29, 2026 (+1 code). Before September 17, 2025, I asked for confirmation again and dreamt of a school magazine where I was listed as the fastest in the 62-meter race. In the dream, I said to myself, "That's very short," and wondered: "62 meters doesn't even exist, only 60 meters." The 62 reversed is 26 -> 2026.

(20) On December 7, 2025, I had two highly coded dreams in a row, which might point to the soul review for an Andrea name day. The only Andrea name day from April to the end of September is on July 10 (in Sweden). In the Simpsons S16 E18 (May 8, 2005), Andre is also associated with the rapture (Link). Olav Rodge from Sweden heard the last trombone on December 11, 1952, at the age of 79, in the house of the André family: another Andrea code. By far the most important person in world events in 2026 is also 79 years old, meaning the old pedophile is 79 years old until June 14, 2026: here, as almost always, we need a +1 code.

(21) On April 10, 2026, I dreamt of a woman preparing for her wedding for nine months, but then suddenly it was 40 days shorter: January 10, 2027 - 40 = December 1, 2026 - then suddenly it was summer in the dream. We have a code for approximately December 1, 2026 & January 10, 2027.

(22) After inquiring with the Almighty on March 12, 2025, I first dreamed of a wedding (with the Lamb), then of a plane hijacking and a crash only after about 70 (68-72) hours. In the dream I asked: but they can't have oil for that long, can they? The oil = Holy Spirit is a reference to the parable of the five brainwashed virgins who run out of oil while waiting for the wedding – in contrast to the five clever virgins. The crash would then be the running out of oil during the approximately 70 hours of 3DD? When I woke up, there was a strange, loud bang in the room: does this indicate a big bang 70 weeks later = July 16, 2026?

(23) My palm leaf from Chidambaram prophesied the following in October 2017 for July 2023-July 2026: „*Many good people will seek me out because of the Maharishi's blessing.*" Maharishi is the highest Hindu spiritual title, the Vedas and palm leaves are written by such Maharishis. At first, I thought the Maharishi's blessing had something to do with the palm leaf Rishis, it wasn't until 2025 that it dawned on me that the rishis were calling me a Maharishi. Such a spiritual influx is only conceivable *after* the soul review, where at least some people (20% of humanity?) briefly have an epiphany. Due to the end-times effect of the delay, the timeline until July 2026 likely means around July 2026 (also for the soul Review) or even later. For example, the meeting with my twin flame was announced in the 2 years into July 12, 2026, and happened 1.x weeks late (+1.x code).

(24) On 3 February 2026 I saw that my wedding dress was currently being sewn with white fabric: each dress for the Bride of Christ is individually made.

(25) On March 11, 2026, I saw that in certain pearl activations, Revelation 21-21 was partially fulfilled: „*The 12 gates of heaven are 12 pearls, each of the gates is made of a single pearl. The street of the city is made of pure gold, like clear glass.*"

(26) On 26.1.26 I dreamed of the important date Monday 17.8.: then I looked up the next two Mondays 17.8.: 17.8.2026 & 17.8.2037.

Preparation for the Soul Review

Just as silver, copper, iron, lead, and tin are gathered together in a furnace and the fire is lit beneath it to melt them all, so I will gather you together in my anger and wrath, I will put you in the furnace and melt you. I will put you all together and unleash the fire of my anger against you.
(Ezekiel 22)

In short, we're waiting here for the official deployment of nuclear saviors (perhaps also for the Pope's trip to Moscow), then the soul review can come any day now, and almost certainly within weeks. In the days leading up to it, we expect momentous celestial events, including a cross in the sky. Of course, we're very close, because that filthy pedophile in Brainwashington already wanted to use atomic bombs against the noble Persian cat back in April 2026, but was – for the time being – stopped by the US military. Now, 1001 Nights is officially threatening to use its nuclear bombs, which, thankfully, it has possessed for more than a decade (Link). This dropping of the pants makes it clear that Iran is now indeed ready to deploy its nuclear saviors in the fight against the axis of evil: Glory to God in the highest!

Preparation - spiritual cleansing - determines whether one survives the soul review or not. Joseph Stockert, August 23, 1947 (Link): „*Many who are deeply indebted will be so terrified by these events that they will die.*" According to a query to the Almighty on May 7, 2026, up to 10-40% of people could die within a week of a soul review on the same day. Until the soul Review, the recommendation to do at least 3-6 hours of spiritual work per day remains valid, and 8-12 hours for those with dark souls. The necessity of at least 3 hours of spiritual work per day starting in 2018 was already foreseen in the 14th century by the monk Ragno Nero (Link), as has been discussed here since 2019. Every sincere hour of spiritual work leading up to the soul review will yield a substantial return and alleviate the pain during the review. An ancient African witch (Link) knows from her time waging spiritual warfare against white souls that three times are super powerful and should be used most intensively (local time applies):
(a) The most powerful time is 4-6 a.m. before sunrise: this is also known in the Vedas.

(b) Midnight
(c) 3 p.m.: Time of the crucifixion

Dr. James Spottiswoode's 1997 meta-analysis, intuition is by far strongest between 13:00 and 13:45 (in temperate zones), and this should also apply to spiritual work. At this time, the ascendant is aligned with the Galactic Center at 27° Sagittarius. This changes throughout the year: in Central Europe, this occurs around 6:00-7:00 AM at the turn of the year and around 7:00 PM (summer time) at mid-year. Therefore, in the coming months, this will be in the early evening, when most people have time.

Incidentally, conventional therapy methods offer little to no benefit in preparing for the soul review, and on average, there is ultimately even damage to the soul – for myriad reasons. Perhaps the most important reason is that therapies almost always only address the victim role=Yin, not the perpetrator role=Yang. This is also the difference between a confession and all the newfangled nonsense, especially since Sigmund Freud: the tenor of confession=Yang is "I have done evil and failed to do good" - whereas therapies=Yin almost always focus solely on the victim role (X did Y to me). Therefore, Satan promotes conventional therapeutic methods to the best of her knowledge and conscience, because that is the sure path to hell. Even for mental health issues like depression and anxiety, conventional therapies are ineffective: according to a super-meta-analysis based on 63 meta-analyses with 1158 studies, physical exercise is at least as effective, or even more so (link). The reason isn't that exercise is so good, but that psychological treatments are so weak. However, the strongest results were shown by a small sauna pilot study (link): after less than 2 months, 92% no longer had depression.

Then comes the soul review, during which one should offer as little resistance as possible, but rather surrender in the best possible way, for 6+ reasons:

(1) Resistance to the will of God is completely futile here, there is no grace for it.

(2) Resistance to the soul review will increase suffering during and after the soul review: for it was precisely this resistance to God that caused the whole cacophony.

(3) The more one remains in devotion, the stronger the forgiveness of sins during the soul review.

(4) Most importantly, we must embrace the healing power of fear, which is so powerful here. The key problem of the end times is the lack of fear and the excess of trust. Only total psychopaths and zombies feel no fear, as well as those who are 100% armored (‘Panzer’) in the sense of Wilhelm Reich. We must distance ourselves completely from all teachings (and that is almost *all* teachings) that pathologize fear and demonize its healing power. David Hawkins (who for a time ran the largest psychiatric practice in the USA) extols the central role of trauma/terrible fear in spiritual evolution. The tale of the boy who went out to learn what fear was, has the number ATU 326 with the 26: code for 2026? This tale addresses the zombification of humanity emerging in the Kali Yuga, which manifests as fearlessness. The old tales are 1008 times better spiritual guides than today's heresies from religion, egoteric teachings, psychology, etc. Paradoxically, black souls often manifest as a lack of fear - because they are separated from their soul. Thankfully, through the soul review, people will learn to fear (even if only briefly): praise be to the Lord! For these reasons, the fear index VIX is also far too low, it quantifies the lack of fear.
(a) Fear of God is the best, but only arises in the mid to high 500s on David Hawkins ' scale, meaning 99.9% can feel virtually no fear of God - except through special events like near-death experiences and the soul review, as confirmed by Conchita Gonzales (Link).
(b) Fear of Hell is the second-best fear, some ancient prophecies express surprise that people in the end times have no fear of Hell. In the soul review, one experiences the place one would go to upon death on that day: for almost all of humanity in 2026, this is hell - apart from the 10,000 white souls. In 2019, I still assumed that 100 million would remain white: I was a bit off, by a factor of 10,000.

(5) The lower the resistance, the higher the chances of survival: this is important for the purification of the soul during the 42 days that follow, which should be completed if possible. If one can restore the soul to whiteness here and then dies, then at least one remains in the cycle of reincarnation instead of going to hell.

(6) The most miserable pigs will of course be the Christian devils, as well as all those who close their eyes to the reality of reincarnation. Suddenly they see their sins from previous lives, of which

they knew nothing at all: this will trigger a lot of resistance. We also find this very coded in the Garabandal statements (Jacinta Gonzalez 1983), that even infants experience the soul review (Link). What biographical sins, for example, could a 3-hour-old child possibly have? Such a soul review is pointless without karma revelation. Without intensive karma redemption over many years or even decades, things look very, very bleak – with absolutely no chance for the 'rapture' = resurrection. Personal karma extends up to the 9th dimension, while familial-systemic-genetic karma only reaches the 7th dimension. I began reincarnation therapy in the spring of 1995 at the tender age of 20.

99.99% of people (the black souls) will experience the greatest fear of their lives during the soul review, resulting in the deaths of many. Therefore, one would think this would have a lasting effect, but the prophecies say the opposite. For we consistently find the holy tens of thousands in Christian and Buddhist prophecies: this is only hundreds percents more than the current 10,000 saints (=white souls). In Buddhism, we find the 84,000 wisdom teachers, presumably 84 years after the founding of Israhell in 2032/33, or in the Year of the Dog and the Pig, 2030-32. Deuteronomy 33, which mentions the tens of thousands of Ephraim, supports the 2033 date (Link). @JESUS_IS_GOD (Link, Link) saw that only one person per town was 'raptured': depending on the size of the city, this means, for example, one person per 100,000. Central Europe defines anything with fewer than 20,000 inhabitants as a small town, a medium-sized town as 20,000-100,000 inhabitants, and a large city as over 100,000 inhabitants: so a town has at least 20,000-100,000 inhabitants. In 2013, Whitney Eslick Manuel (Link) was very disappointed after receiving a message from an angel about how few people are "raptured." When she inquired again, the angel said she had misunderstood, the number was *far* lower than she had assumed. Rob R. (Link) and @mariax8041, based on Lot's flight, arrived at the figure of 3 out of 20,000-50,000 (~1 in 10,000), or 2560 worldwide. The Song of Songs also mentions one beloved (of God) among 10,000 (Link). According to Deuteronomy 32-30, two people put 10,000 to flight because God released them for the final act - praise be to the Most High!

The 6 weeks following the soul review are the *very last* chance to decide for (-> white soul) or against (-> black soul) God (except for the 10,000 white souls, of course). Of those who choose God, only a tiny fraction survives the subsequent trials, their souls revert to blackness due to karma. The major soul review shock will only last about two weeks, in the following three months, most, if not all, will regress: this should obviously be avoided. Scientists will appear and claim that cosmic influences have triggered mass hallucinations among humanity: therefore, one should simply forget about the soul review. Another important point after the soul review: according to Dr. Mary Jane Even, one can roughly calculate the date of the 3DD six months later. On March 16, 2026, I asked the Almighty how many people would survive the 3DD if it were still happening on that day: the answer was only 15%. Comparing this to the prophesied survival rate of 25-33%, it at least suggests that the soul review (and the other incredible events) must lead to some spiritual evolution. However, this evolution may not be active, but rather passive, resulting from the disproportionately high death rate of the darkest souls.

The spiritual warfare of Elder Theodor-Neilos Agiofaragitis (1941-2016, LoC level = 660) was quite good. The dark Yin side waged such a fierce war against him that he couldn't sleep for, say, five days (Link). With a LoC in the 600s, one is still in a pretty bad way, only from the 700s and especially the 800s onward does the dark side have less and less power. Lloyd Immanuel Acree (Link) provides a dramatic account of how wonderfully strict God is - not the usual mental masturbation where love-obsessed Christian devils invent an infinitely merciful God in their mental boxes. The order came from the Boss: he mustn't drink alcohol for a week (he had a drinking problem), otherwise he couldn't meet his intended wife. He couldn't manage that week, so God brutally canceled the planned marriage - hallelujah! Acree had a consciousness level of LoC=550: wisdom and the beginning of the opening of the third eye - but not yet devotion (LoC>555). This is the dilemma of LoC=550: the spirit is willing, but the flesh is weak. One often sees what God wants, but is sometimes unable to put it into practice.
